It did not take long before it apread to my shoulders and arms, and I was almost covered with a mass of raw fiesh on account of my scratching it. I was in such a condition that my hands were tied.

"A number of physicians were called, but it seemed beyond their medical power and knowledge to cure me. Having tried numerous treatments without deriving any benefit from them, I had given myself up to the mercy of my dreadful malady, but I thought I would take the Cuticura treatment as a last resort.
