Are Just as Rare as Great Men

To be great is to be out-of-the-ordinary. To be out-of-the-ordinary is to be different. To be different is to be successful. This store's success is known to you and thousands of others. You and they say it is, in truth, a great store. It's greatness is the result of its determination to be different-to eschew ordinary methods. Had we opened a store similar to other stores-adopted a store service similar to theirs-handled clothing no better than theirs-it would have been no different from ordinary stores and never would have deserved or received the appellation of "Great." The difference between this and ordinary stores—the difference between our clothing and ordinary clothing, is more marked this season than ever before. We want you to be a customer-to continue as such if you are already one and to induce some friend to become one. The treatment you both receive—the values you will get-will well repay you.
