Weather in the tirain Belt.

OMAHA, March 21, 1911.

Temperatures have continued to rise in the central valleys and western portion since the preceding report, and a marked increase is shown in the unper Mississippi and Missouri valleys, and west to the mountains. An axes of low pressure has replaced the high over the central valleys, and generally cloudy and unsettled weather prevails west of the Mississippi river to the mountains. The colder weather, moving in over the extreme northwest, is succempanied by an area of high pressure that will follow the low, now overlying the valleys, and will bring colder and comfined unsettled weather, to this vicinity tonight Weather In the Grain Belt.

Market Hesitating and at Times De-

MISSOURI PACIFIC IS WATCHED

Reorganization of Board of Directors Proceeds According to Program -Oil Interests Gel Command-

NEW YORK, March 21.—The stock market was hesitating and at times depressed today. This condition was accentuated by more active short selling on the part of speculators. The recent advance was interrupted effectively, although losses were small.

oeb interests were given a commanding osition in the directorate and executive position in the directorate and executive committee of the road, and were also invited by Mr. Gould to positions of power and influence in the Gould properties. This indicates that such financing as may be needed for purposes of rehabilitation and general improvement will not be lacking. Missouri Pacific became weak on announcement of the outcome of today's meeting and fell nearly 2 points to almost a point below yesterday's close.

Although so far as is known no final plans have been made for the insuance by the government of the 3 per cent Panama bonds, 19,600 of these bonds, "when issued," sold on the curb today at 192, which is a fraction above the ruling price of the outstanding government 3s.

Railroad bonds were irregular. Total sales, par value, 2,365,000.

United States bonds were unchanged on call.

All.
