COSGROVE MAKES STATEMENT

fays it is a Scheme to Get Him Out of the Way-Says that He is Ready to Substantiate His As-

Fred H Cosgrove can compired a may the bill to about the office of city comp troller was instigated and prepared by gang of grafters, some of whom have no communicated small fortunes through the use of their official positions for private gain. The bill known as senate file 380, was Introduced by Remitte Reagan Wednesday and provides for the aboltshment of the office of file conspuration.

Congrove onis the issue squarely up to the framers of the bill. He declares that he knows a hereof he is speaking and is prepared to go through with the charges. no matter if a grand jury investigation results.

According to those who have seen the billit provides that in the event of the abolishment of the city comparatier's office, the affairs of the office shall be conducted by the city clerk.

Cosgrave's statements javred the city hali from end to end Thursday morning. He says his telephone was constantly ringing and that he was kept busy denying requests to withhold his statement.

The bill to spoilsh the office of city comptroller has not been seen by me, al though some days back I was privately informed that such a bill was being prepared, at which time I was advised that "seeing" a certain official, I might head it off. Needless to say that I did not see the official named, and in consequence, 1 presume the bill has been introduced," said Mr. Cosgrove.

"I know no reason for such action at this time, and what spirit has prompted the introduction of the bill, other than an inference = make from such information as has come to me, that it was being instigated and prepared by a certain discredited cotorie, some of whom have accumulated small fortunes through the use of their official positions for private gain. This gang doubtless expect that if this safeguard of the public is removed, their opportunities for further graft will be im-

"When I became city comptroller I announced that I was por a candidate for re-election. I did this for the reason that I intended to be free to do my whole duty by the taxpastng public and that whole duty, I understand, consists in enforcing within the limits of my authority, those laws of the state which have been devised to prevent extortion, graft, theft or embezzlenicht of public cash or credits, either direct, through contracts or misuse of office as a result of wilful or ignorant negligence of official duty. This announcement and the belief that it was 'in me' to carry this determination to the end, has doubtless prompted the introduction of this bill, planning, perhaps, to have the office placed 'r "friendly" hands, to the end that exposure and popular condemnation of past and contemplated raids upon the public might be smothered. Whether or not the bill becomes a law is of little consequence to me personally, other than as a function;

I do not believe this bill has been aimed at me personally, for if it becomes a law it could only relieve me of official duties. for my salary would continue to the end of the term to whileh I was elected. This has been entablished in the courts of this state. Therefore, I can see only the one object to be attained."
