

LEGISLATURE NEARLY OVER

Most of Important Measures on the Calendar Disposed of.

SENATORSHIP STILL UP IN THE AIR

Guess that Democrats May Aid in Election of Deemer or Kenyon Seems to Be Without Substantial Basis.

(From a Staff Correspondent.)

DES MOINES, March 5.—(Special.)—The legislative program for the coming week is not very clearly defined. Members of the legislature returning from their homes report that there is not very great interest in the proceedings and very little disposition to criticize. The idea that the legislature has been idling away its time the last two months is not borne out by the records. In fact, the record shows a great amount of real work done and a condition of the legislative calendar that will permit of quick disposal of the important matters.

Practically all liquor legislation has been disposed of, for there will not be any radical legislation, and it is foregone that the legislature will not make any proposed amendment to the constitution.

There will be little highway legislation. The large general bills which have been prepared will not receive any consideration. Provision will be made for enlarging the general road fund by a part of the cut-over of the state highway fund, but about all that can be done for the highways.

School legislation is also at a discount and very little will be done. The woman suffrage amendment will get a hearing tomorrow afternoon, but probably a hearing will be all. The resolution condemning President Taft on his measure for reciprocity is hanging fire in the senate, but will be permitted to die there. The income tax matter is out of the way and the tax ferrets have been disposed of.

There is no doubt that the Oregon plan bill will be nearly buried in a few days and will come to be a cause of trouble.

Senatorship Still Up in Air.

In regard to the senatorship, it appears that nothing has been done during the recess. An effort has been made to line up the democrats to vote for Judge Kenyon, in view of the fact that it is now certain he cannot secure all the republican votes, but this has not been successful. Some of the democrats have shown inclination to vote for Judge Deemer, but will not do so unless all go together. The defeat of the Oregon plan bill may release the democrats but they will want to help in disposing of the whole matter. But the republicans who have thus far returned to the city do not show any signs of a change of sentiment. The Deemer men are pursuing a little more fixed in their determination to stand by him than are the Kenyon men. It is known that Congressman Charles E. Pickett expects to be here this week to see what he can do toward straightening out the senatorial matter and he will probably receive some votes from his district.

Record of Bills Made.

C. R. Benedict, clerk of the house of representatives, has compiled and had printed in the House Journal a complete record of all the bills that have had the attention of the house. This includes the 800 bills and fifty-nine that have come from the senate. Most of them are in the hands of committees, but will come out within a week. The record shows that the usual amount of business has been done by the committees.

City and Street Car System.

H. W. Byers, municipal counsel for Des Moines, is preparing a bill for the legislature that will open the way for city ownership of the street car system. B. J. Arnold of Chicago, expert on city ownership, is quoted as saying of the situation here: "I do not know of a city in the United States in better shape to try municipal ownership than is Des Moines at present. I cannot see any reason why the Des Moines street car system does not work, provided the proper management is provided. The valuation placed upon the system does not seem too high, to give an off-hand opinion. There is nothing here, in my opinion, to make the operating expenses above the ordinary."

Celebrate Miss Anthony's Birthday.

The Women's Christian Temperance union of Des Moines ask that February 3, the date of the anniversary of the birth of Susan B. Anthony be made a national holiday.

The National organization has memorialized congress to set this day apart as a national day for the observance of the people.

The local unions are in sympathy with this national movement and have done their part in bringing the Iowa delegation in congress to vote favorably upon the measure when it comes up for consideration, as it may do at the special session of congress.

Major Whipple Stricken.

James E. Whipple, major of the Fifty-third regiment, U. S. A., was stricken with paralysis while in a room at the state house today. He was found practically unconscious by others and carried to a room. He tried when first found to stand, but soon realized that he was helpless and when taken to a hospital could hardly speak. He said he felt and caused the injury, but the doctors believe there was an internal hemorrhage. He is 52 years old and has been with the National guard many years. He lives at Vinton and was here employed in extra work at the legislature.

Frat House Society Organized.

There was filed with the secretary of state today the articles of incorporation for the Gamma Theta association of Ames with \$2,500 capital for the purpose of building and maintaining a frat house at the State college at Ames.

Change in Educational Board.

Three members of the State Educational Board retire July 1 next. It is expected that A. B. Funk, Spirit Lake, and George T. Baker, Davenport, will be reappointed; but it is also known that T. D. Foster of Ottumwa expects to retire from the board. Mr. Foster is a democrat and his successor will be a democrat. The appointments are now due from the governor as well as some others.

Expect to Be Candidate.

Members of the legislature returning home from the Ninth district report that it is all but agreed that Judge W. R. Green of Audubon county will be the republican candidate for congress in the Ninth district, and that he may secure the nomination without a contest. Judge Green is already considering the matter and his friends have been active in his behalf.

Divorce Suits Popular.

A divorce suit seems to be the most popular suit in the Polk county district court. There are 44 suits filed for the month of March, and 44 suits filed in the equity docket, thirty-five are petitions for divorces. The marriage license dispenser will have to work overtime to get even, if all of these are granted.

Legislature Arriving Tomorrow.

A number of the members of the legislature have returned to the city from their recess visit at home, but they do not indicate that anything has occurred that will make it easier to break the senatorial deadlock. The report of the members of the dates appear unremoved and unchanged and they generally report that the people at home are indifferent to the situation.

Damage Suits at Marshalltown.

MARSHALLTOWN, Ia., March 5.—(Special.)—Seven personal injury suits, or suits for money damages alleged to have resulted from other causes, in which a total of \$7,000 is sought were filed here today, at the district court. The most sensational of the suits is one brought by David Kolbe against John W. Nelsens his landlord and a rich retired farmer for \$10,000 for alleged malicious slander.

Mary A. Barker and her husband, John Barker, have brought two suits for \$10,000 damages against the Marshalltown Light Power & Railway company for alleged injuries claimed to have been received by a street car.

Julia Lang and August Lang has filed two suits against the city for \$1,000, for broken leg and other injuries, which Mrs. Lang received when she fell upon a sidewalk.

Iowa News Notes.

JEFFERSON—Mrs. C. M. Starling has instituted suit against Lucius Dimon, alleging that he illegally seized her property and she wants damages in the amount of \$10,000.

CRESTON—Miss Rose Hillis, one of the earliest settlers and residents of this city, died at Cottage hospital yesterday from dropsy. She had been a sufferer from dropsy for several years and her death was the immediate cause of her death.

IOWA CITY—Thomas W. McIntyre of McPherson, Kan., who was slugged and robbed by highwaymen at Chicago, Ill., came to Iowa City today in search of a missing son at the University of Iowa. The boy could not be found here.

LOGAN—Eleven candidates in the first, and four in the initiative, were given degrees in the Independent Order of Odd Fellows at the lodge here at which time the drill team, accompanied by a large delegation from Woodbine, put on the floor work. After lodge work, refreshments were served.

IDA GROVE—Special Agent Charles Lich of the department of immigration at St. Louis arrived here with a warrant for Mr. and Mrs. G. F. Harris ordering their return to Scotland. Mr. and Mrs. Harris came to this country from Scotland in 1898. Mr. Harris was arrested in 1907 and within six months became dependent upon the charity.

MAISON CITY—George Mack was fined \$100 and costs for bootlegging. He pleaded guilty in Justice W. S. Rankin's court, after which the case proceeded to trial. Mack has been entered on a conviction followed a trial.

CRESTON—Charles Johnson has been granted a patent on a device for using a shield for the water glass on locomotives. This preventing injuries to the engine man when the water glass is shattered. He has had the invention before railroad officials in Chicago, where it was reported on and a trial is to be given it.

CRESTON—Coal has been discovered by the drillers working on an artesian well at Leon. They say they were in a vein of coal at a depth of 600 feet. It is impossible to tell the thickness, as a churn drill is being used. It is claimed coal has been located at several different places near Leon in varying degrees of thickness.

LOGAN—A dispatch from a St. Louis hospital announces the death of Dr. J. I. Witt, for many years a practicing physician of Logan, but more recent of Chicago. He will be held at the Presbyterian church of Logan Tuesday afternoon, with interment in Logan cemetery, with the Masonic lodge of Logan in charge.

IDA GROVE—S. Simon of this city, the president of the Maple City Odd Fellows lodge, has arranged for a special train service for the big anniversary celebration to be held here by the Odd Fellows of Iowa on the 28th of April. The celebration commemorates the ninety-second anniversary of the organization, and many distinguished guests will be present in broad. The principal address will be by the Hon. Jerry Green of Marshalltown, by

Woman Burned by Explosion.

SIoux FALLS, S. D., March 5.—(Special.)—Mrs. Henry Mauch, a prominent resident of Hetland, was seriously burned as the result of an explosion, which occurred when she poured a mixture of kerosene and gasoline on a slow fire for the purpose of making it burn more quickly. The burning liquid was scattered over her clothing when the explosion took place, and in an instant she was a mass of flames. Before the unfortunate woman could be rescued the greater portion of the clothing on the upper part of her body had been burned off. Her face and neck are badly burned. She was rescued just in time to save her life.

When you have Rheumatism in your foot or instep apply Chamberlain's Liniment and you will get relief. It costs but a quarter. Why suffer? For sale by all dealers.

APFARS AT SOUTH OMAHA

Another Industry is About to Be Located in the City.

EMPLOYMENT FOR MANY PEOPLE

Ohio Concerns that Manufacturers Cans and Sanitary Ware Gets in Correspondence with Mayor Trainor.

The prospect of a new industry being located in South Omaha and one that will give employment to many persons will be gratifying news to the people of the city. The announcement came through Mayor Trainor, with whom the Zerose Manufacturing company of Cleveland, O., has been in communication. Officers of the company will be here in a few days with a view to securing a location for the erection of a plant for the manufacture of sanitary glass milk cans, insulated milk and ice cream cans, oyster cans and all descriptions of this sort of sanitary ware.

The company has informed the mayor that it will require about three acres of land which must be situated inside the city limits, and adjacent to railroad tracks and a paved street. The factory when completed will employ about 150 men and a number of girls.

The company has let it be understood that it wants to take advantage of the development of the west and the growth of the milk business in this part of the country, is regarded by it as an inducement to make this district a center for the western extension of its business.

Mayor Trainor will bring the matter before the next meeting of the Commercial club. Meantime he will be in communication with particulars as to sites and other details, the seeking for which indicated that there is a strong probability that South Omaha may be selected as the location for the new industry.

The present state of the skilled labor market in the city shows that it is a struggle for every effort being made to affect this result. With the influx of laborers from European countries that end of the field is more than stocked and if the plant which the Cleveland company will install will employ a higher type of workmen it will be a decided acquisition to South Omaha.

City Engineer's Reply.

City Engineer Roberts takes strong exception to the criticisms that have been made by certain residents of the north end of the city as to the character of the paving work done there during the last year. He describes the protests made against the special taxes as excuses on the part of certain property owners to knock out the taxes and have the city pay for the whole cost of the work.

"I will let the work be passed upon by any engineer," he says in reply to the statements that the laying of the pavement was defective, both from a contractor's and engineering point of view and he alludes to the fact that about a month ago he had a deputation from Red Oak, Ia., paid a visit to South Omaha for the purpose of inspecting the paving and adds that so satisfied was the mayor and the other members of the council who were with him—and they examined these streets, he emphasizes with what they had seen that they had decided to follow the example of South Omaha and returned home with the intention of doing likewise.

"I see," continued Mr. Roberts, "that J. W. Smith makes complaint about the grade on Twenty-second street at his place. I did not fix the grade; these grades were fixed long before I was appointed city engineer. It should, however, be recollected that the fixing of the grades is a matter that rests with the council. I as city engineer make the original profiles, but in this case I neither made the profiles nor fixed the grade. But I strongly dispute the assertion that there is the stant in the street Mr. Smith says there is and any one can see that."

City Engineer Roberts referred to the difficulties the engineer's department had to contend with when they came to prepare for the paving of a street. "Possibly we may find," he said, "that some tax-payer to suit his own convenience has removed the stakes placed to regulate the construction of the sidewalk and then we have to try as best we can to suit the altered condition."

"A personal inspection," he added, "by any unprejudiced person should convince him there is nothing substantial behind these protests and there certainly are no serious cracks in the pavement. The people themselves should be aware of the fact that the inspectors who have been appointed for the several districts are residents of those districts."

Third Attempt at Suicide.

South Omaha has a woman whose fondness for an "international marriage" has led her into three matrimonial entanglements and who has attempted each time to take poison as a result of her disappointment.

Mrs. Mamie Angelo's husband is a Greek. Her latest attempt at suicide occurred last night. She took chloroform and was revived by Dr. Shanahan.

Mrs. Angelo first entrusted herself to a Japanese. All went well until the husband became tired of his wife and baby and disappeared. Her first attempt at suicide followed.

The woman's next companion was also a Japanese. The second attempt at suicide followed the breaking off of this union.

Mrs. Angelo is 25 years old. The family residence is at 187 North Twenty-fifth street.

Full Causes Death.

A fall resulted in the death of an unidentified man at the N street corner of the alley between Twenty-fourth and Twenty-fifth street last night. His neck was broken by striking on the edge of a wooden sidewalk.

A quantity of change was scattered on the ground and the man's hat had fallen off. There were no means of identification. Deputy Corner Larkin took charge of the body.

The man had been seen earlier in the evening near the Live Stock National bank in an intoxicated condition.

Jim Hosmote, 308 North Twenty-fourth street, and Walter Stover, 418 North Twenty-fifth street, found the body at 11:35 o'clock last night and notified Night Watchman Crocker.

Pneumonia Claims Many.

During the month of February there were forty-four deaths in the city and pneumonia was the cause of eleven of them. For the first time in months the girls born exceeded the boys. The record for the month was thirty-four female births against twenty-three males. Forty-four deaths occurred during February, twenty-six males and eighteen females.

Burglars Busy in City.

Burglars have been busy in the city during the week, the residences of Dr. C. M. Schindler, W. R. Page and Mrs. Leffer having been entered. A diamond ring and other jewelry was taken from the Page home and Mrs. Leffer has discovered a quantity of silver plate missing. As Dr. Schindler's family are out of the city at present it cannot be ascertained to the full extent, what has been taken. An inspection of the residence by some of the doctor's friends disclosed

NO MORE JAIL FOR BIGELOW

Paroled Banker Says There is Little Probability of Return.

WILL AWAIT COMING OF SON

Released Man Refuses to Discuss Return to Business Life, but Says He Will Keep Busy.

LEAVENWORTH, Kan., March 5.—"I believe there is little probability of my return and I thank you for your well wishes to appreciate the treatment that I have received while here and hope that same courtesy will be extended others."

Such were the words of Frank G. Bigelow, the millionaire ex-banker of Milwaukee, as he left the gate of the government reservation at 4:03 o'clock yesterday, paroled until the termination of his short time sentence, February 20, 1911, when he finally will be discharged as a prisoner under the federal government.

Bigelow, in company with T. G. Hayes, a former banker of Washington, D. C., who was also paroled today, came through the big gates at the front of the penitentiary and walked the quarter mile to the car station still in charge of a guard. It was when he shook hands and told the guard goodbye that he made the foregoing statement.

A reporter met the two paroled men as they left the guard. Mr. Bigelow refused a cigar, took a piece of tobacco from a well worn pouch, a relic of the years spent in the prison, and conversed freely with the reporter and Hayes.

Will Keep Busy.

"I dislike to talk of the experience inside the walls," he said, looking back at the great penitentiary. "But it has been a strange experience. I regret it in one way, but in another it is different. What I will do after I return to my home in Milwaukee, I will not say. I do not care to discuss the possibility of returning to active business. I will comply with the clause of the parole law, which makes it obligatory for a man to keep busy after he is out, however, and the aged banker smiled.

Then the car arrived, the three boarded it and Bigelow sat looking out of the window. As the prison passed out of sight he sighed and turned to Hayes. They talked lightly and joked each other of different experiences in the institution. "I always had it on you fellows," Bigelow said, as he took his tobacco pouch from his pocket. "My supply of tobacco never ran out," and with similar conversation they continued the ride.

A woman with a small baby got on the car. Bigelow turned to Hayes and the reporter. "I suppose that neither of you has a family," Bigelow said.

"You appear young. It is better for you, Tommy," he said to Hayes, "and neither of you can realize what this means to me."

Will Await Son.

Upon his arrival here Bigelow went directly to the home of M. L. Hacker, ex-mayor of Leavenworth. There he had dinner and will await the arrival of his son, Gordon, who is expected tonight. The two, according to Bigelow, will go to Milwaukee together.

Since he has entered the Hacker home Bigelow has refused all newspaper men asking for interviews.

Legislature of South Dakota Finishes Up Work and Quits

Much Business Transacted, Though But Little is Considered of Great Importance.

Opening of Store is Grand Occasion

Large Crowd Visits Union Outfitting Company's New Establishment and is Delighted.

OMAHA, Council Bluffs and South Omaha turned out of doors Saturday and swarmed into the new store of the Union Outfitting company for the formal opening of this establishment. It was a grand event for Omaha and a worthy one for the big store, which was greeted by hundreds of its friends and by hundreds of new visitors.

All during the day the big store was crowded with people, anxious to see what has been accomplished by the progressive firm that had the courage to build one block south of Howard street. It was a finely stocked and a handsomely equipped store that the visitors found, too, for everything possible to give Omaha a modern furniture store has been done by the Union Outfitting company.

Every visitor at the grand opening was presented with a handsomely decorated China plaque, and thousands of these pretty dishes were given away during the day. When the crowd first began wending its way to the store early in the morning, the firm immediately realized that the crush of the later hours would be great, so special care was taken to provide plates for everybody.

In the afternoon the visitors crowded the large store and filed through its many rows of furniture, viewing one of the best stocks in the west. In the evening, until the late hour of closing, the place was filled with an eager crowd—eager to see the new home of the furniture company and eager to receive the beautiful presents as souvenirs of this great event.

The store was open from 9 o'clock in the morning until 10 o'clock in the evening. For entertaining the visitors a band concert was given during the morning, afternoon and evening. During the evening a large crowd stood outside the store and listened to the selections played by the band.

All visitors were pleased with the entertainment afforded and with the courtesy of the clerks. The store was beautifully decorated and added a bit of delightful charm to the grand occasion. All said it was a big event for Omaha and a big event for the Union Outfitting company.

Fearful Slaughter of deadly microbes occurs when throat and lung diseases are treated with Dr. King's New Discovery. 50c and \$1.00. For sale by Beaton Drug Co.

TEACHERS' ASSOCIATION RE-ELECTS MISS POWELL

Former President Will Again Direct the Affairs of the Organization for Pedagogues.

MISS MARtha L. POWELL was re-elected president of the Teachers' Association at the annual meeting yesterday afternoon in the city hall. Mrs. Nora H. Lemon was elected vice president, Miss Emma Whitmore, second vice president; Mrs. E. W. Nichols, financial secretary; Miss Anna Pickett, recording secretary; and Mrs. Emma Wheatley, treasurer.

The directors elected to the board, which includes representatives of the different school departments, were: Primary, Miss B. Mason and Miss Martha Parratt; grammar, Mrs. Agnes Harrison and Miss Josephine Grant; teacher at large, Mrs. Julia Haven.

The organization, which began fourteen years ago with sixteen members, has now 109 and has grown financially. The treasurer's report showed that the association's assets are \$24,375.21. The association has been working to make the permanent fund \$25,000. The income for the year was \$2,897.42 and the disbursements, 1,382.53.

The Key to the Situation—See Want Ads.

GOLD DUST will take the grime and smut, grease and dirt from your pots and pans in a twinkling, leaving them as clean as when new

GOLD DUST is so far ahead of soap for cleaning pots and pans, that the woman who does not use it is really doing about twice as much work as necessary. The soap merely cleans off the surface, and does not dig deep after the germs of decay which accumulate on pots, pans and kettles which are in constant use.

GOLD DUST does more than clean—it goes to the very heart of things, kills every germ and sterilizes your cooking utensils. It makes them sanitary, clean and safe.

GOLD DUST does the work in just half the time that it can be done with soap or any other cleanser.

GOLD DUST is a vegetable oil soap in powdered form, which starts to work the moment it strikes the water; it cleans quickly, easily and thoroughly.

Do not use Soap, Naphtha, Borax, Soda, Ammonia or Kerosene with Gold Dust. Gold Dust has all desirable cleaning qualities in a perfectly harmless and lasting form.

Let the GOLD DUST TWINS do your work.

Made by THE N. K. FAIRBANK COMPANY Makers of FAIRY SOAP, the oval cake
