STATE MASTERS ALSO TESTIFY

They Declare that Approval of Reciprority Agreement Will Deprive Farmers of Benefits of Protentive Tarlff.

WASHINGTON, Feb. 21.-Farmers registered protests against the canadian recierocity agreement in the hearing today before the senate committee on finance. Former Governor Bachelder of New Hampshire, master of the National Grange. made the opening argument and announced that if the committee had the time to hear them he would be followed by masters of granges of the several states as well as representatives of various state dairy and other associations.

The witnesses received valuable assistauce from Senators Hale, McCumber and smoot, who evidenced as mpathy with their stracks on the agreement and aided them with questions. Senator Stone took the lead in cross-examination and some intereating collequys were heard.

Mr. Bachelder asserted that 5,000,000 farmers were united in opposing the agreement and said he voiced their protests against free trade in farm products while protection was continued on manufactured articles which the farmers are compelled to

Farmers Fear Canada.

He declared Canada was the only country which the farmers had to fear, and that free trade with that country meant that the farmers would derive no benefit whatever from the tariff law. He denied that cheap food would result from the consummation of the agreement. 'If this is an honest bill let it include free trade with Great Britain," said Mr.

By questioning Senator Stone developed that Mr. Bachelder was not really in favor of free trade with Great Britain, and that he had no personal knowledge of the dif-

ference in the value of lands, the price of abor or the amount of taxes paid in Canada and he United States. During this interchange, Mr. Bachelder suggested that the only fair way for free

trade to be established would be to let the Stars and Stripes float over Canada. That is a species of singolsm talked recently," said Senator Stone "I don't believe it is within the range of possibility."

Says Hill is interested. A letter charging that James J. Hill of the Great Northern rullroad was interested in the agreement because the rathroads Would proff; greatly from reciprocity with Canada was read in the senate today.
