WEATHER MAKES CORN PRICES Movement Lighter Than Expected-Reaction Probably to Follow if Skies Clear-Sharp Advances Abroad.

OMAHA, April 20, 1811.

Wheat cables were a big surprise this morning, coming 19214d higher at the opening. Domestic markets all opened higher on these advices. General crop and cash wheat conditions are unchanged, weather reports being favorable for growing in the winter wheat belt and seeding conditions excellent in the northwest.

Weather conditions have most to do with making corn prices for a time at least. Wet weather has made the movement much lighter than has been expected, and moving out of stocks, due to the improved shipping sales, has created a buillant feeling, as the commercial position of corn is a strong one. Should bright, warm weather follow, some reaction is natural. The sharp advance in foreign markets led to heavy buying by all classes of trade and advanced values like from yesterday's close. Cash wheat was light higher.

Corn advanced with wheat and light offerings sustained the advance. Cash corn is steadily climbing higher, being 10 higher.

Primary wheat receipts were 255,000 bushels against receipts last year of 239,000 bushels, and the primary wheat receipts were 255,000 bushels, against receipts last year of 239,000 bushels, against receipts last year of 239,000 bushels, and the primary wheat receipts were 255,000 bushels, against receipts last year of 239,000 bushels, and the primary wheat receipts were 255,000 bushels, against receipts last year of 239,000 bushels, and the primary wheat receipts were 255,000 bushels, against receipts last year of 239,000 bushels, and the primary wheat receipts were 255,000 bushels, against receipts last year of 239,000 bushels, and the primary wheat receipts were 255,000 bushels, against receipts last year of 239,000 bushels, and the primary wheat receipts were 255,000 bushels, and the primary wheat receipts were 255,000 bushels, and the primary wheat receipts were 255,000 bushels, and the primary wheat receip OMAHA, April 20, 1911.

SHICAGO, April 20.—Unpromising crop conditions in Europe sent the wheat market soaring today. There was a strong tone at the close, with a net advance of l'agiliac to lac a bushel. Latest figures showed a gain of lac to see for corn, and lagiliac to see the condition of the condition of the condition at the condition of the condition at the condition of the condition at the condition of the condition than twelve months ago. From Hungary too, came disquieting statements concerning the outlook for the growing grain that country and telling of a squeeze in prices at Budapest. Excitement at Liverpool, due part to scanty arrivals reported by senos Ayres had a parallel in the pit re. The whirl upward began at the out-t of business and lasted throughout the High and low levels for May proved to the control the cont day. High and low levels for May proved to be 96%c and 89%c, with the closing 1%0 at 8 a. m. Thursday, April 20, 1%c up at 30c even.

Big shorts in corn took to the buying side in earnest, one prominent house covering a line of 1,000 bushels. May ranged from 50%c to 50%650%c, closing firm %c Ashland, Neb... 69 29 .00 from 50%c to 50%650%c, closing firm %c Columbus. Neb... 66 26 .00

net higher at the top figures reached. Cash grades were strong. No. 2 yellow finished at 51061½c.

Sympathy with other grain lifted the oats market. The May option varied between 312,031½c and 22½c with last sales 12,032½c. a net gain of ½0½c.

Provisions were irregular. When the pit was cleared pork had risen 7½00c; lard 2½,05c, and ribs were the same as last night to 507½c up.

NEW YORK, April 20.—Prices moved listicasly within a narrow range on the Stock exchange today and the volume of business fell far below that of the two preceding days. During the first hour of the session speculation was broad and active, with an upward swing following moderate declines at the opening. Trading fell off thereafter and the market was lifeless, final figures of the day showing only a few changes of significance. The affairs of the Gould railroads continued to hold the chief place of interest. Missouri Pacific was feverish all day, moving back and forward within a range of nearly 2 points. The uncertainty of the situation was a drag on the stock which after a siump late in the day, railled and closed unchanged.

The Harriman stocks also were affected by the same influences. Union Pacific, in particular, was weak, closing with a loss of a point.

United States Steel was under pressure most of the day. Reports of probable price cutting of steel and iron products affected the shares unfavorably and there was considerable short selling.

Even the increasing activity of congress and the administrative authorities at Washington in connection with the Mexican

some this morning and general trade was saggy. At this point alimest 15.930 head were yarded, a supply that just about equals yesterday's heavy receipts. Cheaper cost was demanded from the start and guitte a little business was transacted during the first two hours at prices fully a dime lower. Heavies mei with the least responsive demand and suffered more than handy butchers and lights.

Orders from packers were large and, as no effort was made on the pair of buyers to conceal the breadth of demand, the trade improved slightly toward the close. Purchases made late in the session averaged no worse than a fiat dime off. Complete clearance of bulk was possible by 11 o clock.

Shippers and speculators furnished an outlet for less than 10 per cent of the rus, outlet for less than 10 per cent of the rus,

orders from these quarters calling for handy butchers and bacon weights. Good heavy offerings ranged ground \$5.75(1).50, and butcher grades sold at or near 5.85. Best bacon weights dropped to \$6.00, as compared with yesterday's top prices of Representative sales

SHEEF-A good market for handy and light stock in contrast to a slow, backward demand for common and weighty animals featured bulk of business in the sheep barn this morning. Anything lacking in weight, including strings on the Mexican order, commanded prises that were just about steady Other offerings ruled slow, however, and tendency to values was possibly a little lower. Supplies were well up to the average, both in quantity and quality, but most of the regular buyers showed a strong preference for high-dressing stuff. Early sales involved the better grades of stock almost exclusively and later rounds found an assortment that did not appear very attractive. Closing trade, as a result, presented an appearance that was naturally draggy.

tractive. Closing trade, as a result, presented an appearance that was naturally draggy.

The big end of the run consisted of lambs, as on most days lately and receiptate were fairly well sprinkled with Mexicans Strings of this description, still in the wool, reached \$6.1506.20. Westerns generally carried weight, but something choice and handy in this line would probably sell as high as \$6.00. Shorn lambs are quotable at 75c discounts under wooled offerings of similar quality.

Good sheep showed little change, but volume of trade was necessarily small because of limited supply. Extra good wethers brought as much as \$4.65, with prime ewes at or near \$4.50. Yearlings, either heavy or light, were too scarce to afford anything like a test of quotations.

Quotations on sheep and lambs: Good to choice lambs, \$5.9006.20; fair to good lambs, \$6.4006.90; shorn lambs, \$4.5006.10; handy weight yearlings, \$4.7505.10; heavy yearlings, \$4.0064.75; good to choice ewes, \$4.1506.50; fair to good sewes, \$3.9004.15; sheep, common and cuils, \$3.7503.90.
