Seaste in Committee of Whole. The senate prest the morning in comsittee of the prhole and took up the primary bill introduced by Cordent. The bill provides a system of nomination by party counsils and by petition. No decision was reached upon it man it seems probable that it will be postponed because the senate has no desposition to dry to settle the primary question, Consider Banking Law.

The state banking law, only recently declared constitutional, was up for discustow in the semate this afternoon in connection with McGrew's banking hill, which was put on general file. Senators representing western counties argued for an amendment to the law that would permit the payment of more than I per cent on deposits. Senator Albert, who drew the present law, said that the question is not so much what a bank pays as it is the rate of interest that it receives for loans. The metion to raise the limit from 4.70 5 per cont. was low.

A provision in the McGrew bill giving the State Hanking board gight to refuse a charter when a new bank seemed unnerensary was stricken out on an amendment by Senator Varner, Senator Varner confended that there should be no more restriction upon legiturate banking than open any other business.

Senator McGrew amended his own bill to south the banking board to pay back a bunk all of) its share of the state guirenty fund an liquidation. Senator Tal-cott amended it to compel the board to washa year before repaying back the guarantic fund confillution. It was moved to asider this after it was passed, but Matter withdrew the amendment and the bill was ordered engrossed for third readng me it stood. It provides that a bank
