Shannon, president of the board of directors, will preside. The reports of all the year's work will be read and several new members will be elected to the board.

New Engines in Service—The first of the ten big Pacific type engines, bought recently by the Union Pacific for use on its lines was put in service at Omaha Friday morning. The engine started out with mail train No. 23. One of the points of the new style of engine is the water tank which will carry 5,000 gallons of water instead of 7,000 as those at present. This will make it unnecessary for the mail trains to stop for water at Fremont as it does at present, but allow it to go straight through to Grand Island.

Money Order Keeps Him Out—Charged with selling oleomargarine without a license, Joseph Vopelka, proprietor of a grocery and butcher shop at Fifth and William streets, proved an alibi with the receipt for a money order in police court Friday morning. Through his attorney, J. C. Cooley, Vopelka showed that he had not his \$10 fee for the state license two days before the complaint was filed charging him with the illegality. The case was continued to Saturday morning, by which time it is expected Vopelka will be able to show his license.

NEW CENSUS OF IOWA FALLS

Commercial Club Agents Find Names Omitted from Official Count.

IOWA FALLS, Ia., March 2—(Special.)—The canvass of the city by the Commercial club, just completed, puts the city in the 5,000 class and increases the number reported by the official census by about 200. A systematic and careful enumeration of the city was made by the directors of the club and results in finding many people who were not previously enumerated. The count made does not include nearly 400 students who are enrolled at Ellsworth college nor the foreigners who are employed the major portion of the year at the stone crushers in this city. In both instances they are residents of the city the most of the year, and while not legal residents, eligible to enumeration, yet they go to swell the number of people in Iowa Falls the greater part of the year to nearly 5,000.

Announcing the First Showing of Spring, 1911, Styles for Men and Young Men

The subject of new spring attire is one of universal interest amongst men who heed the requirements of Good Dress. As a consequence our statement that "The Choicest Productions of the Tailors' Craft" may now be inspected at this store, is one that really concerns every well dressed man in town.

Not simply because the announcement is made by this store, but because these new spring models REALLY ARE the most superb examples of the Tailor's Craft that have ever been seen in Omaha. The weaver of each new fabric, the designer of each style, the cutter and the tailor of each garment, have contributed their best in skill and knowledge that these might justly be called "perfect garments."

Stein-Bloch Smart Clothes

Added interest is given this spring's display by the fact that to our superb lines of past seasons has been added the widely known and very popular

"STEIN-BLOCH" Smart Clothes

The makers of "Stein-Bloch" clothes have attained an individuality of style, cut and finish not found in any but "Stein-Bloch" garments. They are more than worthy of your consideration.

Amongst the new spring shades are light browns, light grays and mixtures in pin stripes, herringbone weaves and diagonal stripe patterns. We ask you to consider this Ad. a personal invitation to visit our store and see these garments.

FORMAL OPENING ON TODAY

Union Outfitting Company Ready to Show Day.

BIG STORE ALL IN READINESS

Public is Invited to Attend, Receive Souvenirs and Inspect the Beautiful Floral Display and Large Stock.

Busy Omaha will tomorrow witness the formal opening of the new modern store of the Union Outfitting company at Sixteenth and Jackson streets, where everybody will have the opportunity of seeing one of the best equipped retail furniture houses in the country. People of Omaha and its suburbs will look upon the splendid new home of a firm that has grown with the progress of this city; that has become one of the best known firms in the west, and that has done as much for Omaha as Omaha has done much for it.

The formal opening of this new store represents an important retail mercantile event in the city of Omaha and the state of Nebraska. It indicates the rapid growth of Omaha and its suburbs, for without the growth and progress of Omaha and surrounding cities the establishment of this store on the large and firm foundation of today would not have been possible. As Omaha has gone ahead, so has this new store moved forward, reaping benefits of a straight business policy that has won for the Union Outfitting company thousands of friends in Omaha and in the states of Iowa and Nebraska.

One of the Very Best. The building of this new store, the enlargement of its stock in every line—has produced for Omaha a retail furniture establishment that is second to none in the country. Not even in the larger cities of the east is there a store that compares with the Union Outfitting company's establishment for variety, quality and quantity of stock.

A high type of home furnishing concern.

It sells high-class goods at prices that are as reasonable as any in the world. It gives dividend payments—payments on the installment plan—that makes it possible for everybody to buy at this store, getting the best goods at the fairest prices and taking plenty of time in which to pay for them. The policy of this store has won many friends and has made it possible for the company to put up the new building, in which nothing has been left undone to make the store modern in every detail.

The store is one of the best lighted in the city. Unobstructed, daylight enters the building from two sides, Jackson street and Sixteenth street, so it is a certainty that this light never can be cut off by the erection of new structures. The electric lighting is a marvel of ingenuity, and it is stated that this store is the best lighted, day or night, of any in the city.

Every detail is ready for opening tomorrow, which will be extensive in scope, for great plans have been made during the last few months for this event. Music will be furnished by an augmented orchestra. Thousands of valuable souvenirs will be given visitors in the way of cheap plaques. No special attempt will be made to sell goods at this time and the whole store will be given over to the visitors for an inspection of the stock. It is to be shown day at the big store, where everybody may inspect the large stock, the beautiful floral decorations and the many other interesting things. The Outfitting company extends its earnest invitation to all its customers, friends and citizens at large to visit the new modern establishment for this formal opening.

MICHIGAN REPUBLICANS MEET

Taft Endorsed, but Canadian Reciprocity is Not Favored by State Convention.

SAGINAW, Mich., March 2—Despite an urgent appeal by Governor Osborn, the republican state convention here today omitted from its platform an endorsement of Canadian reciprocity. All the nominations were unanimous and there was little debate over the report of the resolutions committee.

Governor Osborn in his address said in part: "It is impossible to endorse the Taft administration without endorsing Canadian reciprocity, the greatest of President Taft's works." The platform as prepared for the consideration of the resolutions committee contained an endorsement of President Taft, William Alden Smith and United States Senator William Alden Smith. As submitted to the convention and adopted the platform omitted the endorsement of Senator Smith. Several members of the committee said that it was considered that the endorsement of Senator Smith might be construed as an endorsement for re-election, and it was decided that the expiration of his term was too far away for such endorsement at this time.

SOUTH DAKOTA TO ADVERTISE

After Bitter Fight Legislature Approves Money for Purpose.

ACTION ON RICHARDS PRIMARY

Senate Bill Wiping Out Free Range Passes House Without Emergency Clause—Soldiers' Home Considered.

PERRIE, S. D., March 2—(Special Telegram.)—For the first time since the statehood of South Dakota, it will again begin the advertising which was carried on in territorial days, but on a small scale. The result was not secured until the close of a bitter fight on the floor of the house, in which members from the southern and eastern parts of the state repeated the old worn out capital campaign statement of the general worthlessness of the state west of the Jim river, and putting that up as their reason. The farmers of the eastern part were bitter in their denunciation of such "useless expenditure" by the state, and said they had all the growth they wanted, but it went through by a bare scratch majority of fifty-three.

Primary Bill Killed.

The house tonight killed the Richards primary law after submitting the same proposition to the people through the referendum. The senate bill wiping out free range passed the house, but not until the emergency clause had been stricken off, and it is intimated that the stock interests will attempt to hang on for another two years through the use of the referendum. The house killed the new law in regard to publication of insurance statements, but it will be up again under reconsideration. The senate killed the new game code which provided for state game wardens and materially changed the game laws of the state and killed the bill to appropriate money for securing gas from the well on the state grounds.

Action on Soldiers' Home.

The senate also took up the house bill providing for a board of control of three for the soldiers' home, and abolishing the name "commandant." It has gone through both houses with the "emergency" attachment and will be a law as soon as signed, and while it does prohibit the appointment of soldiers as members of the board and at the head of the home, it does not cut out the old provisions which required such appointments. The same body also passed the house congressional apportionment bill cutting the state into three districts, one west of the Missouri, one east of the river and south of the south line of Hughes, Readle and Brookings counties and the third east of the river and north of that line. At the same time it carries a provision that until the state is granted three

Congressmen two shall be nominated and elected at large.

NEW HOSPITAL FOR YANKTON

Physicians Pleased with Plans for Quarter Million Structure.

YANKTON, S. D., March 2—(Special.)—Physicians and surgeons of this neighborhood met at Sacred Heart hospital Tuesday night at the invitation of the Benedictine Sisters to inspect some designs for the proposed new hospital to be erected on Mount Marty. The visitors were surprised to find the designs of great beauty, in early English gothic. If constructed as planned the building will easily be the peer of anything in the whole west and the commanding site will add much to the effect. The work is only at a very preliminary stage, but the design submitted shows a frontage of 230 feet, wings of eighty feet and five stories in height, with a handsome tower 125 feet in height. The interior design is also excellent. The estimated cost is \$250,000, most of which will be raised by subscription and bonds.

Newspaper Change at Huron.

HURON, S. D., March 2—(Special.)—Fred C. Smith has sold his interest in the Morning Herald to H. L. Hatch, possession being given March 1. The new firm of Tredegar & Hatch will continue the paper under its present political faith.

JAIL WEDDING IS PREVENTED

Tennessee Attorney General Prohibits Marriage of Man Who is Held for Murder.

CHATTANOOGA, March 2—Only the interference of the state attorney general this afternoon prevented the marriage in jail of Dr. John W. Sherman, held without bail for killing his brother-in-law, and Miss Cleo D. Lucas. Earlier in the day Dr. Sherman procured a license and when the wedding party, including Mrs. Thomas D. Norman, wife of the man Sherman is charged with killing, appeared at the jail admittance was refused on instructions from the attorney general.
