

GRAIN AND PRODUCE MARKET

Wheat Declines on Reports Indicating Heavy Crops.

EXPORT DEMAND IS FAILING

Foreign Prospects Are Favorable and Markets Abroad Appear Weak—

Corn Moves Up Slightly—

Offerings Light.

OMAHA, April 26, 1911. Developments in wheat were of a depressing nature, resulting in the spring wheat belt in progress under the most favorable conditions. The acreage seeded in the northwest will be larger than a year ago. Favorable rains prevailed over the winter wheat belt where it was most needed. Cash wheat demand is even more depressed than before the war, and no export call for any sort of wheat even at the decline in prices.

Foreign crop prospects are favorable and their markets are weak. The corn market is higher, but within moderate limits. Liverpool cables were stronger and cash demand had increased activity, while offerings were sufficiently light to give the market a strong tone.

Wheat prices were lower at the start on lower cables and bearish crop news. Cash wheat was dull and values were unchanged.

Light offerings owing to the wet weather.

Primary market receipts were 347,000 bushels and shipments were 334,000 bushels.

Against receipts of 347,000 bushels and shipments of 334,000 bushels.

Primary corn receipts were 24,000 bushels and shipments were 24,000 bushels.

NEW YORK STOCKS AND BONDS

Accumulation of Stocks Continues in Considerable Volume.

MODERATE ADVANCE IN PRICE

United States Steel Once More Is Center of Interest—Railroads Suffer from Its Early Depression.

NEW YORK, April 26.—Accumulation of stocks continued today in sufficient volume to cause another moderate advance in prices. Among the market leaders United States Steel continued to be the center of interest. The stock was sold heavily at the opening, but speedily rallied to its early depression.

Sales of bonds were in excess of any recent day and several railroad and municipal issues touched record prices. Sales of two issues of railroad bonds, amounting to nearly \$2,000,000, were reported.

Unfavorable market early in the period of activity at advancing prices was interrupted today, the stock declining nearly a point. It was announced that the United States Steel company recently taken over by the Amalgamated Copper interests, would no longer be guided by any set price in making sales, but would sell on the basis of prices necessary to meet the exigencies of the market.

The bond market was firm. Total sales for the day were \$1,200,000.

United States Steel was unchanged on call.

Number of sales and trading quotations on stocks were as follows:

Alcoa—100 shares, 100.00; 100 shares, 100.00.

Aluminum—100 shares, 100.00; 100 shares, 100.00.
