Deputies' Committee Hits at Diaz' Family by Change in Measure

Bulnes Law Amended to Forbid Election to Presidency of Relative of Incumbent.

MEXICO CITY, April 18.-Approving the neasure proposed by Deputy Francisco Bulnes, providing for re-election of the president, vice president and governors of states, the committee of the chamber of deputies this afternoon made its report. but with some significant amendments. The committee has added to the measure clauses which, if enacted, will forbid the election to the presidency or vice presidency any relative of the president or vice president. It also is provided that a vice president cannot be elected president

The committee members give as the reason for their recommendation the assump tion that at some time a president or vice president might use undue influence to seture one of these high positions for a relative. At this particular time there is special significance attached to the report Ramon Corral, who recently secured an eight-months' leave of absence because of ill health, is yet popular with many of his ountrymen. It is within the bounds of ossibility that the "Corralists." as his supporters are called, might augment their numbers to that extent where some time he might be elected president.

General Felix Diaz, now chief of police. is popular and at the time of the last presidential campaign there was made a determined effort by his friends to induce him to run for the vice presidency.

Minister de la Barra said prospects for peace appeared to him to be brighter than ever. It is said that within the last twenexchanged with Dr. Vasquez in Washingtor, by cable.

HAVE GOOD MOTORS mers motor there are many thorough tests of efficiency. As each motor comes from the Assembling Department it is tested for accuracy under electric power. Euch part must be perfectly assembled, the whole running smoothly.

After this comes the most important test of all. At varying speeds, from 800 to 1200 revolutions, each motor is run 24 hours under its own power to determine to the last degree of certainty that every part works smoothly and silently. After this the motor is hiched to a dynamometer which makes the engine carry a load equivalent to a touring car with its full number of passengers. Under this strain the motor is run an equivalent

And finally each motor which passes the test is assembled in a car and sent out for a 200 mile road test in

actual service. There is a Chalmers motor which will work right for you and give you the "best run for your money" you have ever had from any purchase. Let us fix your delivery date now.
