### FATHER DALTON AT FUNERAL

#### Life-Long Friend of Bishop Bonacum to Speak at Obsequies.

#### HIGH CHURCHMEN TO ATTEND

#### Services Will Be Held at St. Theresa's

#### Protestant—Lincoln Minister

#### Oppose Liberal Tendencies of Citizens.

(From a Staff Correspondent.)  
LINCOLN, Feb. 7.—(Special.)—The funeral address for Bishop Bonacum Thursday will be delivered by Father William Dalton, who has been a lifelong friend of the bishop. Mass will be celebrated at 10 o'clock with Bishop Bonacum's obsequies in St. Theresa's church, where the body was taken this afternoon. Members of the highest councils of the Catholic church will be present, and representatives of all the important public organizations of the city, including the legislature.

**Ministers Oppose Liberals.**  
The ministers of Lincoln took their stand against any more liberal ecclesiastical regulations this morning at the meeting of the Methodist union. Resolutions were adopted asking that citizens of the city ponder well upon the question of liquor regulations before making any decision.

## CORN SHOW AND FARMERS' INSTITUTE AT STROMSBURG

### Resolutions Advocate Liberal Support for Teaching Agriculture and for State Highways.

STROMSBURG, Feb. 7.—(Special.)—The annual Corn Show and Farmers' Institute under the auspices of the county organization, closed Saturday evening after a most successful three days' session. The program consisted of lectures in forenoon, afternoon and evening, interspersed with vocal and instrumental music. The average attendance of the nine sessions of the institute was in excess of 500, and the capacity of the auditorium in which the show was held was not equal to the afternoon and evening sessions.

The first day's program consisted of the regular course of lectures provided for farmers' institutes. The program for the remainder of the institute was secured by the local commercial club. Features of the program were an illustrated lecture of good roads by Prof. George R. Chaburn, president of the State Good Roads association, and a lecture on "The Problem of Our Cities and the Remedy," by Dr. B. O. Aylsworth of Denver.

Resolutions were adopted in favor of liberal state appropriations for farmers' institutes and week-long schools in connection with agricultural and domestic subjects, for state training in the high schools of the state; for the establishment of a plant for the manufacture of hog cholera serum at the state farm; for the building of a state highway east and west in extension of the Iowa state highway, and for the thorough maintenance of the university. The county highway commissioner measure now pending in the legislature was also endorsed, and the members in congress from this state were petitioned to support a general parcels post. Over 500 taxpayers were present.

**Church Dedicated at Falls City.**  
FALLS CITY, Neb., Feb. 7.—(Special.)—The new Catholic church here was dedicated Sunday, Rev. T. Sweeney preached the sermon, both morning and evening. In his remarks he stated that he had assisted in dedicating 20 churches, but never as handsome or convenient a church as this, for the money invested. After the morning service dinner was served in the bazaar, which is most admirably planned for such purposes, seating about 400 people. The afternoon service of good fellowship was very interesting. Talks were made by I. L. Dalby of Shubert, W. Kelley of Salem, Robert Cain of Stella, G. R. Grimstead of Falls City, Rev. Bailey of Falls City, Rev. Abner of Auburn and O. A. Zook of Humboldt. Over \$5,000 was raised.

**John Querring Ends Life.**  
KEARNEY, Neb., Feb. 7.—(Special.)—John Querring, a farmer living near Shelton, became despondent because of ill health and yesterday afternoon ate "rough on rats" and in a few hours was dead despite efforts of two physicians, who were summoned by his wife. He was conscious and told truth and was tired of living and had taken poison. His financial condition was such that he had no cause for worry and his home life was pleasant. No inquest will be held. The funeral will be held at Shelton tomorrow.

**Nebraska News Notes.**  
BEATRICE—The Farmers Grain and Coal company of Cortland next Saturday, Madison—Rev. H. McClenahan of the Presbyterian church of this city left this morning for Omaha where he will undergo an operation for appendicitis.

BEATRICE—The board of education last evening the enrollment of the city schools for the year as shown by the report of Superintendent Howell in 2,000.

CLARK—The boys and girls of the Osceola high school played basketball at Clark Friday night. The game was a close one, Clark's boys 4 to 2, favor of Clark's girls. The game was well attended.

BLUE HILL—The funeral of Fred Kaufman, who died Friday at his home near here, was held Sunday at Bladen. Mr. Kaufman was 52 years of age, and he died after two months' illness of cancer of the stomach.

BLUE HILL—The firemen's grand ball was held on Friday, February 3. The fire department has no regular source of revenue and this ball was held to raise some money, which will be placed in the treasury for the purpose of maintaining and equipping the department.

BEATRICE—The coroner decided not to hold an inquest over the body of Rufus B. Smith, the farmer who killed himself by drinking carbolic acid north of here Sunday night. During the last few months he has been in poor health and this is assumed as the cause for his death.

VALENTINE—Miss Joyce of Atkinson, Neb., arrived this morning and took charge of the sixth and eighth grades in the Valentine school. She has been a regular teacher since the Christmas vacation when Mrs. Miller, the regular teacher, resigned.

BEATRICE—The coroner decided not to hold an inquest over the body of Rufus B. Smith, the farmer who killed himself by drinking carbolic acid north of here Sunday night. During the last few months he has been in poor health and this is assumed as the cause for his death.

VALENTINE—The government weather bureau reports nearly six inches of snow fall in the snow of Saturday night and Sunday, and as it turned out warm on Monday, melting it before a wind had a chance to blow it away, the farmers got just what they have been wishing for, as it will soak in and make lots of moisture.

LYONS—At the forenoon session of the farmers' institute being held here, it was determined that the next annual session should be held at Decatur, and the following officers were elected for the ensuing year. President, M. W. Blue; vice president, J. T. Whittier; secretary, E. A. Hanson, all of whom live at or near Decatur except Mr. Young, who lives near Craig.

MADISON—Judge Bates Monday issued marriage licenses to the following persons: Oscar Henry Zessin and Miss Bertha Helen

**Nebraska**  
Sattler, both of Madison; Herman C. Nierker of Norfolk and Miss Freda Young, both of West Point; Fred A. Melcher and Miss Leona Wegener, both of Stanton, Neb.; Leola street and Mrs. Hannah Bryant, both residing near Madison, and William Henrich and Miss Fannie L. Sobotka, both residing northwest of Madison.

## Senate Elections

### Committee May Not Hold Investigation

#### Members Are Displeased with Methods of House Committee and Will Act Independently, if at All.

(From a Staff Correspondent.)  
LINCOLN, Feb. 7.—(Special Telegram.)—The senate committee of investigation of the Omaha elections, the senate committee will either conduct an entirely independent inquiry or none at all.

Exception to the methods of the house committee are taken by Senator Hoagland of the committee appointed in the upper house. Admission of hearsay evidence by the house investigators, he declares, has been a serious error.

"If we conduct an investigation it will be in exactly proper legal form," said Senator Hoagland. He also said that owing to the unsatisfactory work of the house committee it was possible that the members of the senate committee would refuse to have anything to do with the inquiry.

The senate and house committees were named for the purpose of conducting an concurrent investigation. The effect of the possible refusal of the senate committee to act leaves the status of the inquiry so far as it has progressed uncertain.

The house committee is to resume the hearing in Omaha at the Paxton hotel next Monday. Under present conditions it is within the limits of possibility that the senate will take up an independent investigation at that time.

Representative B. S. Harrington, chairman of the house committee, announced today that he had been requested to furnish a copy of the testimony taken for the use of the senate committee. He said that he would forward an order for a transcript of the evidence to Frank Stultifitz, the stenographer, in Omaha, soon.

The senate committee, through the statements of Senator Hoagland, has already given an opinion on the value of the evidence taken.

The announced attitude of Chairman Harrington toward the investigation has been one of liberality in rules of evidence. He declared at the Omaha sessions of the inquiry that the purpose of hearing was for the purpose of gaining the basis of revision of existing election laws rather than to fix blame for past irregularities.

Figures on the number of male voters in the Third ward are to be furnished to Chairman Harrington by the United States census bureau some time this week.

## Ouster Hearing is Taken Up with Details

### Morning Taken Up with Introduction of Slips Showing Delinquencies.

The hearing of the ouster charges against Chief of Police Donahue was resumed Tuesday morning in the council chambers at the city hall.

The morning was devoted to the introduction of bills and slips, which tended to show that the Stora Brewing company had sold beer in the red light district last fall.

After legal skirmishes between Attorney General Mullen and Attorney Connell for the defense, slips bearing dates prior to August 5 were admitted to the records. These slips showed that the brewing company had sold beer to two houses in the district and also to the Dahman Democratic club.

Sales Manager R. J. Miles of the brewing company and Neil Larson, a driver of the company, were placed on the stand. Both identified slips which showed that the deliveries had been made.

## WESTERN PACIFIC LINE IS CLEARED FOR SERVICE

### Blocked in Feather River Canon Removed—General Oriental Agent is Appointed.

The Western Pacific will resume through traffic Wednesday morning after a blockade of four days. Heavy snow on the Feather River canyon put the line out of business nearly a week ago.

Announcement of the reopening of the road was wired to the Union Pacific headquarters Tuesday morning by E. L. Loman, passenger traffic manager of the new road.

The Western Pacific also announces the appointment of C. Lacy Goodrich to the position of general oriental agent at Yokohama. This agency is opened on account of the Pacific contract made with the Western Pacific by the Tokyo Kaisha, a big Japanese steamship line. This contract took effect on February 1.

## BLIND HORSE TEARS HOLE IN SIDE OF A COTTAGE

### Kicks the Organ and Makes Away—Animal's Whereabouts Not Known.

A blind horse, trotting of the prosaic life of hauling a junk dealer's wagon, decided to make a fact excursion on its own hook Tuesday. After doing considerable damage the horse disappeared and neither the horse nor its owner has since been located.

In its mad career the horse ran through the side of a cottage at Twelfth and Chicago street, owned by Mrs. Nora Grogan, and occupied by Herman Rich, a laborer. None of the family was hurt.

Crashing over the side of the house the horse lay on the bed, turned and kicked the organ and then went out of the house through the hole he had made and disappeared.

## CONTESTANTS TO PAY BILLS

### Chairman Bedford Goes to Lincoln with Some Suggestions.

### ELECTION OFFICERS ONE PRICE

#### Will Ask State to Pay for the Feed of Prisoners After Conviction Until They Reach the Penitentiary.

J. W. Bedford, chairman of the county commissioners, left Tuesday for Lincoln, where he will take up several important county matters with senators from here, in the hope of securing local changes for the better. He has four amendments which he thinks would be for the best interests of the county besides economy.

The first of these is that when a contestant is called before the board of canvassers that the contestant should pay the cost of the contest rather than the county, as has been the law in years past.

He believes that election officers, judges and clerks in the registration class, should receive the same salary all over the county. As matters now stand judges and clerks in South Omaha receive \$6 a day, in Omaha \$5 a day, and in the country districts \$2.50 a day.

He also thinks deputy assessors should be nominated in caucus in their own precincts, which would save about \$1,000 a year, as now the names must be rotated upon the big blanket ballot.

He expects also to take up the matter of the feeding of state prisoners between the time of conviction and beginning of sentence. Officers lay in the county jail sixty days after they have been convicted before they are taken to the penitentiary. The county has to feed them during all of that time.

## Gas Question to Be Fought Out Tonight by the City Council

### Resolution Will Come to a Vote Tonight on Question of Turning Off Gas.

Members of the city council will be forced to show how they stand on the gas question tonight, when a resolution will be offered tendering the Omaha Gas company not more than \$2 a lamp per year for service for street lighting. In the event of the company's refusal to accept these terms, it is ordered to turn off its gas.

The resolution, drawn at the instance of the committee of the whole Monday afternoon, was prepared by Assistant City Attorney Dunn Tuesday morning and will be presented tonight.

The Dunn resolution is an amendment to the resolution offered by Councilman Lee Bridges last Tuesday night. This resolution was referred to the committee of the whole. When it came up for action Monday afternoon, opposition was offered from different sources on the grounds that the offer of \$2 was excessive and that the resolution made no provisions should the company refuse.

"Every member of the council is familiar with the terms of the resolution, and I am going to insist on its adoption or rejection," said Councilman Funkhouser Tuesday morning.

"There has been enough ducking this issue," continued Mr. Funkhouser, "and I want to see this thing decided one way or the other. I have been through similar fights before and I want to get this over as quickly as possible."

That the resolution will be defeated is the opinion of Harry Zimman, who is opposing the measure.

## Weather Balloons to Rise at Fort Omaha

### One a Day to Be Sent Up for the Next Month—To Study Conditions.

Unless there is a hitch in the program the first of twenty or twenty-five balloons will be sent up from Fort Omaha Wednesday by the Agricultural department to secure scientific data concerning the upper air currents, barometric pressure and temperatures. There will be one balloon released each day following throughout most of the balance of the month.

P. J. Sherry and N. B. Robertson, who are to be in charge of the research work, arrived in the city Tuesday and are spending their time between Fort Omaha and the weather bureau getting things in shape for the ascensions.

Other researches of a similar nature have been made from Fort Omaha, but previous ones were made in the summer and fall. It is the desire to take winter observations, and since Omaha is nearly in the center of the path of winter storms, this city was selected. The facilities for filling balloons at Fort Omaha also attracted the experts, who come from Mt. Weather, Va. The balloons are about eight feet in height and to them are attached the necessary instruments for recording the pressures, altitudes and temperatures. The balloons soar to a height of 10,000 to 15,000 feet and drift on an average of 100 miles. Two dollars is offered for the return of each of the balloons.

## Foyer and Dressing Rooms for the Den

### Board of Governors to Make Extensive Improvements Besides the New Roof.

Ak-Sar-Ben's Den will be equipped with a commodious foyer and separate dressing rooms for the men and women guests by next season, according to an announcement from C. H. Pickens, president of the board of governors. Mr. Pickens explained that the board of governors has planned a complete refitting of the den, including a new roof, new floor and new walls.

It was found in past seasons that much difficulty arose through the lack of dressing rooms and a foyer in the building. On large occasions, such as the annual ball, the guests were compelled to wait in a line outside the door of the building while they sought for their admission tickets, and the women guests in their evening gowns suffered much discomfort through being kept in this manner on the outside.

The foyer will be constructed in the southeast corner of the building and will be of large proportions. It will also be a great help on initiation nights.

## GERMAN AVIATOR IS KILLED

### Lieutenant Stein Falls Sixty-Five Feet While Making Flight at Duerbeitz.

BERLIN, Feb. 7.—Lieutenant Stein of the German military aviation service was instantly killed, while making a flight over the military aviation field at Duerbeitz today. The aeroplane dropped from a height of sixty-five feet.

## Ten Men Blown to Pieces by Explosion of Gelatine Powder

### One Thousand Pounds of Mixture Let Go While Being Stirred in Big Crucible.

MARQUETTE, Mich., Feb. 7.—One of the most disastrous explosions ever recorded in upper Michigan, ten men were instantly killed at the plant of the Plute Powder company in a building on the outskirts of Marquette, yesterday afternoon. One man was injured.

The bodies of the dead were blown to pieces. The dead are: MICHAEL O'CONNOR, aged 50, ROBERT ARKRE, aged 25, EDWARD WOODWARD, aged 19, GEORGE WOODWARD, aged 17, THOMAS RUPPEL, aged 20, JOSEPH RUPPEL, aged 19, CHARLES KEMP, aged 19, ARTHUR HARRIS, aged 20, GEORGE WALBERG, aged 20, ANDREW MATSON, aged 25.

All of the men were single except O'Connor and Arkre. One injured employee is Fred Harris, a teamster, who was thrown to the ground by the force of the shock and was slightly hurt.

One explosion took place in the gelatine powder house. Every man in this building was blown to pieces.

What caused the explosion will never be known. Gelatine powder is largely composed of nitroglycerin and it is supposed that the mixture was being stirred in the big crucible within the house when the stuff let go.

About 1,000 pounds exploded. Only twenty minutes before the disaster 5,000 pounds of the explosive had been removed, otherwise the havoc would have been much greater. As it was, the plant was little damaged and the shock felt in Marquette was hardly perceptible. Windows at Winthrop, a mile away, however, were broken.

Only a few fragments of the bodies have yet been recovered.

## Four Greeks Killed as Result of Armed Uprising; 200 Flee

### Miners Complain Americans Are Favored in Weighing Coal and Refuse to Accept Compromise.

SALT LAKE CITY, Feb. 7.—An armed uprising of Greek coal miners at Kennilworth, Carbon county, Utah, was suppressed yesterday after four men had been killed, one fatally wounded and several others slightly hurt by flying bullets.

Tonight the rioters, nearly 300 in number, are retreating through the hills in scattered bands with heavy station on the Rio Grande railway at their objective point. Posses numbering altogether about 200 men are chasing the Greeks to prevent their escape.

As the latter are armed, further fighting is expected.

The trouble began last Friday when the Greek miners complained that discrimination was shown in the weighing of coal in favor of Americans. A proposal from the mine superintendent that they appoint their own weighers failed to give satisfaction.

This morning the Greeks took to the foothills and commenced a desultory fire upon the Americans who were going to work. In attempting to dislodge the sharpshooters, Deputy Sheriff Thomas Jackson was killed and another deputy was fatally wounded. What two of the Greeks had been killed, one mortally wounded and five others captured, the rest took to flight.

## American Vessels Boycotted in Harbor

### Minister to Roumania Lodges Protest Because Citizens of United States Are Kept Out of Constantinople.

CONSTANTINOPLE, Feb. 7.—J. Rodgeley Carter, American minister to Roumania, who is now at the head of the American embassy here, pending the appointment of a successor to Ambassador Stanton, was today forced to lodge a serious protest with the minister of foreign affairs, Rifaat Pacha, because of the continued boycott against American vessels.

Two steamers belonging to an American company have been lying in the harbor, but because of the boycott, even the passengers were not able to land. Minister Carter proceeded aboard one of them, the California, and arranged to have the passengers brought ashore. He then called on Rifaat Pacha and insisted that immediate orders be issued to cancel the boycott.

This was done, but in all probability other incoming steamers flying the American flag will experience similar difficulties.

## ARCHBISHOP RYAN HAS CHANCE TO RECOVER NOW

### Noted Man Receives Visitors and Eats Two Light Meals—Heart Practically Worn Out.

PHILADELPHIA, Feb. 7.—Archbishop Ryan, whose death has been momentarily expected, was noticeably improved today, and for the first time since his illness was reported his physicians are inclined to believe he has a chance to recover. They say, however, that this chance is extremely slim, owing to the state of his heart, which they declare is "practically worn out."

He awoke today refreshed by a good night's sleep and seemed to gain in strength during the day. He received visitors and ate two light meals and his voice had much of its old-time vigor. When he learned for the first time of the serious illness of Bishop Whittaker, the Protestant Episcopal bishop of this diocese, with whom he has been friendly for many years, he said:

"I must call to see him." He sent his nephew with his card to the residence of Bishop Whittaker.

## BOYS HELD FOR ROBBERY

### Trimbale, Hermann and Nagle Enter Pleas of Not Guilty—Another Charged Last Week.

Joseph Trimbale, Russell Hermann and George Nagle, all boys, charged with assault with intent to rob, were arraigned Tuesday before Judge Estelle. All pleaded not guilty and were held for trial.

It is alleged that the trio with leveled revolvers held up Heister, Elton and in attempting to rob him of \$10, the drug-gist.

The same three boys were arraigned last week on a charge of grand larceny. At that time Nagle and Trimbale pleaded not guilty, while Hermann confessed his guilt.

## Express Companies to Quit Banking

### NEW YORK, Feb. 6.—The first step in what is regarded as a general move of the express companies in relinquishing the banking field came today with the transfer of the business of the Wells Fargo & Co. bank of New York to the National Park bank.

## BOILER BILL PASSES SENATE

### Burkett's Measure Requiring Safety Appliances Ready for Signature.

### MANY YEARS WORK IS REWARDED

#### Only Slight Amendment Made to Nebraska Senator's Bill—Labor Will Relocate at Passage of the Measure.

(From a Staff Correspondent.)  
WASHINGTON, Feb. 7.—(Special Telegram.)—Senator Burkett's name will be heralded throughout the domain of labor as father of the locomotive boiler inspection bill which passed the senate today with a single amendment of some three lines directing the attorney general to do certain things when a case is on appeal.

For years Burkett has labored zealously for a federal boiler inspection bill. He had the support of labor and the antagonism of railroads. Other bills were introduced. Representative Mann of Illinois having been among those to offer a modification of the Burkett measure, which might be less drastic in character and measurably satisfactory to the railroad interests. Early in his career as president Mr. Taft urged upon congress the paramount necessity of the federal inspection of locomotive boilers and he was a champion of the Burkett bill.

As measures of similar character fell into the legislative hopper with modifications of the original measure a series of conferences were held at the White House, participated in by Senator Burkett, Congressman Mann and others and as a result changes in the Burkett bill were made, at least changes from his original bill, but having the same object always in view—federal inspection of locomotive boilers. And so Senator Burkett introduced a revised bill which passed the house January 10 and it is this bill which passed the senate today with an amendment. It now only awaits the final approval of the president to make it a law. It is understood that the bill not only is satisfactory to engineers, but to railroads as well.

## BUTTER AND EGGS HAVE TAKEN TEMPORARY CLIMB

### Dealers, However, Think the Upward Move is but Temporary Because of Storm.

Eggs have taken a temporary climb since the coming of the snowstorm of Sunday and they are now reported 1 cent higher than before, but dealers say the higher price is only temporary, as the good hen has made up her mind to start her spring laying and the price is expected to drop even further than it raised when the storm cleared away. Country butter is about the same as it was, but creamery butter has taken a raise of 1 cent in response to upward move made at Elgin Monday.

"One of the most noticeable effects of the recent dropping of the price in butter is that a large number of housewives who have been buying butter have switched back to butter," said Manager King of the grocery department at Hayden Bros. "We have noticed it because of the great falling off in the sales of butterine and the remarkable increase in the demand for butter."

Pneumonia Follows a Cold  
But never follows the use of Foley's Honey and Tar, which checks the cough and expels the cold. M. Stockwell, Hannibal, Mo., says: "It beats all the remedies I ever used. I contracted a bad cold and cough and was threatened with pneumonia. One bottle of Foley's Honey and Tar completely cured me." No sputum, just a reliable household medicine. Sold by all druggists.

## Whooping Cough CROUP ASTHMA CATARRH COLDS

### Vapo-Cresolene

#### ESTABLISHED 1879

#### A simple, safe and effective treatment for whooping cough, croup, asthmalike coughs, catarrh of the throat, and colds. It is a powerful expectorant, and relieves the most distressing symptoms of these ailments. It is a powerful expectorant, and relieves the most distressing symptoms of these ailments.
