TEN PROTESTS FILED SO FAR

President Yechout of School Board Looks for City to Help Pay Election Expenses-Man Shoots Mother-in-Law.

The annual licensing session of the Board of Fire and Police Commissioners which is of so absorbing interest to many of the saloon keepers, opened yesterday and before it ends the fate of several of the license holders will have been settled. The board yesterday was occupied in tabulating the applications but ere long its occupation will be of a more serious character Up to the present some ten protests have been filed, the grounds alleging

after probibited hours. Protests may be received at any time until the license is granted and this being so the board may be kept sitting as a judiciary body after May 1.

sale to minors, sale on Sundays and sale

About the same number of applications have been advertised as last year. Certain matters of policy as to the control of saloons in the outlying districts have been discussed for sometime past, but whether this issue will be discussed by the board yet remains to be determined.

Board's Election Expenses. President Rudolph Yechout of the board of education said yesterday afternoon that a special meeting of the board would be held to settle the question of the expenses of the late election. "The cost," said Mr. Yechout, "is \$720 and it was, I think, because the amount was not stated the council would not help us out."

At the meeting of the council Monday night a resolution was received from the board asking that body to foot the bill until the end of the financial year when the school fund would be in a healthier condition. This, the council declined to do and President Yechout thinks that when the council learns the small sum it will be responsible for, it will come to the aid of the board and enable those who worked on election day to get their money.

Shoots Mother-in-Law. Intoxicated through imbibing whisky and pure alcohol and angered because she reprimanded him for paying too much attention evening attempted to shoot his wife, and part of the United States. The accomshot his mother-in-law, Mrs. Thomas Fisher, instead. Fortunately Mrs. Fisher was standing so close that the bullet only grazed the scalp and lodged in the head between the scalp and the skin. It was extracted by Dr. A. H. Koenig, who dressed the wound and no serious complications are feared. Walker was arrested by Captain Dworak and Detective McGuire.

The shooting occurred about 6:20 o'clock at the home of Mrs. Fisher at Fifteenth and Berry avenue, with whom at the present time is Mrs. Gladys Starks of Pike between Walker and his wife.

Sun Will Be Eclipsed Today

As mentioned on March 31, in our Astronomical Happenings in April, a partial eclipse of the sun will take place in Omaha oday. The annexed figure will tell us what to expect. The circle represents the sun with its cardinal points NESW, the point T being on top. First contact will occur at 5 o'clock 36 minutes 35.4 seconds p. m., when the moon will begin to indent the sun at the point F, very nearly 45 degrees to the left of its lowest point. At 6:06 the observation will have reached its maximum and a small piece will seem to have been cut off the sun's left side. This may be seen through a smoked glass or by punching a small hole in a cardboard and catching the solar image on a piece of white paper. The last contact will occur at 6 o'clock 26 minutes 54.2 seconds, and the noon will leave the sun at the point L. The total eclipse of the sun will be visito her sister, Oilie Walker, colored, last | ble as a partial eclipse over the larger

panying map will show the circumstances. The curves marked as the northern limit Creighton University Observatory, Omaha. and as the beginning, middle and end of

the collipse at sunset, are sufficiently in telligible without explanation. The parallel ovals marked 0, 1, 2, 3, 4, 5, show the tenths of the sun's diameter eclipsed at the moment of sunset, with this difference that to the east of the middle line the eclipse will still be increasing at that time, while to the west of it, it will be decreas-

The full lines parallel to the limit line marked 0, 1, 2, 3, 4, 5, 6, indicate the tenths of the sun's diameter obscured at the middie of the eclipse. The two-det-and-onedash lines mark the beginning of the eclipse for every ten minutes of central time, and the two-dash-and-one-dot lines show the end of it. According to them the eclipse begins everywhere before 6 o'clock and ends everywhere after it. The dotted lines 6, 7, 8, 9, show the central times of sunset.
