Federals Bury Dead on the Field and Tell Red Cross Agents that They Can Care for Their Own Wounded.

MEXICO CITY, April 15.- A proposition for an armistice, pending negotiations for a settlement of Mexico's internal troubles. was received by the department of foreign relations today from Washington, presum ably from Dr. Vasquez Gomez A reply was returned in which it was indicated the government looked with favor upon the suggestion.

AGUA PRIEDA, Sonora, Mexico, April 18.-The battle of Agna Priota, which raged almost without informission for nearly twenty-four hours, was won by the Mexican federal forces who occupied the town at daylight today.

The rebels, their supply of anonucition and provisions exhausted, evacuated Agua Prista an hour before the government troops arrived.

Part of the insurrecto garrison was dissuppled in the abandonment of the town. Throwing away their gans and leaving their norses, they fied in disorder in different directions. The principal portion of the rebel command, however, retired in good order toward the mountains south of the city. Two insurrects commanders, Balazaric Garcia and Colonel Medina, deserted their men and fied across the border. where they surrendered to the American troops, Lieutenant Colonel Reynaldo Diaz led the 1.200 triumphant federal troops into Agua Prieta

The actual casualties of the battle can only be estimated, but the federal loss was given out as five killed and twentyone wounded, and the rebels as eight killed and four wounded. It is certain that the complete casualties far exceed this

total. The ports of Douglas and Agua Prieta, which had been closed, were reopened to-
