REMOVES

The intimate relation of the skin to the blood is shown by the fact that impurities or poisons of any character are usually manifested in some form on the outer cuticle. Humors in the blood produce what we term in general, Skin Diseases. These are divided into several classes known as Eczema, Acne, Tetter, Salt Rheum, Psoriasis, Pimples, Rashes, etc., and each of these troubles indicate the presence of humors or acids in the circulation, The humors and acids by their irritating nature, cause the delicate flesh just beneath the outer skin to ulcerate and discharge, and soon the body is disfigured with eruptions which often are torturing to the sufferer because of soreness or intense itching. Salves, washes, lotions, etc., can have no curative effect on skin diseases. Such treatment can perhaps soothe the irritated flesh, but the real cure must be accomplished by purifying the blood. S. S. S. cures Skin Diseases of every kind by purifying the blood and removing the humors from the circulation. It neutralizes all impure acids, cools the over-heated blood, and builds it up to normal strength. Then the skin instead of being irritated by acrid impurities and humors, is nourished, soothed and softened by pure, rich blood. Book on Skin Diseases and medical advice free. S. S.
