Emissaries Are Discovered Shipping Men to the South.

BUY THEM TICKETS TO EL PASO

Pretend to Officers that Men Are Being Shipped to Ranches in Oklahoma-Many Have Been Sent.

Insurrecto emissaries, supposedly enlisting troops for service in the Mexican roubles were discovered at work in Omaha Friday. A Mexican, giving his name as Enrico Padrio, and who admits that he has just arrived here from the seat of the the program, extended an invitation to athletics. troubles on the border, has been hanging President Taft to deliver an address. around Union station this week, and on acveral occasions has put alleged "friends" of his aboard trains for Oklahoma.

Inquiry into his business by Officer Mansfield revealed the fact that he was sending off his "friends" to ranchers in the south. and as he was in no way troublesome and scemed to have business at the station he has worked undisturbed.

"Yes, I have just come from the border." answered Padrio, in answer to a question, "but I think that the fighting is nearly over. I am going east tonight. My partner arrived yesterday and we go to Chi cago.

Padrio talks very poor English and at any reference to his being still one of the insurrectos pretends not to understand. He declares that his father was five years ago a wealthy rancher in Mexico, but that he has been cheated out of huge estates by grafting officials and other sharpers. The Mexican admits that he saw some of the fighting on the border, but could not be made to understand when it was iuquired which side he was on. The thing that first placed him in a suspicious attitude was that he bought all tickets for the men he shipped out and that one of them instead of having a ticket to Oklahoma, as he declared all had, was bound for El

Pano, Tex. reveral of the men he sent off were Americans and others could have been Mexicans from their appearance.

the reason that nine times out of ten the

doors to the room are locked. This condi-

tion applies more to the older hotels than

CURES S.S.S. SKIN DISEASES

A perfect condition of the skin exists as long as the blood is normal, but when it becomes contaminated with humors and acids its supply of nutritive properties is greatly lessened, and it becomes a sharp, acrid fluid which diseases instead of preserving the natural health and texture of the skin. Then come Skin Diseases; the character of the eruption depending upon the nature of the humor with which the blood is infected. If there is an excess of acid in the circulation the trouble is characterized by itching and burning eruptions. Other impurities produce watery blisters, rashes, etc., commonly known as Eczema, Tetter or Salt Rheum, while still other morbid matters in the circulation cause Acne, pimples and like troubles. It is right and proper to get what relief one may from the application of washes, salves, etc., but such treatment should not be depended on alone to produce a cure-only a thorough purification of the blood can accomplish this. S. S. S. cures Skin Diseases of every character and kind, because it purifies the blood. It goes down into the circulation and removes the humors and acids, builds up the weak, acrid blood, and completely cures all skin affections. Book on Skin Diseases and any medical advice free. S. S. S. is for sale at drug stores.
