CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO, April 29.—Reports that Europeans were big buyers at Winnipeg turned wheat upward in the last half hour today, notwithstanding weakness had been the rule all the rest of the session. Closing prices were unsettled, \(\frac{1}{2} \)c higher to \(\frac{1}{2} \)c off as compared with \(\frac{1}{2} \) hours before. The end of the day left corn \(\frac{1}{2} \)arg \(\frac{1}{2} \)c lower to \(\frac{1}{2} \)c down to a shade advance, and provisions at \(\frac{1}{2} \)arg \(\frac{1}{2} \)d cecline.

The rally in wheat was accompanied by statements that Kansas City was disposing of a good deal of cash grain to eastern Prices on Board of Trade.

of a good deal of cash grain to eastern mills. Another bullish influence was the dry weather northwest. Bearish feeling early came in part from information about larger shipments expected to be made by Russia. Such factors were lost sight of

Russia. Such factors were lost sight of, however, when shorts commenced to cover near the end of the session. The market on the whole showed a steady tone at the close. High and low limits for July proved to be 88½c and 87½687½c, with last sales at 88c, a net gain of %c.

Trade in corn was large, but mostly in transferring May holdings to deferred months. July ranged from 52c to 52½c, and at the windup was 52½623½c, a net loss of 126½c. Cash grades were casy; No. 2 yellow finished at 53653½c.

In the oats pit, elevator interests bought May and sold July on a big scale. During the day July fluctuated between 31%c and southern districts 31½531½c.

Eventually a server resolute of heavy at Local Forecaster.

Expected heavy receipts of hogs next week caused weakness in provisions. The outcome was a drop of 10@12½c for pork and 10@12½c to 15c on lard, with ribs 7½@ Articles. | Open. | High. | Low. | Close. | Yes'y.

is Heavier.

OMAHA, April 29 1911.

There is nothing in the way of crop news that could not be called favorable. Reports from all sections are ideal, and in addition there are no pests troubling the young plants. Recent rains have wet down both wheat belts and there can be no talls of drouth for a long time. The trade continues very light and price changes are narrow and easily influenced.

The wet weather is dull and inclined to be lower, as buyers are slow takers at these prices. The bearish sentiment in wheat is discouraging holders.

The what market roiled stendy at the opening and proved to be a dull affair until near the close, when a sharp upturn resulted in shorts covering. Cash wheat

NEW YORK STOCKS AND BONDS

Great Improvement Shown in Financial Condition of the Railroads.

BANKERS TAKE BLOCKS OF BONDS

One Hundred Million Dollars in Sc curities Are Negotiated in Money Centers During the Past

Week.

NEW YORK, April 29.-(Special Telegram.)-Of oversladowing importance in the business world during the week has been the improvement in the financial conbeen the improvement in the financial con-di lon of the railroads.

Over the last ten days considerably more than \$100,000,000 of new financing has ap-peared, either in the form of offerings of bonds contracted for by the bankers a little while previous or new amounts negotiated between the railroads and the bankers during the period.

The items that go to make up this large amount are:

Seaboard Line, \$23,000,000. Stephenville, North & South Carolina Ilroad, \$2,000,000 Kansas City & Memphis bonds, \$510,000 L. u sville & Nashville divisional bonds.

Atlantic Const Line, \$3,000,000, Chicago & Northwestern \$7,500,000. Chicago & Northwestern \$7,500,000. Central New England bonds, \$12,200,000. Big Four bonds, \$19,600,000. Chesapenke & Ohio notes, \$16,000,000. Interborough Rapid Transit notes, \$10,-

National Railway of Mexico notes, \$10,-A further item of \$39,000,000 for Chicago & Northwestern Elevated notes might be included as among the financial negotiations of the last few days.

Big Acreage to Be Planted.

While there is no great change in the business situation, the general trend has been for better conditions. That a large crop will be cultivated during the season is indicated by the heavy sale of mules and horses in the breeding sections. Heavy purchases are reported from all Missouri river sections. In western Missouri, Kansas and Nebraska dealers mask of the sas and Nebraska dealers speak of the demand of the season as unusual. For the first quarter of the year kames City received 34.712 head, compared with 23.125 received 34.712 head, compared with 23.125 in 1910, making a gain of 11.576. During March alone the receipts were more than one-third larger, 10.211 head having arrived, against 5.272 in March, 1916, or an increase of 3.933 head. Shipments show corresponding increases from 7.070 in March, 1910, to 8.506 head in March, 1911. Thirteen markets in the west for January and February, during which time much of the distribution for early farming occurs, show a gain of 40 per cent in horses and mules received over the business of the preceding year.

Iron and Steel Trade.

The movement of iron and steel trade is shown by the advance sheets from the menthly summary of commerce and finance of the Department of Commerce and Labor, which give total exports of iron and steel, not including ore, for March, 1911, as \$22,591.848, as against \$17,258,563 in March, 1910. Seaboard Air line has placed an

order for 15,000 tons of rails, Rock Island 10,000 tons and Duluth South Shore 5,000 tons, making a total of 30,000 tons.

The advent of a nearer approach to seasonable weather in some sections of the country has helped the retail business, but wholesale trade has made but little response and remains generally dull. response and remains generally dull Taken in all these factors indicate that conomic conditions for a prosperous year i business are good and the early plant-ig indicates a fairly large crop will be ultivated.

The stock market, which continued strong during the session, closed less active than it had been during the early hours. The sales for the day were 240.61 shares. Reading led the list, with United States Steel and Union Pacific following closely.

The Bank Statement. The wide diversity between the "average" and "actual" bank statements today indi-cated that the bank position weakened considerably after the middle of the week. This was evidently because of the outgo of the cash, and because of increased loan

expansion, for loans decreased in the week-end, showing where they expanded slightly on the daily average.

SHEEP-Lack of actual offerings in the sheep barn this morning left the open market practically barren and unchanged. Four cars of wooled yearings were received, but they were bought on contract by a packer at £.00.

Daily receipts during the week have been running fairly large, so that the total exceeds either hast week's supply on the supply this week last year. Mexicans made ply this week last year. Mexicans made

up a very fair portion of the run, but western bred stock predominated on most days. Lamba, both wooled and shorn, proved the rule, and various classes of sheep the ex-

rule, and various classes of sheep the exception.

Alberal shipments, added to unfavorable conditions in the east, prompted cheaper cost locally, and the entire list of values is clesing on a lower basis. Demand was gen raily indifferent and clearances were made after a slow, doubtful fashion. Wooded lambs suffered more than any other class of stock perhaps, best ewes finishing at levels about 3°c under a week ago. Heavy grades were hard to move at any price, as weight is still unpepular. It would take extra good, handy we stem to command \$5.90 at present, while choice Mexicans show a timit of \$5.90. High dressing shown lambs are quotable at a range of \$45.96.75, these pices indicating net decides of 29625c.

Mutton sheep have been treated with a little more consideration for the reason that supply has been relatively limited. Current flaures for all kinds of ewes wethers, etc., average about 19625c under quotation at last work; close.

D., April 29.—(Special.)-The State Sunday school convention in session here since Tuesday, closed last evening to meet in Watertown next year, The closing address was by Frank Fox, ROSIN-Firm; type F., \$7.77%; G., \$7.80. Falls. The officers for the ensuing year are C. H. Leggett of Fort Pierre, president; T. H. Hagen of Huron, vice-presi-

Marie Dressler is as famous for her epi-grams as she is for her generosity. An actor at the opera house was recalling yesterday one of her justly famous bits of repartee.

Miss Dressler was inviting her friends to a birthday party.

"There'll be a birthday cake, I suppose?" neone remarked. Yes, there'll be a cake, never fear,** "Yes, there'll be was the reply."

"And candles, of course?" went on the alleged wit.

"My friend," said Miss Dressler, "this is to be a birthday party, not a torchlight transaction." Rochester Herald.
