

BRIEF CITY NEWS.

Have Not Print It.

Eye Test First—Naps Jewelry Co. Gas Electric Fixtures, Burgess-Granda, Times, Printing.

Two Divorces Granted—The following divorces were granted in district court Monday: John Gray from Maggie Gray, Mank, Neb; from William Hubert and Marie Hubert.

For Wage Earners, the monthly payment plan of the New Savings & Loan Ass'n offers the ideal plan for savings. 104 Board of Trade Building.

The Bankers Savings and Loan Association have moved to their new quarters in the Douglas block, Sixteenth and Dodge, and are ready to make loans to home owners.

Mayor Signs Ordinance—Mayor Dahlman signed the ordinance providing that all buildings erected in the city shall be constructed of fire-proof material. The ordinance was passed at a meeting of the city council Monday morning, and returned it to the city clerk.

Mayor Invited to Italy—Mayor Dahlman has received an invitation from C. H. Hahn, Mayor of Home, Italy, asking him to be present at a meeting of mayors, which is scheduled for June 1. The mayor says he will go if the city council will pass a resolution, appropriating sufficient funds to defray the expenses. But he will not request the council to make the appropriation, he says.

Not Drugged, But Broken Leg—Picked up by the police in an alley Monday night, Charles Jurgil, 47, first supposed to be the victim of intoxication, was Tuesday discovered to be suffering from a fracture of the left leg. Jurgil, who is a stockman of Hancock, Neb., was arrested Monday night at 10:15 P. M. The police surgeons examined him an hour later. The man was unable to tell how he had received his injury.

Bids for School Annexes—Bids for the purchase of the three annexes on the site of the old Forest school at Fourteenth and Phelps streets were opened by the Board of Education and referred to the committee on buildings and grounds. The highest bids were filed by H. H. Paulsen and John H. Butler. Butler offered \$25,000 for the north and middle buildings and Paulsen offered \$25,000 for the south building. The buildings will likely be sold to these bidders.

DANISH SOCIETIES TO ENTERTAIN SINGERS

Chorus from the Royal University of Copenhagen to Give a Concert Here.

Fifty students of the Royal University of Copenhagen will entertain the music lovers of Omaha some time this summer with a recital. The Danish Aid society of Omaha has perfected arrangements for the appearance of the Glee club here, according to Waldemar Michaelson. All that remains is the naming of the date and Mr. Michaelson expects to be able to announce the exact time within a week.

Lavish entertainments will be showered on the music masters from far off Denmark. Instead of quartering them in hotels during the visit here, the members of the party will be housed by the Danes of Omaha.

The students will sail for America on May 4 to begin a three weeks' sight-seeing tour of this country, under the patronage of His Royal Highness Crown Prince Christian of Denmark. Incidentally, the glee club will endeavor to earn their way by giving concerts in a dozen or more of the leading cities of the country.

Through the efforts of the Omaha society, the management has been induced to include Omaha in the itinerary.

The fifty students comprise a chorus of as many picked voices from the Danish Student Singers' society of Copenhagen, recognized as one of the best male choruses in Europe.

CLUB DENOUNCES MOVE FOR TRANSFER OF FUNDS

Executive Committee Adopts Sharp Resolution Against Measure Before House.

Resolutions adopted by the executive committee of the Commercial club at its weekly meeting held Tuesday afternoon denounced in sharp terms the bill for the deposit of insurance company securities with the state auditor. The resolution follows:

Resolved, By the executive committee of the Commercial club of Omaha that we regard House Bill No. 107, requiring the deposit of securities of Nebraska insurance companies with the state auditor as a violation of the constitution, calculated to place in jeopardy and constant peril the reserves and guarantee funds of Nebraska insurance organizations of every time aggregating almost \$300,000,000 and as tending to destroy the confidence of the public in our Nebraska institutions and to believe this bill would be a rank discrimination against our home companies.

BABY SHOW FOR NEXT WEEK

Tempting Prizes for the Best Looking Babies of Omaha Offered.

A real baby show is to be held in Omaha. The Grand store is planning the important event and arranging both the details for the exhibit, which is to be held in the store Tuesday and Wednesday of next week, and offering a list of tempting prizes for the competing infants.

The show is open to all the wonderful babies of Omaha. Every baby will be photographed and the picture presented to the exhibitor, that much of a prize is assured every one. The first prize for the most beautiful baby is a diamond locket. The second prize is a diamond ring, the third a sterling silver cup. The ten next will receive baby shoes.

TROOPS ORDERED TO FRONTIER

Two-thirds of Department's Soldiers Sent to Texas.

GENERAL SMITH MAY FOLLOW

Commander Probably Will Take Staff Into Field—Carry Two Hundred Rounds of War Ammunition.

Two-thirds of the fighting force of the Department of the Missouri are under orders to proceed immediately to the Mexican border. Commands are being issued from quarter to quarter, the click of arms is heard, horses and mules are being expeditiously and stores and ammunition are being packed for transportation.

The Department of the Missouri will contribute nearly 1,500 troops, according to word received this morning by Brigadier General F. A. Smith, commanding the department. Since the major portion of his command has been ordered to the border he is momentarily expecting to be sent into the field. In the event that he is ordered out he will take with him all the available officers of his staff, leaving only a sufficient number here to transact the routine business.

The orders from Washington today call for the movement of the following troops: Company D, signal corps, Fort Omaha. Second battalion, Eleventh infantry, Fort Mackenzie. Eleventh infantry, Fort Russell. Thirteenth cavalry, Fort Leavenworth. Fourth Field artillery, Fort Russell. Ninth cavalry, Fort Russell. Third battalion of engineers, Forts Leavenworth and Russell. Two troops, Fourth cavalry, Fort Meade.

The fourth cavalry, together with headquarters, are ordered to El Paso, Texas, and the other fighters are to go fully equipped for field service, with ten days' rations and 30 rounds of ammunition. All available medical officers and sanitary troops will join in the movement. Only one officer and the fewest number of men possible will be left at the deserted forts to guard property. Even these are to be relieved later by caretakers.

The Thirteenth infantry had previously been ordered to the Philippines to relieve the Seventh, sailing from San Francisco on April 5. This order has been suspended to allow the Thirteenth to go into the field along the border.

Money Lender Defends Scalping

Declares Salary as Security is Frequently Only Way for Poor Men.

That the practice of assigning salary warrants in the city hall and court house is the same as it has been right along and is only part of the legitimate business of loaning money to persons who have no security to offer except their salaries, is the answer which is made to the outcry coming from the comptroller's office. Comptroller Casper's expressed desire to put a stop to it, therefore, is not taken seriously by those who are concerned.

"I wish you would let me say just a word through The Bee," said one of the men engaged in the loan business. "A free American citizen has a legal right to sell his horse or furniture or other personal property, including his salary. If it is not convenient for him to sell his property or draw his salary himself, he can delegate the power to another, and no one is harmed and no laws violated. Often in sickness and death the poor man with no credit must have money and his salary is the only security he can give. But the banks do not loan on such security as unearned salary, and he must borrow, he borrows at all, while his security is available. As to the rate paid for these accommodations, the risk on all loans is a controlling factor. A man who can put up government bonds as security can borrow much more cheaply than a man who can only secure the debt by the salary he has not yet earned. A laborer can usually buy more with 10 cents in cash than he can with a dollar, and he is going to get the cash next week. He may save money by borrowing for that purpose. All public records in every public office are supposed to be open for the inspection of any tax payer at all reasonable hours. And there is no reason why we should not have access to them the same as other people, who use the information in their business."

Science Loses in Battle with Death

Little Girl Dies from Throat Affliction After Years of Treatment.

Medical science failed when brought to bear on the case of Lulu Marie Cole, 5 years old, who for three years suffered the affliction of a growth in the throat and died at a local hospital Tuesday morning. The child's daughter of Charles L. Cole of Hancock, Neb., was brought to this city two years ago and placed in the care of specialists.

The affliction which had fastened itself upon the little girl was discovered to be a growth of the larynx, a growth in the throat. Dr. C. C. Allison finally took charge of the case and worked to save the child from what appeared to be certain death. The physician pronounced the ailment an unusually remarkable one. For months efforts were made to remove the growth, but in vain.

Felix's Kidney Pills Neutralize and remove the poisons that cause backache, rheumatism, nervousness and all kidney and bladder irregularities. They build up and restore the natural action of these vital organs. For sale by all druggists.

OFFICER TELLS OF ACTIVITIES

Hettfeldt Testifies as to His Efforts to Get Testimony of Illegal Sales.

Woman's Work

Activities of Various Organizations Holding Along the Lines of Wandering of Concern to Women.

Civil questions were brought to the attention of the members of the social science department at its meeting Monday afternoon. As questions in regard to which each one has a responsibility. Each of the speakers pointed her talk by showing what the individual can do to promote the civic health and welfare.

Mrs. Albert Edholm, who was leader of the meeting, sounded this prevailing note in the concise and forceful paper which she read on "Civic Righteousness and Tuberculosis." She said: "The time for Breckner patriotism is past; it has been passed out by a sense of civic responsibility." After picturing succinctly and with telling phrases the way in which the carelessness of the individual threatens the health of the community, she said: "If you do not recognize your personal responsibility, if you can observe the people about you offering lessons in health, considering the anti-spitting ordinance a dead letter and disregarding the outcry against the house fly and be content to do and say nothing, your patriotism is at a low ebb."

Mr. Harry Lawrie, who spoke on "Architectural Beauty," called attention to the responsibility of the club women a collective one. He said: "You are working along the right lines here in your work to get public sentiment aroused in the interest of a city beautiful." His talk was an interesting review of the evolution of the idea of city beautification, reaching to the idea which meant both greater utility and greater beauty.

A city, he said, first has a consciousness of the possibilities of civic beauty "when it gets rich enough to have men with some leisure time to give to the thought and planning for the beautification of the city." He said that Omaha has reached that stage. If you are desirous of adding give to the Park board all your encouragement for their project in regard to Carter lake.

In the questions which followed his talk Mr. Lawrie was asked to describe the ideal school building. "Germany," he said, "made the first step toward this, and we have been adopting and adapting the German idea in this country. The two main points in their plan are in regard to the lighting and ventilation of the rooms. We have the light coming from one side only, across the left shoulders of the pupils, and so that both pupil and teacher are facing dead walls." He favored the fanning system of ventilation, which provides that the air of the room is entirely changed every twenty minutes. The St. Louis schools have adopted this, embodying the best principles in school building.

Mrs. Draper Smith read excerpts from current numbers of the sociological magazine, Survey, on subjects of interest to the department. She quoted from the magazine's report of the Nebraska conference of charities and correction, which was given under the heading, "Nebraska Conspires to Head Off Slums."

The United States Daughters of 1812 met Wednesday afternoon at the home of Mrs. W. D. Giffin, 123 North Thirty-sixth street. Mrs. Herbert Gates, former and present, will preside at the meeting and will read a paper "By a Colonial Wife." At this meeting the name of another "real daughter" will be proposed for membership. This will give the society several real daughters.

Rev. B. F. Fellman will speak at the meeting of the Frances Willard Woman's Christian Temperance union meeting, Wednesday afternoon on "Church Organization on Social Service." Mrs. George W. Coyell will give a report of the recent state convention of the Woman's Suffrage association. The meeting will be held at the home of Mrs. Coyell, 215 Wirt street, at 2 o'clock.

The wives of the master plumbers of Omaha met at the home of Mrs. Walter J. Caffin, 264 Manderson street, Friday afternoon and organized an auxiliary to the Master Plumbers' association. The officers elected were: Mrs. D. W. Dudgeon, president; Mrs. H. Hollis Johnson, vice president; Mrs. S. H. Shollman, secretary and treasurer. A social meeting will be held March 16 at the home of Mrs. Thomas J. Falcomer, Jr., 318 North Twenty-first street. During Lent this organization will see for the Child Saving Institute.

CHECK GAME TRIED ON LAWYER CAUSES ARREST

M. W. Conley Taken by Police on Charge of Seeking to Swindle.

Several attempts to cash a \$50 check by use of the names of as many responsible business men of the city ended in the arrest of M. W. Conley, who gave the address of 30, South Seventeenth street. Conley is alleged to have made strenuous efforts to get F. W. Fitch, an attorney, to endorse the check, and in the end to have obtained the signature unknown to Fitch. It was Fitch who caused the man's arrest. The lawyer denies having endorsed it.

According to Fitch, Conley called at his office and offered to place in the lawyer's hands a case involving a suit for damages on behalf of Conley's nephew, whom the latter said had been thrown off a train and subjected to the loss of his arm. He showed the lawyer a letter from Mitchell, South Dakota, authorizing him to proceed in the suit against the railroad. Conley visited Fitch Saturday and later showed the lawyer the letter and the check. According to testimony of Fitch and Owen McCaffrey, a saloon keeper, Conley attempted to cash the \$50 check with the fictitious endorsement of Fitch.

In case of rheumatism relief from pain makes sleep and rest possible. This may be obtained by applying Chamberlain's Liniment. For sale by all druggists.

School Board Tables Medical Inspection After Discussion

Proposal to Put New School in Field Club District Postponed—Plans for High School.

The school board refused to go on record last night for or against medical inspection by taking a resolution indefinitely offered by James Richardson. Mr. Richardson's resolution, which was seconded by H. V. Cole, endorsed medical inspection as a general proposition, but made no provision for the enforcement of any bill now pending.

The motion to table was made by C. R. Courtney and prevailed after Dr. E. Holovitcher attacked Richardson's measure. Dr. H. W. Connel, health commissioner, appeared before the board and made a plea for inspection of the public schools, asking that the board endorse medical inspection. Mr. Connel declared he cared not about the inspection as such, but the supervision of the health department or the board. In the event that the board would declare in favor of inspection, Dr. Connel pledged his support to any bill which would suit the members of the board.

The plans for the completion of the high school building, as drawn by Architect Letenzer, were approved and the secretary was ordered to advertise for bids. The plans include the erection of the west wing and a part of the uncompleted north wing. A protest filed by fifty residents of the Field club district objecting to the establishment of a building in the district bore fruit when the committee on building and grounds recommended that the petition for such a school be postponed indefinitely. The petition was filed by the Field club district improvement association two weeks ago and options were submitted two weeks ago. The report of the committee was adopted.

The board was asked to detail a teacher to the detention home. The request was signed by Judge Howard Kennedy of the juvenile court and Elizabeth Stone Ryan, superintendent of the detention home. The superintendent stated that on an average twenty-four youngsters were confined to the home each month and stated that some sort of instruction was needed. The request was referred to the teachers' committee.

Residents of Creighton's first addition saw the manual training room in the Windsor school to run during the day instead of half day sessions as now prevail. This request was also referred to the teachers' committee.

Mrs. Mary Lyons was dismissed as janitress of the old Forest school building and Aston Vitouha was selected to fill the vacancy at an increase in salary of \$3 a month.

The committee on supplies was instructed to purchase thirty-seven guns and four officers' swords for the cadet department of the high school. Independent telephones were ordered installed in the office of the superintendent and secretary of the board.

Gas Company Wants Extension of Time

Is Not Ready to Meet with City Council to Adjust Disputed Bills.

Attorneys for the Omaha Gas company have asked for an extension of time in the matter of meeting the city council in special session to consider the differences existing between the city and the company over street lighting for the last five years.

A meeting, scheduled for last Friday was adjourned until Wednesday afternoon. Attorney Lee Herdman of the gas company served notice on City Attorney Rice Tuesday morning that W. J. Connel, who also represents the gas company, would be unable to attend the meeting Wednesday and suggested that the hearing be set over for a few days.

Smallpox Breaks Out in the County Jail

Prisoner Held for Week Found to Be Infected—Inmates Are Infected.

Quite a stir was created at the county jail Monday evening when Dr. McCrann discovered that Earl Boyd, a prisoner who had been in jail for a week, had the smallpox. Dr. McCrann immediately called half a dozen physicians to his assistance and vaccinated 16 of the inmates of the jail. It is estimated there are about 30 people around the jail who have been exposed. The jail is being fumigated today and Boyd has been sent to the emergency hospital.

Prisoners who were in the "bull pen" this morning awaiting trial, were stripped of their clothes, given temporary jumpers while their clothes were fumigated. The prisoners were taken to the basement and given a steam bath.

Household Economy

How to Have the Best Cough Syrup and Save \$2, by Making It at Home.

Cough medicines, as a rule, contain a large quantity of plain syrup. If you take one pint of granulated sugar, add 2 1/2 pints of warm water and stir about 2 minutes, you have as good syrup as money could buy.

If you will then put 3 1/2 ounces of Pinex (50 cents worth) in a pint bottle, and fill it up with the Sugar Syrup, you will have as much cough syrup as you could buy ready made for \$1.10. It keeps perfectly.

And you will find it the best cough syrup you ever used—great in whooping cough. You can feel it take hold—usually stops the most severe cough in 24 hours. It is not laxative enough, has a good tonic effect and taste is pleasant. Take a teaspoonful every one, two or three hours.

It is an splendid remedy, too, for hoarseness, asthma, chest pains, etc. Pinex is the most valuable concentrated compound of Norway white pine extract, rich in gualic acid and all the healing pine elements. No other preparation will work in this formula.

This recipe for making cough remedy with Pinex and Sugar Syrup is now used and prized in thousands of homes in the United States and Canada. The plan has often been imitated but never successfully.

Guarantee of absolute satisfaction, or money promptly refunded goes with this recipe. Your druggist has Pinex, or will give it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.
