It is proposed to have an eisteddfod in connection with the chantauqua and to have the larger Mormon choirs of Ogden. Sait Lake and other Utah cities, each numbering several bundred members, compete for the honor of being designated "The Mermon Cholr."

Choirs in a Contest.

For several years there has been considerable rivalry between the Mormon choirs of Ogden and Salt Lake City, and just at present this rivalry is being manifested in a wordy contest as to which organisation shall be selected to accept the offer of the New York Land show-patterned somewhat after the Omaha success-the expenses of the trip to be paid by the New York exhibition. The Ogden shoir of 350 members has made a number of journeys and has scored at least one signal success, receiving wide mention and high encomiions while at the Portland exhibition. The local choir has been drilled in the "Irrigation Ode" and because of the mastery of that difficult and pretentious composition which is to be made a feature of the mustcal program of the New York Land exhihitlon, has laid claim to the right to be chosen as Utah's best product in songs. # Woman Who Opened Grave Says She Had Vision from God

Mrs. Amanda Harrison of Stanford, Ky., Makes Confession that Indicates She is Insane.

STANFORD, Ky., Feb. 4.- The general belief expressed here today was that Mrs. Amanda Harrison, pursued, captured and returned here today on a charge of deserating the grave the attorney, will not be imprisoned. The remarkable statements made by her in her confession, the authorities believe, is evidence that she has suffered menta

"A vision from God told me that he would ise again," said Mrs. Harrison before Judge Balley yesterday afternoon. She said she worked all Tuesday night digging into the grave and removing the casket containing the body of the attorney, which was found above the grave in the cemetery early Wednesday.

Mrs. Harrison, who was arrested in emote part of Adair county, nearly 100 niles away, today readily admitted her connection with the attempted grave robbers and said she had no accomplice.

In explanation of the weird scene in which she says she was the sole actor. Mrs All preparations have been completed Harrison said that on last Saturday morn by the Nebraska Lumbermen's association ing she experienced a vision from God in which she was assured that the attorney would arise from the dead if the earth overing him should be removed. Confiding lumbermen and members of their her intentions to no one, Mrs. Harrison went about her plans for freeing the body Before leaving her home on the night of her quest she prayed fervently and stealing into the cemetery about midnight began her task. With hands unused to a spade, she shoveled the dirt from the grave, confident the end of her task meant the restoration to life of the man who had se cured her a divorce. After she had re noved all of the dirt from over the casket and had lifted it above the earth she was unable to remove the lids. Lights in the distance warned her persons were being aroused and dawn was near. Thereupor she abandoned her task and, having previously requisitioned the services of the son of one of her tenants, departed for Adair county. It was at the home of relatives that she was found today by officers, accompanied by Rowan Saufley, brother of The Burlington road will spend \$80,000 in the dead attorney.
