DAWES TALKS TO BANKERS Group Six of Iowa Association in Session at Des Moines. CENTRAL BANK IS FAVORED Mayor Hanna Institutes War Upon Bakeries of Iowa Capital that Sell Short Weight Bread.

DES MOINES, Ia., May 5.—(Special Telegram.)—The annual meeting of the Iowa bankers of Group 6 was begun this evening and the speaker of the evening was Charles G. Dawes, former comptroller of the currency, who discussed the subject of currency reform and presented the plans of the American bankers.

J. Eastman, president of the Milwaukee railroad, is also attending the meeting, and a number of other Chicago bankers. About 100 of the members of the association are present. It is expected that the group will in some form approve of a central bank, as it is known that most of the members have expressed this opinion.

Mayor Hanna has instituted war upon Des Moines bakeries who sell short weight bread. To aid him in his campaign, the city council today instructed the market master to secure the weights of bread from Des Moines bakeries and make a report to the city council.

WILSON PREDICTS NEW REFORM ERA

(Continued From First Page.) stages without intending it, without being aware of it, we have lost the purity and directness of representative government. What we must devote ourselves to now is not to upsetting our institutions, but to restoring them.

What Correction is Needed? "Let us ask ourselves very frankly what it is that needs to be corrected. To sum it all up in one sentence, it is the control of politics and of our life by great combinations of wealth. Men sometimes talk as if it were wealth we were afraid of, as if we were jealous of the accumulation of great fortunes. Nothing of the kind is true. America has not the slightest jealousy of the legitimate accumulation of wealth.

In the first place, there is the notorious operation of the bipartisan political machine; I mean the machine which does not represent party principle of any kind, but which is willing to enter into any combination, with whatever group of persons or of localities and of states and of the nation itself in order to maintain the power of those who direct it.

Among the remedies proposed in recent years have been the initiative and referendum in the field of legislation and the recall in the field of administration. These measures are supposed to be characteristic of the more radical programs, and they are supposed to be meant to change the very character of our government.

Initiative One Remedy. "If we feel that we had genuine representative government in our state legislatures no one would propose the initiative and referendum in America. They are being opposed now as a means of bringing our representatives back to the consciousness that what they are bound in duty and mere policy to do is to represent the sovereign people whom they profess to serve and not the private interests which creep into their councils by way of machine orders and committee conferences.

The recall of judges is another matter. Judges are not lawmakers. They are not administrators. Their duty is not to determine what the law shall be, but to determine what the law is. Their independence, their sense of dignity and of freedom, is of the first consequence to the stability of the state.

Justice Bernard Holds that Jury Must Pass on Merits of Contention Over Value of Gem. WASHINGTON, May 5.—(Herald.)—That the affidavits of Edward B. McLean and his wife, Evelyn Walsh McLean, in defense of the suit of Carter, the New York jeweler, to recover \$100,000, the purchase price of the celebrated Hope diamond, are sufficient in law, justice Bernard of the supreme court of the District of Columbia today declined to grant the motion of the plaintiff for summary judgment.

but accommodation. The program of parties must now be programs of enlightenment and readjustment, not revolutionary, but restorative. The processes of change are largely processes of thought, but unhappily they cannot be effected without becoming political processes also, and that is the deep responsibility of public men. What we need, therefore, in our politics is an instant alignment of all men free and willing to think and to act without fear upon their thought."
