#### TREATY WITH JAPAN NEW Tait Sends Document to Senate Which

Eliminates Restrictions.

IS SPECIAL FAVOR TO EMPIRE

Japan in Quandary Because Treaty Now in Force Was Signed One Year Later Than with European Nations.

WASHINGTON, Feb. 22-The stat of the new treaty with Japan, designed to replace that of 1904 and drawn with the succial design of eliminating the restricti ne upon (minigration, was laid before the senate today, by President Taft.

The essential difference between the pro posed treaty and the existing convention is said to be that it omits, all reference to such restrictions and leaves to the mational honor of Jopan the enforcement at its own ports of the limitations upon emigration from Japan now expressly placed upon immigration to the United States.

The document is said to provide that either country may renounce the treaty at | the end of six months if it fails to operate as expected.

Because it embodies this radical detouches the question of the deepest impertance and interest to the Pacific slope, created a sensation today.

#### Opposition Certain.

That the new treaty will encounter opposition seems certain, for even if it should be speedily reported to the senate from the committee without serious controversy senators are expected to insist upon opportunity for debate which will develop the

failure of the senate to act on the treaty during the remainder of this session congress would not of itself extinguish its vitality, which could be kept indefinitely alive in the executive flics of the senate, to be taken up at any convenient time. This new treat; is one of "trade and com" nerce." intended to replace the treaty of 1884, negotiated by the late Secretary Gresham and Baron Kurino, then Japanese minister to the United States. That treaty

is a most comprehensive document com prising twenty articles, dealing with trade, nmerce and navigation, rights of dwelling, import and export duties, tonnage dues, port regulations, desertions, shipping rights, consular functions and other subjects. It has already become antiquated, mainly

because of the rapid advance of the Japanthe in the ways of civilzation.

It was drawn simultaneously with several negotiated with all the great powers. But unlike the others, this particular treaty was not promptly ratified and did not go into effect until about a year after the others were in force.

#### Other Treatles Already Made.

Japan has already negotlated treaties to replace those of the nineties with nearly all of the other powers except the United States, if our government were to insist upon its rights the existing treaty could be continued in force until July 17, 1912.

This little incident-the difference of a year in the expiration of the old treatiesproving very embarrassing to the Japanese in developing a fiscal policy, As all of the new treatles contained the faored nation clause, the Japanese government would be obliged to concede to the nations other than the United States all of the privileges which America now enjoys under the treaty of 1894.

upon a new treaty relation at once, the retariff pates an

### House Favors Two New Battleships

Superdreadnaughts Will Be Biggest Ever Constructed in This Country and Have Heaviest Battery.

of Largest Size

WASHINGTON, Feb. 22.-The house inte today completed consideration of the parture from the existing treaty and naval appropriation bill and will pass it tomorrow morning. As agreed to when read for amendment today, it provides for the injection of this convention into the two new battleships, two flee, colliers closing hours of the Sixty-first congress eight torpedo boat destroyers and four submarine torpedo bonts.

The two battleships are to be the largest ever constructed in this country and while the authorization fixes the displacement at \$7,000 tons, there is a likelihood

The new battleships will have twelve within the committee room the western fourteen-inch rifles, the heavlest battery ever placed on a ship in the world. These guns will be arranged in four turrets, three full extent of their opposition to the treaty. guns in each. This arrangement is en-Unlike matters of ordinary legislation.

The decision of of Alabama to increase the number of battleships to three was defeated 161 to Mr. Hobson sought to add a battleship diser of twenty-eight knots speed to the building program, but was again de feated.

Numerous amendments were tacked on measure while being considered for amendment, most of them against the points of order made by the members of the naval affairs committee in the inter est of economy. When the reading of the bill was completed both Mr. Foss of Illinols. chairman, and Mr. Padgett of Tennessee, ranking democrat of the commit ice, briefly announced that by the changes between \$8,000,000 and \$9,000,000 had been

other Japanese treatles of similar scope added to the cost of construction of the vessels authorized in this bill or heretofore authorized.
