PLAN CLEANING DISTRICTS

Street Commissioner Will Make Suggestion to City Council.

TO HAVE THREE TOOL HOUSES

Work of the Department to Be Greatly Facilitated by Saving Time of the Men in Getting to the Jobs.

If the city council will establish street cleaning districts, it will result in a great saving to the city financially and also provide greater efficiency in the work. Such is the opinion of Thomas Flynn, street commissioner. Mr. Flynn will ask the council to approve a scheme which he has worked out and to appropriate sufficient funds to put the plan into practice. Flynn's plan is to establish five districts throughout the city and to erect three stations from which the street cleaning gangs can operate. His scheme provides for the erection of three tool houses in different parts of the city; he would place one in the neighborhood of Twenty-second and Ames avenue, another in the West Farnam district and the third in the downtown location.

DEMAND MORE SCHOOL ROOM

Residents of the North Side Ask the School Board to Care for Children.

A delegation from the Newport-Belvidere Improvement association of North Omaha appeared before the committee on buildings and grounds of the Board of Education Friday afternoon. Through A. S. Joseph, chairman of the delegation, the association requested that more room be provided for the Central Park annex, either by adding to the building or by renting another building. The members of the association called the committee's attention to the fact that ninety-two children are forced to go to schools outside of the district. The Board of Education promised to investigate the protest and to make provision for another annex, if possible.

WATER CASES SET FOR TRIAL

Hydrant Rental Claims Since 1908 Up Next Month.

OTHER CASES ARE TO COME UP

Most of the Federal Cases Awaiting Trial in the District Court Are of Minor Importance—One Pure Food Case.

Four more hydrant rental cases, involving claims aggregating \$190,000, will be tried at the April term of the federal court, unless otherwise settled. Trial notices have been filed with Circuit Clerk Thummel.

The untired cases are identical with those recently settled when the city of Omaha and the Water board jointly paid rentals aggregating \$22,000, only after Judge Thomas C. Munger had issued a peremptory writ of mandamus commanding the city to either pay immediately or levy a tax to do so.

The cases now pending cover the semi-annual rentals due since the latter half of 1908. \$47,000 being claimed for each half year.

In the circuit court there are thirty-four law and three equity cases noted for trial during the April term, which begins on the third of the month. Most of the law cases are for damages demanded of railroads for personal injuries. Several of these cases have been transferred from state courts.

In the district court there will be little or nothing to do during the term unless the grand jury returns indictments. It is known that a few of minor importance will be returned, and it is possible that some interesting cases will be developed. In the district court only three civil cases are noted for trial, two being for violation of

BENSON CANDIDATES ADOPT STRONG PLATFORM

Republicans Pledge Themselves to Work for the Interest of All Benson Citizens.

At a joint meeting of the Benson republican central committee and the candidates chosen to make the fight this spring the following platform was adopted:

- 1. The extension of street and sanitary improvement, gas, street car service and other public improvements necessary for the advancement and welfare of Benson. 2. A liberal construction of the sale of liquor in accordance with the Stinson law and present city ordinances, and pledge the maintenance of the laws of the state of Nebraska and ordinances of the city of Benson. 3. The curtailing of extravagance and profligate uses of public funds; a clean, fair, honest, conservative and business-like administration of all municipal affairs and equal distribution of public improvements. 4. The continued development of our present school system and a liberal support of our volunteer fire department.

After the adoption of the platform the central committee organized and elected the following officers: W. L. Langford, chairman, William Wardlaw, secretary; E. C. Fuller, treasurer; W. E. Yarton, Jonas A. Fry, J. B. Huber. The newly elected committee then adopted this resolution:

Resolved, That it is the sense of this committee and the public that the republican ticket to conduct the present campaign in a strictly business-like manner, on the merits of its platform and candidates.

There will be another meeting of the central committee and candidates Wednesday evening.

Roller Skating Sunday Night. There will be roller skating at the Auditorium Sunday night, March 26. The closing night of the season.

Announcement of Prize Winners in Brandeis Baby Show will be Made About the Middle of This Week

About the Middle of This Week We Will Announce Winners at Brandeis Baby Show

Brandeis Spring Millinery

After all, there is only one place, where Omaha women can select millinery that is strictly modish. Brandeis millinery is designed according to Parisian style dictates that are not known by the ordinary milliners, until Brandeis hats have been worn in the streets.

No discriminating woman ever feels that she is faultlessly dressed unless her costume includes a Brandeis hat. Our corps of expert milliners give you style advice that is impossible to obtain elsewhere, and you are always certain that your hat is individually becoming.

We have brought forward for Monday an exquisite group of the newest creations in Paris and New York late spring models, including every correct idea, at \$25

THE SMART NEW NACRE STRAW TURBANS The latest favorites of fashion at very practical prices. These hats are made of the nacre shades straw braid and they are shown in those chic, new turbans, as well as those clever, new roll rim sailors. Come early Monday while the selections are most complete. No waiting. Plenty of clerks. Be sure you bring size of your rooms.

CITY BONDS ARE DELIVERED

Officials May Now Proceed to Let Contracts for Work.

CAMPEN HAS ANOTHER PLAN

Would Have Contracts for Curbing and Paving Let to the Same Parties to Facilitate the Work.

The signing of contracts for the placing of curbing and the paving of intersections of the streets was made possible Saturday morning when the city comptroller received a wire from New York to the effect that the sewer and intersections bonds had been delivered to Katabrook & Co. of Boston.

"A trifle more than \$200,000 has been placed to the credit of the city by Kountze Bros., who acted as fiscal agents for the city in the transaction.

The city has been prohibited from signing contracts for curbing and intersections through a lack of funds for the purpose. Under the charter contracts cannot be signed until the funds are in the city treasury. A delay has resulted, which otherwise would have permitted the city to go on with the work.

"Omaha is the only city in the country where separate contracts are let for paving and curbing," said Assistant City Engineer Campen Saturday morning. "The system handicaps the city to a great extent. The pavers cannot get to work until the curbing is set and the contractors who landed the curbing job will not get busy until the papers are signed and approved by the council. So we have been losing time for the last two weeks, when the weather was ideal for work.

"The city should change its system and let contracts for paving, curbing and intersections to the same parties. That

Idaho Takes Space in Omaha Land Show

Boise Commercial Club Prepares for Big Display of Idaho Products at Coliseum.

The Boise Commercial club Saturday reserved two exhibit sections at the Second Omaha Land show, to be held here at the Coliseum October 16 to 28. The space thus held for Idaho totals nearly 700 square feet.

"The Boise boosters are convinced of the efficiency of the Omaha Land show in gaining settlers for the west and northwest. Mrs. Carrie McDougall represented the Idaho Commercial clubs at the first land show.

In a message ordering space, the Boise club says: "We are heartily in sympathy with the movement started by you and believe your show of last January will produce greater results than any which we have ever before exhibited.

"We are planning to be at the next show fully prepared to take advantage of the magnificent opportunity offered and to use our influence to persuade every commercial club in Idaho and the northwest to be represented at Omaha this fall.

Eleven Deaths at Amoy. AMOY, China, March 25.—Eleven deaths from bubonic plague and six deaths from smallpox were reported within the city during the last two weeks.

A Burning Shame is not to have Bucklen's Arnica Salve to cure burns, sores, blizz, cuts, wounds and ulcers. Be. For sale by Boston Drug Co.

More Study at Home is to Be Required of High School Pupils

Lunch Room May Also Be Abolished by the Establishment of the Double Shift.

When the double shift program is put into operation in the Omaha High school the lunch room may be eliminated. Principal E. U. Graff of the high school has worked out a scheme of rotations which solves the double shift proposition.

He has divided the recitations into two divisions of five periods each, a morning and afternoon session. The morning contingent will be composed of boys who drill and those who work in the afternoon.

The afternoon shift is composed mostly of girls. The plan to be instituted by Mr. Graff provides that students who attend the morning session will not be required to come back in the afternoon and those who report in the afternoon will not be asked to attend classes in the morning.

So the necessity of the lunch room is practically eliminated. The double shift plan will be put in operation on April 16, immediately following the Easter vacation.

"The only drawback to the new plan is that it eliminates the study period," said Mr. Graff. "But to make the scheme possible we had to cut the sessions to five periods each. Heretofore the daily session has been composed of six periods, one of which was devoted to study purposes, but that has been cut out. "Parents will have to see that their children do more work at home and we will have to have their co-operation. "The morning session will extend from 8:30 to 12:30 and the afternoon session from 1:30 to 4."
