

IOWA SENATORS WITH TAFT

Belief that Both Will Support Canadian Reciprocity Bill.

FIGURING ON THE STATE TICKET

Lieutenant Governor Clarke Will Be One of the Leading Candidates for the Nomination for Governor.

(From a Staff Correspondent.)

DES MOINES, May 7.—(Special.)—Despite that line of the ten republican congressmen from Iowa voted against the bill to make good the treaty for Canadian reciprocity at Washington, it is the belief of those who are best informed that the two senators from Iowa will be found standing together in support of President Taft in this measure.

The peculiar turn of affairs in the Ninth district, where a special election has been called, makes it almost certain the issue of the treaty will have great weight in the election. The republican candidates are all committed against the pending bill.

Figuring on State Ticket. A good deal of gossip has been going the rounds lately as to possible candidates for state and other offices.

Will Cost Mine Operators Something. The signature of Governor Carroll will cost the operators of coal mines in Iowa many thousands of dollars.

Over Crop Not Harmful. Reports to the horticulture department from all over Iowa indicate that the recent freeze had no effect on the fruit except in rare cases.

Warning to Railroad Men. E. R. Bacon, 11 East St. Bath, Me., sends out this warning to railroad men: "A conductor on the railroad, my work caused a chronic inflammation of the kidneys and I was miserable and all played out from the day I commenced taking inflammation clearers and it is far better than I have been for twenty years."

MAKES PLEA FOR FILIPINOS

Commissioner Queson in Washington and Talks for His People.

HAS DEMAND FOR INDEPENDENCE

Contents that the People of the Philippine Islands Were Guaranteed Liberty and that They Should Have It.

WASHINGTON, May 7.—(Special Telegram.)—In an interview, Melville I. Queson, one of the resident commissioners of the Philippines, has made a bold demand for Philippine independence, declaring that the high time the United States made good its promise of thirteen years ago, that his people would be held as wards only until they were fit for self-government.

Commissioner Queson, whose status in Washington is that of delegate in congress from the people of the Philippine islands, although he has a colleague here, Commissioner Benito Legarda, Queson was chosen by the Philippine assembly, being the unanimous choice of all parties.

When the people of the United States came into contact with the Filipinos for the first time, he said, "the only thing they knew about them was that there was some uncivilized people in the mountains and the people of the United States took it for granted that all the rest of the islands were more or less in the same condition."

President McKinley's investigating committee found that the Filipinos, even at that time, were in much better condition and were more fit to govern themselves than were the people of Cuba, to whom independence was given immediately.

"You of the United States do not care that all branches of science or art are and have always been well represented in the people of my race."

"There is a Luna, whose paintings have been the admiration of the world; there is a Ysma and a Moreno-Lacalle, whose learning in the law made them objects of admiration of the highest courts in Spain; there are numerous doctors who rank with the highest of their profession in Europe or this country, and there are politicians who can occupy any place in any legislative body of any nation and fill that position with credit."

"The government of the United States pledged itself before the whole world that in governing the Philippines the welfare of the Filipino should be given first consideration, and this, I regret to say, has not been the case."

"The high-salaried positions are occupied by American citizens and only the minor and unimportant ones are given to natives."

"The islands are costing the government of the United States millions yearly, and the longer the United States retains them the greater will be the temptation for American capital to exploit them."

"And we do not want American capital to take hold of our lands and our farms."

"President Taft said that the Philippine islands are for the Filipinos, and those words have been engraved in the heart of every Filipino, and when we see that the conduct of the administration is not in conformity with that doctrine, we protest and demand that a stop be made to the actual condition of affairs be made at once and that our voice be heard."

Blower Falls Into a Pit of Molten Glass. George Dehaunt Meets Fearful Death When He Loses His Balance While at Work.

FAIRMONT, W. Va., May 7.—George Dehaunt, a blower at the Fairmont Window Glass company's plant, met a fearful death today when he fell into a pit of molten glass.

MAYOR OF HUNNEWELL TALKS Woman Executive Says She is Ready to Co-operate with the Council.

HUNNEWELL, Kan., May 7.—"Hunnewell is in worse condition than it was," said Mrs. Ella Wilson, the mayor, thoughtfully, today.

Labor Trouble in France is Nearing Critical Climax

Fifteen Hundred Meetings of Railroad Men Held in Paris to Decide Upon General Strike.

PARIS, May 7.—(Special Cablegram.)—The French labor situation, always critical, appears again to be approaching a climax. Tonight 1,500 meetings of railroad men are to be held for the purpose of deciding whether a general strike is necessary to force the companies to re-employ the men discharged as a result of the last strike, hundreds of whom are said to have been reduced to misery.

In addition to this, the government is facing a tact strike, or boycott, against the new compulsory old age pension law, which becomes effective July 3.

Workers show general distrust of the government. They seem to be afraid of a trap somewhere, and many enjoy repeating the question, "Where is the money which Dues took?"

Dues, it will be remembered, was the man appointed by the government to liquidate the property of the religious orders when the latter were expelled from France.

When the people of the United States came into contact with the Filipinos for the first time, he said, "the only thing they knew about them was that there was some uncivilized people in the mountains and the people of the United States took it for granted that all the rest of the islands were more or less in the same condition."

F. A. Stroup Suffers Stroke After Injury

Vice President of Omaha Real Estate Firm is Ill in New Orleans.

NEW ORLEANS, La., May 7.—(Special Telegram.)—F. A. Stroup, vice president of the Payne investment company of Omaha, who has been active for many months with others of the company in the colonization of Louisiana land with northern farmers, was stricken with a stroke of paralysis affecting the lower half of his body while in the Turkish baths of the St. Charles hotel Friday evening.

Mr. Stroup was bruised about the chest and shoulder, but was up and about in a few days and accompanied his train north and returned to Louisiana with a party of home-seekers.

According to Mr. Stroup Saturday, he has never missed an excursion of the Payne investment company in all of the twenty years that the corporation has been in existence, and he is much worried for fear he will have to miss the next one.

Mr. Stroup's home is in Chicago and his wife and several daughters reside there. While in Omaha, where his business interests frequently brought him, he lived with his son's family, G. W. Stroup of this city, who is also an employee of the Payne company.

Archives of United States Are Inspected. Secretary Knox Finds Receipts in Neither Fire Nor Water Proof—Constitution Well Preserved.

WASHINGTON, D. C., May 7.—The sacred relics of enduring popular government, the original declaration of independence and constitution of the United States, which for nearly a decade have been locked up in the archives of the State department, were personally inspected today by Secretary Knox, who is charged with their preservation.

Although without available funds he issued instructions that an estimate be made of the cost of a receptacle which would make the historic instruments absolutely secure against destruction.

His condition is ascribed by officials more to the press copying than the wear of years. The constitution, which has never been pressed, is almost perfect.

Now is the time to get rid of your rheumatism. You will find Chamberlain's Linctament wonderfully effective. One application will convince you of its merits. Try it. For sale by all dealers.

TO ALASKA TO HUNT BIG GAME

Mrs. Wadsworth and Miss Carlisle to Plunge into the Wilds of the Northwest.

SEATTLE, Wash., May 7.—(Special Telegram.)—To hunt big game through the interior wilds of Alaska is the mission of two society women of the national capital, Mrs. Henry Wadsworth, a member of the celebrated family of that name, and Miss Marie Carlisle, are both now in Seattle. The women are traveling as members of the Alaska boundary survey party of fifty, headed by Thomas Higgs, the privilege of journeying with a body of government officials came through the courtesy of Vice President Sherman.

Mrs. Wadsworth's home is at Avon, N. Y. She is a sister-in-law of James Wadsworth, speaker of the New York assembly. Last year, riding in relays fourteen of her thoroughbreds, she covered 23 miles in the Genesee valley in fourteen hours.

Her companion, Miss Carlisle, is reputed to be a shot of no mean ability. The party will sail for Alaska tomorrow night.

BOYS WHO GIVE TESTIMONY ROUGHLY USED AT WYMORE

Remonstrators Against Saloon License Secure Them to Furnish Evidence.

BEATRICE, Neb., May 7.—(Special Telegram.)—There was a little excitement at Wymore last night just before the city council granted a saloon license to Lavell & Calder of this place. Three boys from Beatrice, named Broff, Young and Cassell, were secured by a minister and some of the remonstrators to testify in the case, and after they gave their evidence and started to leave the city hall they were set upon by a gang of young men and driven out of town.

One of the boys was pretty roughly handled by the mob. They were brought to this city early this morning in a buggy by a resident of Wymore.

Our Agencies Dot the Earth

Schlitz was brewed first in a hut over sixty years ago. Now our output exceeds a million barrels a year. Our agencies dot the earth.

More and more people every year are demanding Schlitz—Schlitz in Brown Bottles.

In our brewery we spend more on purity—in time—in skill—in money—than on any other cost in our brewing.

We scald every tub, keg and barrel—every pipe and pump—every time we use it. We wash every bottle four times by machinery. Even the air, in which the beer is cooled, is filtered.

If you knew what we know about beer, you would say, "Schlitz—Schlitz in Brown Bottles."
