Owing to the had condition of the roads for several days in the last week, and the consequent lighter receipts of grain, the Omahn Grain exchange is experiencing the dullest scason in its history since the panic. The poor demand for grain, the slack supply and the low prices, are declared to be conditions directly traceable to natural causes, but sentiment has arisen to the effect that the reciprocity egreement between the United States and Canada may have something to do with the dull-

Sherman Saunders of the Sunderland & Saunders brokerage firm, declared his disbelief in this theory. He pointed out the prospect of reciprocity and the diversion of Canadian grain from shipment abread to this country, should have a tendency to hurry the farmers in their efforts to mar-
