this will be done regardless of the action of the grand jury. Judge Woodruff yesterday forwarded his decision on the application of the Lana Construction company for a modification of the court's decree granting J. M. Pullen a permanent injunction restraining the Lana company from proceeding with the construction of the Nishnabotna ditch upon the contract awarded him by the Board of County Supervisors. The appeal for modification was based on the dis-covery that the court's decree failed to re-quire a bond from Pullen. The modifica-tion granted yesterday requires Pullen to file a bond for \$2,500 within three days, otherwise the original decree will be an-nulled. Lana was awarded the contract upon his bid of #00th part of 1 per cent below the fouwest bid. The court held that this bid was void and the contract illegal. The county board met yesterday and de-ided to convers again on May 12 and in-struct the counts additor to advertise for new bids. The unfortunate legal entangle-ments will delay the beginning of con-struction work on the big ditch until prob-ably some time in the autum.
