RAILROAD PLAYS ROLE OF GOOD SAMARITAN FOR MAN

Two Fast Trains Stop for Several Minutes Each 'Till Doctor is Found to Attend Dying Patient. Railroads are accounted as very hard-hearted, but the Union Pacific has received recognition for one good deed. Tuesday a report was sent from Carr, Colo., to Nunn, Colo., that there was an aged man nearly dying for the lack of a doctor. Arrangements were made for the Union Pacific fast mail 106 to stop at Nunn to take on a doctor for Carr. The train stopped twelve minutes while an attempt was made to find a doctor, whereas it was under orders not to stop at all. Finding no doctor this train passed its way and train 106, which is also a through train, was stopped twice, taking on the physician at Nunn and leaving him at Carr.

Martha Miller, "Friend of Man," Called by Death

Woman Philanthropist in Her Own Genial Way, Dies at St. Joseph's Hospital. Martha Miller, philanthropist in her own small realm and friend of everyone she knew, is dead. The little woman, who for years has been going on her errands of kindness, carrying a little bunch of flowers or a pretty gift to some one of her less fortunate neighbors, died at 8 o'clock last night at St. Joseph's hospital, where she went Tuesday to undergo an operation. Martha Miller was 53 years old, and had lived in Omaha practically all her life. For several years past she has been a familiar sight—she and her little pet dog—in the east part of town and her small notion store at 614 North Fourteenth street always has been the market place for many of those of small wage. Since her store was robbed five years ago and she came in contact with the police department, Martha Miller has made frequent calls at the police station. At each of these she always has brought some kind of "remembrance"—some flowers for the desk sergeants or a hot lunch for the captain. She was also a familiar sight at the annual sale of the police department and was a heavy bidder. Each year she took away the bulk of the things offered at auction to stock her store. Martha has only one relative, a brother, Galety Miller, who lives in Omaha. Arrangements for her funeral have not been made.

Big Land Fraud Case to Be Aired in Court

Charge of Homestead Grabbing Made Against Cattle Barons in Deuel County. Many homestead lands alleged to have been acquired by fraud by cattle kings of Deuel county in southwestern Nebraska will be the bone of contention over which a legal war will be formally opened in federal court Monday. The amount of land involved is not as large as that in the Comstock-Richards case, which resulted in the conviction of a number of cattle barons, but the hearing promises to be spectacular at least. In the case at hand it is alleged that several thousand acres of fenced in land was acquired fraudulently by the Western Land and Cattle company, of which George E. Townsend is the head. Benjamin Miles of Deuel county are also under indictment. The case will be aired before Judge T. C. Muzer. Sylvester R. Rush and his assistants will prosecute for the government. Testimony will be given by about twenty-five witnesses.

WORLD-WIDE FIGHT ON DRUGS

Many Nations to Join in The Hague Conference Next May.

CHINA LEADS IN MOVEMENT

Plan is to Be Placed Upon Morphine and Cocaine, as Well as an Opium the World Over. WASHINGTON, Feb. 5.—(Special Telegram.)—The State department has instructed the American delegates to the International Opium conference, which is to meet at The Hague in May, to urge a world wide fight against, not only opium, but morphine, cocaine and all other habit forming drugs. The conference was originally intended to discuss the opium traffic exclusively, but a short time ago, at the behest of Great Britain, one of the powers to be represented at the conference, morphine and cocaine were added to the subjects. Italy followed shortly after with the demand that the conference not only find ways to restrict the world's traffic in opium and other drugs, but the deadly annals or hashish, made from Indian hemp, which is dealt in with smugglers on Italian shores. The State department, it is now stated, commissioned delegates to the conference, and will promulgate institutions covering the entire field of habit-forming drugs, so that the commissioners from America will not only have full signatory powers as regards traffic in the main drugs, which are threatening the manhood of the world, but will have liberty to go as far as any nation wishes in imposing restrictive measures on any other drugs.

OLD PAPERS OF MARK TWAIN

Outline of Fight in Cave in "Tom Sawyer."

SARCASM FOR MR. ROOSEVELT

Compares Colonel to Incubus on Earth of Imaginary Weight on Sun—Country Smothering Under Burden. NEW YORK, Feb. 5.—Books formerly owned and manuscripts written by Samuel L. Clemens (Mark Twain) collected here for disposal at auction at an early date are found to contain some excellent indications of the late author's methods of work. An interesting and comparatively recent document refers to Colonel Theodore Roosevelt. One of the early manuscripts is a page of notes for an outline of a portion of "Tom Sawyer," which relates to the fight in the cave. Among the notes are written, "quarrel, fight, Peter knocked down with Tom's shovel. Joe rushes in and knocks Dr. Potter senseless. Joe will bury doctor in Tom's hole and will make Potter think he is necessary. Finds treasure—goes and hides it—returns and finds P. up. No use to bury body for Potter thinks he did it." Among the manuscripts is one described as "An article in the inauguration of President Taft and the deliverance of the country from Mr. Roosevelt," dated March 5, 1904. A portion of it follows: "Astronomers assure us that the attraction of gravitation on the surface of the sun is twenty-eight times as powerful as is the force at the earth's surface, and that the object which weighs 217 pounds elsewhere would weigh 4,900 pounds there. For seven years this country has lain smothering under a burden like that the incubus, represented in the person of President Roosevelt, the difference between 217 pounds and 4,900. Thanks be, we got rid of this disastrous burden day before yesterday at last! Forever? Probably not. Probably only for a brief breathing spell, wherein, under Mr. Taft, we may hope to get back some of our health—four years. We may expect to have Mr. Roosevelt sitting on us again with his twenty-eight times the weight of any other presidential burden that a hostile Providence would impose upon us for our sins. "Our people have adored this showy charlatan as perhaps no imposter of his breed has been adored since the golden calf, so it is to be expected that the nation will want him back again after he is done hunting other wild animals heroically in Africa with the safeguards and advertising equipment of a park of artillery and a brass band."
