

PIONEER FARMER IS DEAD

Patrick McArdle of McArdle Precinct Victim of Pneumonia.

CAME TO NEBRASKA IN 1855
Had Lived in Douglas County Ever Since—Served Two Terms in the Nebraska State Legislature.

Patrick McArdle, a prominent farmer and old pioneer living in McArdle precinct, just west of Dunbar, died at a local hospital at 2 o'clock Thursday morning from an attack of pneumonia. Mr. McArdle was 78 years of age and one of the oldest residents of the county, having arrived here in May of 1855 with his father, three brothers and a sister.

At that time he settled on the McArdle farm, from which McArdle precinct has since taken its name, and had remained there up to the time of his death. Mr. McArdle served two terms in the legislature, reflecting credit upon the sturdy stock from which he came. He is known to most, however, as the honest, big-hearted pioneer and farmer.

Mr. McArdle is survived by a family of seven, four sons and a daughter. They are: J. C. and Patrick, Jr., the only two at home; Andrew of Colorado; Frank of Seattle, Wash.; Mrs. Mary Decker, and the Misses Nellie and Elizabeth, all of Seattle.

The funeral will be held from his residence, McArdle precinct, at 2 p. m. Saturday. Interment will be at the Elkhorn cemetery.

One Conductor Resigned to Work.
Mr. Wilford Adams is his name, and he writes: "I was confined to my bed with chronic rheumatism and used two bottles of Foley's Kidney Remedy with good effect. The third bottle put me on my feet and I resumed work as a conductor on the Lexington, Ky., Street Railway. It will do all you claim in cases of rheumatism." It clears the blood of uric acid. GUEST BUYS DIME'S WORTH OF EXPERIENCE

Man Tries Out Taxi-Typewriter, but It Refuses to "Automatize."

"Understand you have a typewriter pay station here," said a man to the clerk at the Paxton hotel.

"Certainly," responded the clerk, "there it is over there in the corner. You put a nickel in the cash box and for that you can use the machine for fifteen minutes." The man made a few remarks about how perfectly wonderful it was that manual labor is being done away with, walked over to the taxi typewriter, laid a sheet of paper down beside it and dropped in a dime. Then he sat down beside it and waited. Several times he looked at the machine and shook his head doubtfully, finally he arose and remarked to the clerk with great disgust, "Your machine ain't any good. I'd rather have a stenographer. I gave it a dime and have waited ten minutes and it hasn't written a word."

Foley's Kidney Pills contain in concentrated form ingredients of established therapeutic value for the relief and cure of all kidney and bladder ailments. Foley's Kidney Pills are antiseptic, tonic and restorative. Refuse substitutes. For sale by all druggists.

Craig Says He Will Run the Rock Pile if He Has to Do It

Engineer Says There is a Disposition to Shoulder the Responsibility Upon His Department.

"A disposition to throw the responsibility of conducting the rock pile on the city engineer's department seems to exist," says City Engineer Craig. Mr. Craig also states that those who oppose the project are trying to make political capital out of the scheme and are trying to inject the labor question into it.

sary rock and hammers to provide employment for our guests, and they will get it.

"All this talk about competing with honest labor is both, and is made for political effect. The rock pile will not conflict in any manner with organized labor. In fact it will make room for laborers.

"The ordinance provides that all convicted to jail sentences shall be sent to the rock pile. I hope the police judge will comply with the requirements. Of course, there are a few cases where men convicted of petty offenses may not be physically able to do the work. Where such a circumstance is proven, it will be an easy thing to extend judicial clemency."

"If it is put up to the city engineer's department to supervise the rock pile, you can bet we will do it," declares Mr. Craig. "All that is necessary is for the police judge to send hobs and criminals there. We will do the rest. We have the accu-
