CONTAGIOUS TROUBLES

Contagious Blood Poison more thoroughly permeates the system than any other disease. Its infectious virus contaminates every corpuscie and tissue of the circulation, and + this reason its symptoms are of a varied nature. When it enters the blood it is but a short time until the mouth and throat begin to nicerate, the skin becomes spotted, rashes and cruptions appear on the body, sores and ulcers break out, the hair falls, and frequently nails on hands and feet thicken and come off. Mineral medicines which simply shut the poison up in the system should be avoided, for when such treatment is left off the old discase will break out again, often worse than before. S. S.
