

CITY AND COUNTY TO SETTLE

Old Claims Against Each Other to Be Adjusted at Once. ONCE A MONTH IN THE FUTURE Some Claims Have Been Hanging Fire for Over Ten Years and These Will All Be Finally Settled.

The city and county will settle their differences in the matter of claims by compromise for a period extending from January 1, 1910, to February 28, 1911, and hereafter all claims will be adjusted each month.

Such was the decision reached Tuesday afternoon at a joint meeting of the finance committees of the city council and the county board of commissioners. The committees were ordered to get statements of claims pending and present them for adjustment at another meeting which will be held when the statements are completed.

Unsettled claims as far back as the early '80s exist, but to effect a settlement it was deemed advisable to begin with accounts which date from January 1, 1910.

The city has heavy claims against the county, chief among which is unpaid taxes from January 1, 1910. Then there are amounts due from the county for expenses which have been incurred in the treasury office since the consolidation of the county and city offices.

County to Bear All Expenses. When the county treasurer's office was consolidated with the city office it was made imperative that the county should bear all expenses of the office, except 1 per cent commission on all collections made by the treasurer and a salary of \$1,500 a year. The city has been paying a part of the maintenance expense of the office, which should be paid by the county. This will be included in the settlement.

The chief claim of the county against the city is for the feeding of prisoners. The city has a counter claim along this line, but the county's claim is materially larger. Many minor items are claimed by both sides.

Members of the finance committee say that they have no idea whether the city will owe the county or vice versa when the final settlement is made. The auditing department of the city inclines to the opinion that the city will have something coming.

Tuesday's meeting was attended by Messrs. Jeff W. Hefford, C. J. Richard, John C. Agnew and chairman of the county board and Councilmen Sheldon, Johnson and Berk of the city.

Tablet Marks Site of the First State House of Nebraska

Colonial Dames Unveil Bronze Tablet on Site at Ninth and Farnham Streets. The Colonial Dames, resident in Nebraska, this week unveiled a bronze tablet marking the site of the first state house in Nebraska, which was built at Ninth and Farnham streets in 1854.

Mrs. Arthur Crittenden Smith, president of the society, presided at the unveiling of the tablet, which was designed by Thomas Kimball, who is a member of one of Omaha's oldest families. On the tablet is engraved:

"Site of the First State House in Nebraska," also the date of Nebraska's admission to statehood, 1876. The design includes the seal of the Society of Colonial Dames.

Mrs. Alexander C. Troup in a short address paid tribute to the pioneers, to whose courage, good sense and tact is due the present city of Omaha.

The Colonial Dames plan to mark the different historic spots of the state with appropriate tablets. This first one is especially dedicated to the memory of the pioneers of Nebraska and Omaha who at one time gathered in the state house, whose site it marks.

After the ceremonies Mrs. Smith entertained the ladies at her home, 1303 Park avenue.

Low Tourist Rates Strong Advertising

Railroads Say that One in Ten of the Western Visitors Buys Farming Tract.

The announcement just made by all the western railroads that summer tourists rates to all parts of the state will be in the west would be the same as last year has more behind it than the average person imagines.

The railroad passenger officials will tell one in confidence that the amount of real money actually made in summer from the tourist travel is very small. And yet in the last five years the summer tourist travel has grown to an immense volume and it is expected to be larger than ever this year.

The object of the railroads hauling so many people with so very little profit is a form of advertising the west, and is a sure method of getting settlers on the western lands traversed by these roads.

"See America First," is their slogan and they join in persuading the eastern and middle westerner in the thickly settled districts to take a trip to the west as a vacation and not to go to Europe. And the result is that out of every ten families that take a trip west there is a sure average of one farm sold.

The advertisement of having hundreds of thousands of people viewing the wonderful fields of grain, the orchards and all of the crop raising done by the west in the tourist season is more valuable than the profits that could be made out of an advance of rates, the railroad men declare.

PLAN SUNDAY SCHOOL RALLY

County Superintendents Propose to Hold Meeting Here in June and September. A Sunday school workers' rally to be held here the last week in September was planned at a meeting of the Douglas County Superintendents' union at the Young Men's Christian association building.

The officers and teachers of the 122 schools in the county are expected to be in attendance. An anniversary meeting in June of all the Sunday schools in the county was also considered and a committee appointed to look into the matter. In connection with the meeting it is planned to hold a song festival; the music to be furnished by the singers of the various schools.

BRANDEIS STORES
