The old idea of using sage for darkening the hair is again coming in vogue. Our grandmothers used to have dark, glossy hair at the age of seventy-five, while our mothers have white hair before they are fifty. Our grandmothers used to make a "sage tea" and apply it to their hair. The tea made their hair soft and glersy and gradually restored the natural color.

GRAY HAIRS BANISHED.

One objection to using such a preparation was the trouble of making it. especially as it had to be made every two or three days on account of it souring quickly. This objection has been overcome and by asking almost any first-class druggist for Wyeth's Sage and Sulphur Hair Remedy the public can get a superior preparation of sage, with the admixture of sulphur, another valuable remedy for hair and scalp troubles. Daily use of this preparation will not only quickly restore the color of the hair but will also stop the hair from falling out and make it grow.

This preparation is offered to the public at fifty cents a bottle and is recommended and sold by
