Profits.

OMAHA. Feb. II. IBI.

The weather map showed general rains in the southwest, which will prove of great benefit to the whiter wheat in that section, where the most compaints have been made. News and statistics continue to be learlish and wheat values broke sharply arte; the first trades to new low levels on further liquidation of long stuff. The market steadied later, as shorts were inclined to take profits and even up their trades before the holiday. There is, however, no basis for any material advance, as yet the weight of supplies and the lack of dermand continues to be the ruling in fluences.

Corn buils were discouraged. News is to the effect that conditions are buillant, so far as the corn market itself is concerned but it seems to be too mich of an upulit fight to hold values in face of the heavy declining markets for other cereals, and also in hos products. Receipts are again picking up and larger offerings are being rejorted from country dealers.

Primary wheat receipts were 22,000 bushels and shipments were 52,000 bushels.

Clearances were 20,000 bushels.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing

Prices on Board of Trade. CHICAGO, Feb. II.—Extensive profit taking by shorts in view of the forty-eight
hour holiday ahead acted as an offset in
part today for stop-loss selling of wheat
by holders fearful of reciprosity. The close

Wheat was unloaded heavily during the early part of the day, but after a price reaction set in, the selling was less free. The bearish feeling at the outset had several reasons aside from the tariff situation. Rains in the southwest extended from Kansas and Missouri to the gulf and materially holped releve the drouth. Large world ship. olped relieve the drouth. Large world ship holped relieve the drouth. Large world ship-ments worked also against the bulls. Other causes tending to pull down the market were favorable European crop advices and cheap Russian and Australian offers. Light-ness of primary receipts afforded a little comfort to owners. May ranged from \$2\frac{1}{2}c\$ to \$3\frac{1}{2}c\$, closing \$40\frac{1}{2}c\$ off at \$2\frac{1}{2}c\$. Official forecast of unsettled weather-made that cereal firm after a period of weakness. > ward. NEW YORK, Feb. 11 .- (Special Telegram.) The business outlook continued to grow brighter during the week. Increased orders and specifications for locomotives and cars were received by plants during the week. The Harriman lines, which recently placed orders with the Baldwin Locomotive works for 1905 locomotives.

Locomotive works for 1986 locomotives have apportioned the orders for the different roads, most of which are to go to the west and the southwest.

The United States Steel corporation is now operating about 18 per cent of its this biast furnace capacity, an increase of approximately 13 per cent from the low level reached several weeks ago. Within the last week or two, the corporation has blown several furances and re-employed in the neighborhood of 19,000.

This week increased orders and specifications for locomotives and cars were received and thus the equipment industry thas a better future ahead of it, after prolonged duliness. The improvement in the steel trade, was even more marked, with an increasing demand for finished products generally. The gain in figures was rep-

Good yearlings sold as high as \$5.00, a figure that is pretty close to the extreme limit. Shorn stuff has been notably scarce and country mittel for warmed up kinds of wooled animets is still very fair. Prices paid for shearers were little different from those in force on good quality killers. Quotations on sheep and tambs: Good to choice lambs, \$5.7598.00; fair to good lambs, \$5.2505.75; handyweight yearlings, \$4.859 \$6.00; heavy yearlings, \$4.8594.55; good to choice wethers, \$4.00014.35; fair to good wethers, \$3.7594.00; good to croice ewes, \$3.9094.25; fair to good ewes, \$3.9094.25;
