

moved to recommend the bill as it stood with the Albert amendment for third reading and passage. The standing vote upon this proposition stood fifteen to fourteen.

When the committee rose to report, O'Brien moved to recommend the bill for committee of the whole discussion. James of Gage and Plack of Saunders were both out of the city and he hoped to get their votes, so he asked for a call of the house.

This was ordered and lasted for over an hour. The opponents of the bill were willing to sustain the call for a little because the stock yards bill is something which every senator wants to see his colleagues record upon. The call became very tiresome, however, and an agreement was finally entered into.

The call was raised and the motion of O'Brien to recommend to the committee of the whole was carried by Bartos changing his vote.

The senator from Saline was very anxious not to be understood in the matter and was still strongly opposed to the original bill, but it was thought that this action would allow the senate to adjourn and then vote again in the morning without a debate.

Acting upon his own expressed belief that "this is a gentleman's club," Bartos voted with the Ollis party and the bill was committed.

As the matter stands now it will come up in its amended form with the Albert amendment the first thing tomorrow. There will be no debate and the Ollis men who want a real stock yards regulation bill will vote against it and try to get it still further amended until some of the original severity is put back into it.

DES MOINES, Feb. 23.—(Special Telegram.)—The house committee on ways and means, after a long contest, this afternoon recommended for passage a bill to divert to a special road fund 85 per cent of the money received by the state from automobiles. The Rock Island interests have absorbed the St. Paul & Des Moines Railroad company was definitely announced from an authoritative source today. The deal is said to have been consummated at New York last Saturday and Sunday. The line runs from here to Mason City.

SAN DIEGO, Cal., Feb. 23.—Under a guard of four runners, Harry C. He was taken from Tia Juana last night, manacled, placed on a horse and the overland march of ninety miles was begun at once. He was not allowed to communicate with any of his friends.

All American newspaper correspondents in Tia Juana were given the choice late yesterday of remaining in Tia Juana and going to jail or returning to the American side of the line. Consequently today's operations are being observed from the American line, half a mile away.

LOS ANGELES, Feb. 23.—Lawrence Converse, the young American reported arrested as a rebel at Juarez, is a son of Charles H. Converse, a lawyer of Glendora, Cal. The young man is 22 years old. He was a member of the California National Guard. He served for awhile as a fire warden in the mountains.

CHARLES CITY GREEK WEDDING Chicago Priest Officiates and Festivities Last Two Days. CHARLES CITY, Ia., Feb. 23.—(Special.)—A swell Greek wedding has taken place here and it attracted a great deal of attention from the fact that there was a great deal of contrast between the Greek and the American style of marriage. It is thought that the wedding ceremony must have cost at least \$500 and it was not in the least a shorthorn grade steer instead of an Angus.

CONNELL GUILTY OF HOLDUP Jury Takes Up Just Thirty Minutes in Fixing Responsibility for Crime. It took the jury in the case of John W. Connell, charged with highway robbery, just thirty minutes to bring in a verdict of guilty. The case was given to the jury Thursday at 9 o'clock and at 2:30 o'clock a report was made.

The charge against Connell was that of robbing Louis Parsley, 618 North Twentieth street, South Omaha, of \$120 and an overcoat on the night of October 23, 1910.

The state used only one witness, Parsley. In addition of being occupied in moving canned fruit on the stormy night in question two youths came in and asked for smoked herring. He said he had none. Connell's partner pulled a .44 calibre revolver and placed it against his head. Connell then went to the cash register and secured \$60. He then took Parsley's key and opened the safe, securing \$50. Neither of the youths wore masks. Mr. Parsley on this occasion was convicted later and is now doing a stretch of fifteen years.

"No defense sought to prove that inasmuch as Parsley identified one Calhoun as the man who took his money a few days after the robbery that he surely must be mistaken as to his identification now," he declared, however, there could be no mistake.

Prize Offered in 5 to 10 Days. Your druggist will refund money if your doctor fails to cure any case of itching skin. Itching or Pruritus. Price is 1 to 14 days.

GENERAL BRUN DROPS DEAD French Minister of War Dies Suddenly of Paralysis. FORMER HEAD OF GENERAL STAFF He Was an Enthusiastic Advocate of the Use of Aeroplanes and Dirigible Balloons in Warfare.

PARIS, Feb. 23.—General Brun, minister of war in the cabinet of Premier Briard, dropped dead from a paralytic stroke at the offices of the ministry today.

General Brun was stricken a few minutes after he had received the members of his staff in his private office.

General Brun entered the cabinet formed by Briard in July, 1909, when the Clemenceau ministry retired. He had been head of the general staff of the army for three and a half years and was a personal friend of President Fallieres. He was born in 1849.

General Brun was enthusiastic over the possibilities in the development of aeroplanes and dirigibles for use by the French army and encouraged frequent experiments. Last fall he gave a luncheon of honor to the aviators then at Paris. Later he announced rewards for the aeronauts who participated in the army manoeuvres at Grandvilliers.

WAITING FOR THE RIGHT MOVE (Continued from First Page.) the other, without any readjustment, reversing the order of work, was nothing but a waste of time and the postoffice machinery to persecute Tillotson.

"Tillotson only did here the same as a carrier similarly treated did in New Orleans; he preferred charge against the postmaster, and the outcome of that fight is a matter of record. The New Orleans postmaster was discharged and every carrier was put back on his old route for the good of the service by men who knew their business. There never was a time in the history of the Omaha postoffice when the clerks and carriers were in such a demoralized condition as they are today. Ask any one of them, and they all hail 'Dan' Tillotson as the hero of the hour in his attempt to do something to change this state of affairs and bring them all relief."

CHARGES TO BE FOLLOWED UP Civil Service Commission Probably Will Make Request of Tillotson. (From a Staff Correspondent.) WASHINGTON, Feb. 23.—(Special Telegram.)—Letter Carrier Tillotson's charges against Postmaster R. E. Thomas have not been considered by the commission of the civil service thus far, and just when Messrs. Black, Melbhenny and Washburn will take up the matter is problematical. It is expected that the commission will ask Mr. Tillotson for more specific information than was contained in his open letter as to the manner in which Mr. Thomas exacted money from employees of the Postoffice department, and on that information the question of sending the whole matter to the district secretary will be determined. This will depend largely on whether the information contains enough evidence on which to base an investigation, which in the very nature of things will cost money and which will compel the attendance of witnesses and all forms of a court of law.

Should such an investigation be ordered it will take time and the commission will probably be slow to take any action until they know of specific instances in which Mr. Thomas "held up" employees of his office for political contributions.
