## ROURKES WIN THREE IN ROW

Take the Third and Last Game of the Series from Des Moines.

LEAVE TODAY FOR SIOUX CITY Schoonover, with His Trusty Willow, Breaks Up the Game Twice During Afternoon Before

Large Crowd.

Schoonover's terrific closs to the left field fence for three bases in the stath with the bags full proved Des Moines undoing yesterday aftrnoon and enabled Omaha to take the third and last game of the series by a 13 to 5 score.

Not only once did Schooney connect for three bases, but twice. In the seventh inning two men were on the bags when Omaha centerfields repeated his trick of the former inning, scoring two more men. It was all Schoonover's day. In five times to but he got away with four safe hits. Two three baggers andtwo singles.

Kneaves, King and Keeley, three of the Omaha regulars are out of the game on account of injuries and it begins to look like last year's complaint. Kneaves la suffering from a bum knee and King is out of the game on account of a lame ankle. Keeley has a split finger nail on

Ward played a good game at short and got away with two safe bits. Des Moines opened the game in such a manner that it looked as if they were stick. All he needs is a little experience going in to win. Curtis drew a page, was and he will make the older boys hustle. Schoonover slammed the ball for three bases, scoring the three men. Hs "Lowther also came home when Kane singled to "Cooper"

Five hits and errors gave Omaha six runs in the seventh inning. Graham doubled to center. Gonding went to first when De Camp failed to hold his fly and Graham scored, Ward hit safely to left and the two were sacrificed by Piton. Anderson drove out a double scoring Ward and Gonding. Pickering hit safely to right and came home with Anderson on Schoonover's thre bagger. Schooney scored on Kan's hit to right, which ending the scoring for the game. Score:

# Buy a complete motor car-don't buy parts

VOU often hear the expression: "Well, such and such a car has a great motor in it."

Just what does that mean, do you suppose? Does it mean that the motor would run a long time and show great results if it were put on a block in the experimental room? We can think of no other explanation.

Of course you can't have a good automobile without a good motor. But a motor alone won't make a good automobile, no matter how good the motor may be. Motors are designed for automobiles, not automobiles for motors. A good automobile is a unit made up of many different and important parts, each part made of the right materials and perfectly

built and tested of itself, then all assembled into their proper relations and thoroughly tested as a whole piece of machinery. A "great" motor simply can't be great in a car that has a poor transmission, or a weak axle, or a poorly designed clutch, or a light

frame, or weak wheels, or laxness in materials and construction. So-called "great motors" certainly have played hob with a lot

Some folks buy motors, some buy wheels, some tires, some bodies, some doors, some a certain color of paint.

Our advice is: Buy a motor car -- a whole car. It doesn't cost any more,

Chalmers cars have won a good reputation for all round service. That

reputation now stands for a good motor, hung into a staunch frame, rolling on strong wheels with adequate tires, joined to a perfect clutch bearing power through a good transmission to axles that will stand every strain. Chalmers cars have good springs, brakes, bodies, doors and colers. They

have beautiful lines. They are automobiles.

The service is guaranteed. A demonstration at your convenience.
