# Cleaning House the Electric Way

is far CHEAPER than most people know. It costs only a trifle more to operate the motor of a VACUUM CLEANER than it does to operate a 16-candle power carbon lamp. The cleaning is done so quickly that the cost of current is hardly worth considering. Manufacturers now make many styles and kinds of sanitary cleaners. PRICES of the cleaners are being reduced. Our Contract Department is well informed on the subject and will give you the information you need to make a proper and economical selection.
