Violin Made from Wood of Lincoln Flag Pole

Mayor Crank of Madrid Fashions Instrument from Piece of Historio Timber,

BOONE, Ja., April 8.-(Special.)-A violin has just been completed by Mayor Crank interest. The wood contained in the instrument was taken from the stump end of the "Lincoln flagpole," which was dug up from the ground by the mayor several menths ago. A portion of the stump was made into small blocks and handed to a number of the people of the communit who were interested in relics to be retained as souvenirs, but a portion of the wood remained and Mr. Crank conceived the idea handsome one. The history of the pole which the violin is a part is familiar to older settlers. The pole was erected during the civil war and the stump has remained in the ground until removed by Mayor Crank. It was located on the south side of the cut near the Water street bridge.

is an absolutely pure distillation of malted grain, and as none but sound, clean grain can be malted, it has for its base the most carefully selected grains of the field. It is a predigested liquid food in the form of a medicinal whiskey; its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

It is a gentle, invigorating stimulant and tonic that influences for good every important organ of the body. It is a remedy that should be in the family medicine chest. It is especially valuable for use at this time to enrich the blood and rebuild the system that has become run down and weakened
