THE POWER OF WILL AND DRUNKENNESS

Will Power Alone Will Not Stop the

Excessive Use of Liquor. The temperance advocate and total abstainer are strong in their declaration that drunkenness is a mean, low and disgraceful habit, from which any ordinary person can free himself by the exercise of his will power alone.

Medical men, by patient research, have demonstrated that drunkenness is a poisoning and that the drunkard is one in need of medical attention.

The disease of alcoholism can surely be cured, thanks to the Neal treatment, which has demonstrated that it is an intallible remedy striking at once at the roots of the trouble. There has always been a demand for the treatment for habitual drunkenness which can be administered internally, without the use of dangerous hypodermic injections.

Experience has taught that no treatment other than the Neal Cure has ever been successful in treating drunkenness in less than four weeks' time. it makes no difference how long a man has been drinking, how much or how little he drinks, or what he drinks, the Neal treatment has never failed to cure in three days' time, and without the use of that devilish little tormentor of the flesh, the hypodermic ayringe. Just bear in mind that there is no such thing as a "secret cure" for drunkenness, and you are taking great risk in administering these remedies.

For booklet, "The Neal Way" and full information, address Neal Institute, O. B., 1502 South Tenth Street, Omaha, Neb.

A simple, safe and effective treatment for bron-chial troubles, without desing the stomach with drage. Used with success for thisty years.
