NEBRASKA OMITS K. C. MEET Will Devote Energies to Sending Larger and Stronger Track Team

to the Omaha Indoor Session. LINCOLN, Neb., March M .- (Special.)in the Missouri Valley conference sick of

the rule prohibiting summer base ball. Letters have been received from memers of the Kansas athletic board showing that the Jayhawker school would like to reverse, itself on the proposition of prohibiting summer base ball. Although a few months ago Nebraska's southern neighbor could see no harmful effects in the ruling, strict compliance with it has forced the Jaybawkers to admit that they got something they did not bargain for. Only one move is left for Kansas to make and that is to follow in the footsteps of the Cornbuskers and withdraw from inter-collegiate base ball until the rule is removed from the regulations of the confer-

Not Going to Kansan City. Nebraska will not send a team to the Cansas City meet, it being the opinion of he members of the athletic board that Nebraska was receiving rather shabby treatment Instead, Coach Field will deote his attention to training the team for the indoor meet at Omaha on the following Saturday night. Inasmuch as the Cornhuskers will not send a team to Kansas City, it is very probable that the Nebraska delegation will be increased and entries be made in all of the events at

Heretofore Coach Field had planned to send but six men, but this wil probably he doubled now.

The athletic board has granted the mem bers of the basket ball team letters. The men granted letters are, Captain Hutchinson, Owen, O. Frank, Hiltner, Carrier. Gibson and Watters. The election of a captain for the basket ball team will take place in a few days. Hiltner and Frank have been mentioned in connection with the captaincy. Hiltner is to play his third year of basket ball next season. This was Frank's first year on the team, but he played a steady, consistent game at guard.

PRIZE FIGHTERS' HEARING OVER

Judge Will Announce Whether Four Will Be Held. LOS ANGELES, Cal., March 23.-The preliminary hearing of the four men arrested as a result of the Wolgast-Memsic bout last Friday was completed before Justice Reeve today. Brief oral arguments were for trial on the charge of violating the training with the rest of the squad.

Thomas McCarey, promoter, and Charles Eyton, referee, were the most important witnesses. Their testimony supported that of the sporting writers submitted Monday that the affair was a boxing contest and not a prize fight.

### Ugliest Dogs Are the Best and Are Jealous as Women

The man that no slog would think of biting stuck his slbow in the face of the building that is so homely his mother won't associate with him. This dog at the Omaha Bench show has a face such as might result from superimposing two catfish heads on a set of teeth. With the soft pedal on his masteld muscles, the buildog pretended to bite a man's elbow, and was enjoying himself properly. Then the man transferred his attentions to a brindle built on the adjoining bench, and Old Ugliness tried to break his chain. He uttered snaris exactly suplicating the filing of e crooked tooth rusty saw, and plainly showed his heart was just ready to break.

"Why, the brute is basious," said a wondering bystander.
Jealous: Of course he's jeafous, retorted the tenser. "Even a woman can't scare up as mock realousy as a buildog. Now, watch him fawn." And as he brought his hand sente-the growling front the buildog flattened himself out and whined and simbed actually sighed—with the sensitive joy that a child

with exhibit over a wonderful present. "Well, if that wouldn't cork you?" exclaimed the astonished onlooker Pahaw, dogs are just like human," said the knowing one, "except that in case of dogs the human are the best-in their class. You'll notice the only dogs here marked dasservouses the placing of a wire netting in front are not buildings but hambulpecanimate of other breeds. It's funny, too, but women seem to know intuitively just what does they can fondle. There probably lan't a building in the show that hean't been mauled and petted by the girls and women; but there are some dogs they won't approach at all."

And observation proved the dog expert was right.
