Features of the Trading and Closing Prices on Board of Trade. CHICAGO, May 23.—Violent upward leaps of the May wheat price today resulted from the timidity of smaller shorts. A group of such traders trying to escape a possible squeeze at the end of the month became so alarmed that they bid as high as \$1.63% a bushel before they could obtain property which sold Saturday night at \$9%. New crop months, however, were weak, and closed at a net loss of \$40%. HA choice to ic. Corn finished with a decline of \$400%. Corn. May wheat held stubbornly near the top point of the session, final sales being at \$1.03, a net advance of 3%. Business had hardly begun before the price broke over the dollar mark and from that time on almost every change meant wee to the shorts. The situation which the trade faced was that, although wheat was arriving here in train loads, the grain could by no possibility be put in store, graded and delivered in time to apply on contracts which expire May 31. The sample tables around the pit were loaded with this sort of wheat just too late and being being the most notificable on the batter grade as a matter of course. The market was active at the advance noted and everything series as a matter of course. MINNEAPOLIS, May 29.—WHEAT—May, 94c; July, 95%, 295%; September, 91%; 91%; No. 1 hard, 98%; No. 1 northern, 96%, 298%; No. 2 northern, 93%; 108%; No. 2 northern, 93%; No. 2 northern, 93%; No. 2 northern, 93%; N and delivered in time to apply on contracts which expire May 31. The sample tables around the pit were leaded with this sort of wheat just too late and being valuly offered at a sacrifice of nearly 10c a bushel from the figures obtainable for grain actually in store. The Board of Trade rules provide for making contract wheat on railroad tracks in the yards here deliverable, but only when storage room is filled. No such emergency exists. July ranged from 83%c to 83%c and closed \$4%c down at 83%c. Rules, weather and large consignments made corn weak. May going a long time 3%c under the close of Saturday. July fluctuated between \$2%c and 53%c and in the end was \$2%dox a net decline of \$40%c. Cash grades were weak, No. 2 yellow finishing at 53%good. Good crop reports turned oats downward. July varied from 35%c to 35%c and closed \$48%c off at 25%c. Prospects of a heavier run of hogs this week brought about an easy feeling in provisions. When the pit was cleared pork was 567%c lower, lard unchanged to 10c off and ribs the same as Saturday night to 7%c decline.
