# STOETZEL STOVE CO.

714 South Sixteenth  
The Spring Steel Range and Gas Stove season is now setting in. We sell Steel Ranges at \$5.00 per month and gas stoves at \$3.00 per month, or a cut price for cash.

## Samson

Something extra in a steel Range. Read below how it is made.  
The SAMSON is made of extra heavy steel plates, will not burn out. Has polished top, needs no stove backing. Has aluminumized oven, will not rust. Has braided oven bottom, will not warp. Has large flues, will draw easy. Has small fire box, will save the coal. Has aluminumized base to keep the moisture from the steel. Will heat up as quickly as a gas stove. Mrs. Lyons, 1596 Marcy, says: "The SAMSON draws unusually easy, is a beautiful baker, and heats up in a few minutes."

## Detroit Ideal Gas Range

This cut represents the patent burner of the Detroit Ideal. The burner that has given it a national reputation.  
It takes three things to constitute a first class gas stove. They are—durability, looking and working qualities, and economy in gas. There are hundreds of gas stoves sold in Omaha every season that haven't any one of the three. There are many sold that do good work but only last from five to eight years when they should last from fifteen to twenty. The Detroit Ideal has proven that it will last twenty years. It is an extraordinary fine baker, and the patent burner has proven that it makes a hotter fire with the same gas than others do.  
Mrs. Rohrs, 1543 S. 15th, says: "The Detroit Ideal is all you claim for it, an extraordinary fine gas stove."

## The Reason Why

you can get better meat at Bath's for less money is easily explained. Bath has always maintained a high standard of quality. When he changed his entire business to a cash basis, he found that he could still maintain the high quality at lower prices to his customers. BATH'S has on hand accounts is eliminated, delivery expenses saved, as well as a big saving in time and expense of bookkeeping and collection charges. All of these items help to reduce prices to customers WITHOUT affecting the margin of profit. These are only a FEW reasons, but they ought to be sufficient to induce a trial order this week.
