GRAIN AND PRODUCE MARKET

Wheat Opens Lower on Good Crop Prospects.

OUTLOOK IS FOR A DECLINE

No Bull News in Sight—Light Movements Give Corn Situation More Strength—Advance is Probable.

OMAHA, Feb 14, 1911.

Good generous rains over the winter wheat belt and particularly in the southwest where it was most needed gave wheat a weak and lower opening. In canvassing the wheat situation there seems to be nothing bullish in evidence. The trade is strongly in favor of lower values bearing ordinary reaction due to oversold conditions of the market, which will result in sharp, temporary advances.

Light movement in corn is causing some show of strength, and country deliveries will be further hindred owing to impassable roads. With any support the corn market could advance.

Wheat broke sharply at the opening on bearish news and rains in the winter wheat belt. Flour prices were reported lower and demand in all sections continues very dull. Cash wheat locally was reported 1c lower.

Corn held steady throughout the day in face of the lower wheat market. Light receipts and little or no prospects for a larger movement gave cash corn a firmer tone and samples were reported sold at ¼c advance.

Primary wheat receipts were 823,000 bushels and shipments were 241,000 bushels, against receipts last year of 582,000 bushels and shipments of 238,000 bushels.

Primary corn receipts were 2,370,000 bushels and shipments were 855,000 bushels, against receipts last year of 317,000 bushels and shipments of 626,000 bushels.

Clearances were 686,000 bushels of corn, 1,000 bushels of oats and wheat and flour equal to 288,000 bushels.

Liverpool closed ⅝d to ¾d lower on wheat and ½d to ⅝d lower on corn.

The following cash sales were reported:

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Feb. 14.—Depressed by impending reciprocity and by rain in the drouth-stricken southwest, miscellaneous holders of wheat sold out today with little or no reserve. Much evening up of open interests on the part of larger shorts caused a rally, but the close, though firm, was at a net loss of ⅜c to ½c. The day's trade left corn ¼c to ⅛@⅜c higher than Saturday night, oats unchanged to ⅛c up and provisions less expensive by a shade to 20c.

The firm tone at the finish in wheat resulted chiefly from purchases here by the northwest against sales at home. This buying gave rise to rumors of export business. There was, however, no basis for the talk so far as United States wheat was concerned. A decrease of the visible supply in this country helped the tendency to recover during the last half of the day. Earlier in the session prices had suffered from large world shipments, a gain in European stocks, and from continued free offerings from Australia, India, Russia, and the Argentine. Final prices here were the highest of the session. May, after ranging from 91⅜c to 92½c, closed at the last-named figures, ⅜c off compared with Saturday night.

Corn was comparatively strong. May fluctuated between 48¼@48⅝c and 49¼c, closing ¼c up at 49¼c. Cash corn was about steady. No. 2 yellow finished at 46¾@47c.

Oats sold the lowest of the season. May had as high and low points 31¼c and 31¼c, with last sales at 31⅝@31¾c, a net rise of ⅛@¼c.

Provisions were bearishly affected by the large receipts of hogs. In the end pork showed a loss of 7½c to 20c, but lard and ribs a trifle less than a nickel.

Prices in Chicago, furnished by the Updike Grain company, 708 Brandeis building, Omaha. Telephone Douglas 2473.

WEATHER IN THE GRAIN BELT

Colder Weather is the Prediction for Tonight.

OMAHA, Feb. 14, 1911.

The rains of the last twenty-four hours were general in Kansas, Oklahoma, along the Missouri river and east over the Mississippi and Ohio valleys and lake region, and rains and snows continue this morning in the upper Mississippi valley and east to the Atlantic coast, the snows being confined to the northern portion of the lake region. In Nebraska and the Dakotas the rains did not extend to any considerable distance west of the eastern boundaries and our reports do not show any precipitation whatever in central and western Nebraska. The barometric depression, accompanying the precipitation, is now central over the upper Mississippi valley. A relative depression overlies the middle Rocky mountain region, and is causing unsettled weather throughout the west, and light snows are falling from Montana south over the mountain region to northern Arizona. With the disturbance over the central valleys, and the depression over the mountain region, the conditions are favorable for continued cloudy and unsettled weather in this vicinity tonight and Wednesday, with a change to somewhat colder.

NEW YORK STOCKS AND BONDS

Movements of Day for Most Part Without Importance.

MISSOURI PACIFIC IS FEATURE

Traffic of Western Roads Holding Up Well Enough to Justify Expectation of Steady Improvement in the Future.

NEW YORK, Feb. 14.—Stock exchange price movements today for the most part were without importance. Wall street's chief interest lay in announcements of important new financing and in the tempestuous course of speculation in the commodities markets.

Developments in regard to the new financing included an estimate of New York Central's plans, the directors having authorized issuance of $30,000,000 three-year 4½ per cent notes, sale of $10,000,000 three-year 4½ per cent notes by the Baltimore & Ohio, and the statement that the Kansas City Southern's recent offering of $5,000,000 bonds had been largely oversubscribed.

The Canadian stocks and the Gould group, particularly Missouri Pacific, were the features of the market. Canadian Pacific's showing of more than $30,000,000 surplus earnings for the last half of 1910 gave that issue strength and carried up the other stocks in the Canadian group. Steady absorption of Missouri Pacific, which had been evident for several weeks, was explained probably by advices received from St. Louis, which stated that attorneys for the Standard Oil company and its bankers had made a formal demand for the books of the company preliminary to a campaign for proxies to be used at the annual meeting on March 14.

Traffic of the western roads, according to the weekly advices from Chicago, is holding up well enough to justify expectations of steady improvement, although last week's storm increased operating expenses heavily.

Time money was easier today, sixty and ninety-day rates declining slightly. The clearing house banks today made the unusual gain of $3,046,000 from the subtreasury.

Bonds were steady. Total sales, par value, $2,890,000. United States bonds were unchanged on call.
