ST. LOUIS, March 29.—CATTLE-Re-ceipts. 2,300 head, including 100 head Tex-ans; market steady; native shipping and export steers, \$5.0026.75; dressed beef and butcher steers, \$5.50276.50; steers under 1,000

days. Recently it was organized, and a fund of \$4,900 raised to carry on the work the first year. H. C. Cooley, a well known Nebraska newspaper man, has accepted the position as secretary, and plans for the furthering of the interests of the city, are under way. A second railroad is in prospect, which will open up a large trading center here. Industries of a milling, butter, broom and canning nature are being either built or planned for, and since the city is located on the north of the Black Hills, and the south edge of the agricultural district, it will be a natural meeting point of producer and consumer. On account of its facilities several wholesale

concerns are looking the field over.
