BOOSTERS READY FOR TRIP

Special Train is Being Well Stocked for the Excursion.

ALL RESERVATIONS ARE MADE

Band Will Help Furnish the Music—Piano is Installed in the Observation Car—Glee Club is to Sing.

The special train carrying the Omaha trade boosters on their thirty-eighth annual excursion over the lines of the Union Pacific, will leave Union Station Sunday afternoon promptly at 4 o'clock. All reservations have been made and practically everything is in readiness for the start. All of Saturday was spent in stowing away the supplies and advertising matter for the trip. Sunday afternoon, before the start is made, the special train, made up of brand new equipment, will be set in at the station for inspection by the public. The trade boosters will go direct to Kimball, from which point the real boosting begins at 7:30 o'clock Monday morning. During the day stops will be made all along the line as far as Oskosh, and the start Tuesday morning will be made from Northport at 6:30 o'clock. During this day visits will be made at the points along the line as far as Kearney. On the third day the train will run between Calloway and Ord, and on the following day the itinerary will include visits to all the towns between Loup City and Columbus. On Friday, Spaulding, North Bend and intermediate points will receive the visitors. Leaving Central City on the last day the boosters will stop at the points between that place and Omaha. The members of the party are looking forward to the most enjoyable and profitable trip ever taken out of this city. All arrangements are agreeable, and everything has been done for the comfort of the excursionists. All along the line they will be given hearty receptions by school children and business men. A small piano has been installed in the

observation car by Hayden Bros. A quartet will also help to furnish the music.

Fisherman Slashes Throat With Razor

Frank Kuchar, Victim of Mental Derangement, Tries to Die at Breakfast Table.

Sudden mania drove Frank Kuchar, fisherman, living at Twenty-first and William streets, to attempt suicide by cutting his throat Saturday morning. He was taken to the county jail. He will recover. Kuchar was sitting at the breakfast table when he uttered a scream and, seizing the razor, slashed his throat, inflicting a deep but not dangerous wound. John, a son, restrained the raging man until the police arrived. If members of the family do not file a complaint of insanity, the authorities will carry the case into court.

STRAIN MANAGER OF THE REORGANIZED LAUNDRY

Former Newspaper Man Now at the Head of Big Local Institution.
Following the death of Frank Kimball, who was killed in an automobile accident, there has been a reorganization of the officers of the Kimball laundries. George M. Strain, who was formerly manager, has been made president to succeed the late Mr. Kimball. Harry J. Jacobberger has been elected manager and treasurer. Mr. Jacobberger has been connected with the company for eight years, being first hired as a driver. Later he was made collector and since last July he has been secretary of the concern. F. E. Kimball is vice president, and Caroline Kimball, widow of Frank Kimball, becomes secretary.

A Serious Breakdown results from chronic constipation. Dr. King's New Life Pills cure headache, stomach, liver and bowel troubles. See For sale by Beaton Drug Co.

ORDER OF PARADE ANNOUNCED

Tom Flynn, Street Commissioner, to Be Grand Marshal.

CAPT. DUNN ORGANIZES POLICE

Fire Department to Bring Up the Rear, So as Not to Break Up the Parade in Case of a Fire.
The order of formation and line of march for the municipal parade, which will be held on May 23, were announced Saturday morning by Thomas Flynn, grand marshal. Flynn also named his assistants to prepare for the parade, selecting one each from the police, fire and street departments. Captain Henry Dunn will represent the police and Captain Henry Crager will look after the firemen. To George Campen, assistant city engineer, has been delegated the duty of rounding up the employees of the department and keeping them in line during the state occasion. Though decidedly opposed to letting his men participate in the parade, George Craig, city engineer, has decided to go the limit for the successful outcome of the parade. "The council has ordered my men to take part," said Craig. "So there is nothing left for me to do, but to make the best showing. Personally, I believe the interests of the city can be better served by having these men work next Thursday, but the council sees it otherwise. So my men will be there with bells on, if any one will furnish the tinklers."

Green's band, which has been secured for the occasion, will be given the post of honor at the front. Three other bands will be sandwiched in to disburse sweet music during the jaunt. The order of formation is: Green's band, police department, carriages containing the mayor and city council, fire and police board, Park board, Library board, city attorney's department, building inspector, gas commissioner, boiler and plumbing inspectors, electrician, license

Bad Man Weakens in Effort to Commit a Terrible Crime

Then Walks to the Police Station and Gives Himself Up to the Authorities.

Joseph Rotholz Friday night appeared at the police station and gave himself up, claiming that he was a "bad man." To bear out his statement he gave over a gun which he was carrying in his hip pocket. Examination showed the weapon to be empty and strange to say, almost new. From appearance Rotholz had done some terrible deed, as he was soaking like a lead. In police court Saturday morning he was charged with carrying concealed weapons, and it was then that his story came out. He had gone into a store Friday afternoon and while in there his pockets had been filled with rotten eggs. In some manner these eggs were crushed in his pocket, and a terrible stench issued therefrom. With blood in his eye Rotholz ran to a hardware store and purchased a new revolver. Ah! he would be revenged. As he neared the place where his pocket had been filled with the overripe hen fruit, Rotholz was overcome with terror. Turning around, he ran with all haste to the police station, and was released on a \$10 bond. His case was dismissed.

ANTICIPATE BUCKET SHOP LAW

Margin Sellers Close Up and Quit Ahead of Time Limit.

NO EFFECT ON REAL TRADING

Grain Exchange Transactions Will Not Be Involved, According to Opinion of the County Attorney.
Anti-bucket shop legislation of the last session has already had its effect in Omaha with the closing of three "shops" in anticipation of the effect of the new law, which will be in force after July 1. Three shops, those formerly operated by Herbert E. Gooch, and later under various firm names, closed the morning the law was passed, despite the fact that they could have continued in operation for the next ninety days. Concerns now operating in Omaha are legitimate brokerage establishments, delivering actual grain and securities. While the bucket shop, pure and simple, is forbidden by the Nebraska statute, the right to purchase commodities and stocks on margin is not affected. The statute is interpreted to forbid any transaction which does not contemplate the delivery of the commodity or security margined or purchased.

"Omaha has been very little troubled with bucket shops," said James P. English, county attorney. In regard to the Omaha Grain Exchange, both Mr. English and his assistant, George A. Magney, believe there will be no difficulty. "There are a few bucket shops here, and as soon as the law goes into effect it will be enforced against them," said Mr. Magney. "Unless they make some changes in their business methods or go out of business. It is difficult to move against them because they masquerade under firm names and the proprietors are always said to be someone in a distant city."
