DUN'S REVIEW OF TRADE

Slower Movement Revealed in Exports from Different Sections.

OPTIMISM ABOARD AN INFLUENT

Tariff Anticipation Accounting for the Wool Schedule Leads to Cautionous Operations on Part of All Merchants.

NEW YORK, April 7.—Dun's Review of Trade tomorrow will say: A slower movement of trade is revealed in reports from different sections. Future market conditions are sounder than in a long time, but immediate business about the country is not so brisk as it was a few months ago.

While there is evidence that consumers of wool and other goods are showing less disposition to anticipate requirements, the general situation presents encouraging
