One team ages of the players in the Western league. or the other, and only too frequently both Cole, who last week was half way down beams suffer from his presence, and the the list with a batting average of .364, has game is thereby the loser. These truisms jumped to the top of the list of regulars a ply exactly to the situation in Omaha as with the high figure of 200. Close onto developed during the short stay of Umpire his beels comes Bert King, the Omaha a neeland in the city. No one questions his certer fielder, with an average of .387. honesty; that will be admitted, but his In the fielding column several men are eminent ignorance and his obtrusive trucu- tied for first honors, among whom are the once are equally in evidence, and his total two Omaha catchers. Kane is among the infitness to preside over a game of base leaders of first basemen with an average half is amply demonstrated. Omaha has al- of 1831. Barber leads the pitchers with a ways been singularly free from the pest perfect percentage. Omaha has second of umpire-bailing. In no other town of implace in the team batting. Wighits headas high as it does in Omaha, have the visiting team and the umpire been habitually treated with more of courteous cona deration. This fact simply serves to heighten the offense that Kneeland must have given in order to provoke the usually orderly patrons of the game to the outbreak that marred the closing game with Sloux City. All through his stay in Omaha, Enceland showed himself not only unworthy of the position in which he has been placed by reason of his lack of judicial fitens, but also by his apparant pugnacity, which was mainly directed against the players of the home team. So the crowning act of his career of incompetence did not come as so much of a surprise. No excuse will be offered for the conduct of Anderson and King, but their offense is palliated by the intensity of the provecation. It is very hard for even trained athletes to withstand ferever the strain of an umpire's stupidity, and the players who are fault would have been more than human had they not recented the unjust and absolutely wrong decision given by Kneeland in some manner, They will be punished, for the rules must be enforced, but the weakness of base built is shown in the condition that provides no punishment for the umpire, who in this same seems the greater offender, Only one hope an be expressed in this connection, and that is that we will never aguin see Kneshand or his like.

The schedule makers this year have put some queer crimps in Omaha. The team began its first long trip abroad yesterday at St. Jos. It plays three games there, at Lincoln, Denver, Topeka and Wiehita in the order named, which shows considerable jumping about. It is home for three games with Lincoln beginning May 23, and for three with Wichita; then, although playing in Omaha May 28, it must get right of one. Other clubs also have some smart beaucing about to do, and we are not computating at getting anything like the worst Kores. It But the deal, only pointing out what may be expected of the team.

hack to Denver for a game May 20 and a colligan, Des Moines double-header the 20th. June 1 and 2 it plays Topeka in Omaha, making another leap from Denver in the night for work the next day. Then it whips down to Linsoln for three games, then right back to Denver for three more, to Topeka for three, Wichita for three and then to Omaha for twelve straight. Thus we have omaha for twelve streight. Thus we have no long stay at home until June 16, and then only for twelve games. It behooves Omaha, therefore, to get going good as a road team, for unless it does it will have a very difficult time winning the pennant after the middle of June. Not only must it win on the road, but win against some very strenuous travaling, which is calculated to unde hall players more than actual work. Yet, of dourse, some team has to bear the brunt of the schedule, and it might as well be a strong team as a weak one. Other clubs also have some smart Glimore, Denver. 25 Glimore, Denver. 15

Midland Cars Come Up to the Mark of Quality

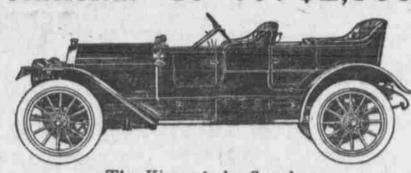

ONE MIDLAND PERFORMANCE

A Model "L Midland" which has been driven more than 15,000 miles the past season was hastily overhauled, driven cross country to Chicago and entered in the Chicago Motor Club 1000 mile reliability run November 7-11. This car, in spite of these disadvantages completed the 1039 miles of this run over the Illinois dirt roads with but three minutes' work necessary in adusting the carburetor and with a perfect mechanical record although it had the misfortune to break a spring and loosen a bolt in its drip pan. The car was in good running shape at the finish and was taken from the technical examination at the end of the run and driven back to the factory, where it is now used as a demonstrator and is good for an indefinite number of thousands of miles yet

This is the first season the Midland has been in the racing or endurance run game, and we are proud of above showing as it proves absolutely that the Midiand is durably and substantially built and can be depended
