He Fought in Fort Sumter with Anderson

GREELEY, Neb., April 15.—(Special.)—Greely county is honored by having an one of its residents, an old soldier who was serving with the colors at Fort Sumter when fired upon by the rebels April 12, 1861. Jeremiah J. Murphy was born on the sea, near the coast of County Mayo, Ireland, April 3, 1825. He came to the United States in February, 1850. He enlisted in the regular army November 20, 1850, and served two years in Florida before being sent to Fort Sumter, and was there about four months before the fort was fired upon.

JEREMIAH J. MURPHY.

Mr. Murphy's recollection is that there were but two commissioned officers in the fort—Major Anderson and Captain Doubleday—and about seventy-five enlisted men. He assisted in the loading of the first gun that was fired on "The Star of the West," about the 9th of January, 1861, and is proud of this fact.

Two days after this a flag of truce approached the fort and Mr. Murphy says that Major Anderson blindfolded the bearer thereof before he admitted them. A demand was made by the rebels for the surrender of the fort and was promptly refused by Major Anderson. The little garrison remained therein until April 12, 1861, when the fort was fired upon and two days after Major Anderson surrendered, and as the Stars and Stripes were hauled down a soldier named Ryan, Mr. Murphy says, fired a parting salute to the flag.

When released Mr. Murphy went to New York and enlisted in the Thirty-seventh New York volunteer infantry and served until he received a wound while on picket duty in May, 1862. A ball from a sharpshooter's rifle cut off the index finger of his right hand and paralyzed the back. After a couple of months in the Mansion House hospital, Alexandria, Va., he was discharged from the service.

Mr. Murphy came to Greely county in April, 1880, as one of the pioneer members of the Grand Army of the Republic, of Greeley and is a hale and hearty old Irish gentleman.

He has an aged wife and ten children. He was one of the charter members of Thomas Francis Meagher post, No. 27.

FROM THE BOTTOM TO THE TOP

Ohio Youngster Started with \$5 and Won a Fortune, Wife and Fast Horses.

Frank Work, who started life as the son of a poor widow in an Ohio country town and who subsequently became by sheer force of personality civil engineer, dry goods merchant, Vanderbilt protégé, one of the richest members of the New York Stock exchange and owner of famous trotting horses, died at his home, 13 East Twenty-sixth street, New York, from pneumonia, at the age of 92.

When he was 15 years old he went to Columbus, and three years later came to New York City and took work in the dry goods store of W. J. Dally. The firm, after some years became that of Dally & Work.

Almost as soon as the dry goods firm became prosperous, although he was only his junior partner, he began spending his earnings from the business in club life about town, and especially in the purchase of fast horses, which he proceeded to drive along the fine roads and trotting tracks which existed in those days—the fifties—in the upper part of the town. He raced with other amateur fast horse drivers whom he met on the roads. One of these was Commodore Vanderbilt. After racing each other young Work, Vanderbilt and other sportsmen of the time, would meet in Burnham's roadhouse at Bloomingdale road and Seventy-sixth street for refreshment.

During the panic of 1873 the dry goods firm of Dally & Work could not stand the strain and was near bankruptcy. Mr. Work went to Commodore Vanderbilt and asked for aid. Vanderbilt not only loaned Mr. Work enough money to save the dry goods firm, but, soon after, persuaded him to sell out and devote his time to speculating in stocks, following Vanderbilt's suggestions. This is the way Mr. Work made his fortune—estimated at \$15,000,000. Vanderbilt furnished the money Work needed for his margins, and Work soon made enough to start a bank.

With the wealth amassed in this way he could afford to give his love for fast horses free rein. The 2,384 trotters, Edward and Dick Swiveler, which he bought in 1874, were among his famous pairs. Others of his well known horses were Sensation, Billy Freer, Pilot Boy, Marie Moore and Barnetta. It is typical of the sincerity of his horsemanship that he always did his own driving and his own buying. When his favorite horse, Dick Swiveler, died, Mr. Work, although 80 years old himself, spent the whole night in the dying animal's stable. The elaborateness of his \$100,000 West Fifty-sixth street stable, opposite Carnegie hall, was the talk of the horse racing fraternity for years. It is built of Wyoming rock, the doors being of oak and bronze. The windows are of beveled plate glass and bronze. The inside is walled with quartered oak, heated by steam and lighted by gas in silver lanterns. The building also contained a dining room, sleeping room and bathroom for the owner's convenience.

Although Mr. Work was one of the poorest boys in his home town, he later married the daughter of one of its wealthiest men. This was Miss Ellen Wood, the daughter of John Wood, of Chillicothe. After her father's death she and her mother came to this city to live. Mr. Work had already attained great wealth. His marriage took place in 1867.—New York Times.

ARBOR DAY TO BE OBSERVED

General Interest Aroused to Increase Civic Beauty of the Town.

ONE THOUSAND TREES PLANTED

One Firm Strives to Add to Beauty of Happy Hollow, Dundee and Fairacres by Observing Arbor Day.

George & Co., has inaugurated an Arbor Day movement designed to create a greater interest in the coming holiday and at the same time add to the civic beauty of the town.

Out in Dundee, Fairacres and Happy Hollow, residence districts for which the company is agent, 1,000 elm, hackberry, maple and locust trees are being planted. The most important work along this line is being done on Underwood avenue, which starts at the city limits and connects Dundee with Fairacres. Here the trees are being planted in park fashion, on both sides of the sidewalks. Trees are also being planted in Dundee, Happy Hollow and Fairacres.

"There does not seem to be the proper amount of spirit and interest displayed in Arbor Day," says C. C. George, "and I rather hope that our initiative will act as a stimulant in other parts of the city, especially among the children. We do not plant enough trees, and we should take better care of them after they are planted. All over the city we should plant more trees every year, and we should not allow them to grow up half-skater without taking care of them. The tree is just like any other plant; it needs cultivation and care to bring out its fullness in growth and healthiness. All of our trees in Happy Hollow, Dundee and Fairacres will be cared for and nursed until they are well advanced."
