TAG DAY BRINGS IN \$3,676

Y. W. C. A. Now Has Half of Debt Fund Raised.

MRS. TILDEN THANKS PUBLIC

President Issues Formal Statement of Appreciation—City National Bank Station Nets Biggest Sum to Workers.

Tag day's labors brought the Young Women's Christian association a total sum of \$3,676. This added to the \$3,000 already raised by the Young Women's Christian association brings the total up to \$6,676. Before Sunday the women expect to raise it to \$8,000.

Although this is just half of the \$10,000 that the association would raise to pay debts, it speaks well for the energy of the association workers.

Tag day was a decided success. It is declared. Men and women contributed cheerfully for the little task. The following statement of thanks is given out by Mrs. George Tilden, president of the association:

The Young Women's Christian association desires to thank all who helped in making the tag day a success; the mayor of the city for his permission and interest, those who gave space in their stores for station supplies; those who served at stations, the United States and City National banks for their services, the newspapers for publicity and the public of the city for patronage.

MRS. GEORGE TILDEN, President.

The largest amount collected during the day was by the workers under Mrs. W. E. Rhoades at the City National bank building, \$400. Mrs. F. D. Wilson and her party found visitors and travelers going in and out of Omaha at the Burlington and Union stations generous to the amount of \$147.

WHO IS TO SUCCEED DAVIS?

This is Now the Principal Theme at the City Hall.

DEMOCRATS INSIST ON CONTROL

Combination Has a Majority if Three Democrats and Three Republicans Decide to Stick Together for Election.

The probable vacancy in the city council by the retirement of Councilman Davis is the naturally the talk of the city hall. The speculation is all on how the vacancy will be filled and who will fill it.

It is conceded that with the membership of the council reduced to eleven the combine of three republicans and three democrats who have been working together will have clear majority of the council, and can do as they please. It is also conceded that if a republican is named he will be named by the three republicans, and be some one selected by them with a view to furthering the candidacy of Councilman Hummel for sheriff.

At the same time some of the democrats insist that the six democrats in the council must get together and agree on a candidate so as to elect democratic control in the city hall, and they argue that, if the case were reversed and the vacancy were due to the dropping out of a democrat, the republicans would not choose away their advantage.

The position of councilman from the Twelfth ward seems to be a movable job, because a vacancy occurred in the same office three years ago when "Jeff" Bedford was transferred to the county board. At that time the democrats had a free hand, and filled the vacancy with M. L. Endres, who was afterwards renominated in the democratic primary, but lost out to Davis in the election. It is reported that Councilman Davis has been trying to frame up the succession for Charlie Jacobson, another former street car man, who was his campaign manager, and who operates a restaurant and pool hall at the Ames avenue car barn.

PLANS FLATS TO GIVE EMPLOYEES LOWER RENT

Officials of Omaha Van and Storage Company Will Erect Apartments for Workers.

A lower rent scheme for employees of the Omaha Van and Storage company is being fathered by John Beakin, one of the officials of the company.

Mr. Beakin proposes to erect a modern apartment house at 112-14 First street, which will be rented to employees of the company.

"The apartment will be modern in every respect," said Mr. Beakin Friday morning. "We will give our employees preference and the rents will be as low as we can make them. The apartments will rent in the neighborhood of \$10.00."

Christian Science Churches of Omaha Decide to Unite

Second Church Dissolves Its Organization and Members Will Go to First Church.

The two Christian Science churches of Omaha are to be consolidated, according to an agreement reached between the First and Second churches. At the close of the regular meeting of the Second Church of Christ, Scientist, held Wednesday evening, it was unanimously decided to dissolve the organization and unite with the First church, now worshipping at Twenty-fifth and Farnam, but having a new church edifice in the course of construction at Twenty-fourth and St. Mary's avenue. The Second church has been worshipping at the Lyric theater.

This step was taken as a result of a joint conference of committees from both churches. These committees canvassed the situation thoroughly and agreed that the strengthening in Omaha by the union of all interests concerned.

ABSENCE OF HEAD NURSE DELAYS CAMP OPENING

When Miss Dorsey Returns Fresh Air Plant for Babies Will Be Put in Operation.

The absence of Miss Nan Dorsey, the nurse who will have charge of the baby camp conducted under the auspices of the Visiting Nurses association, delayed the opening of the institution, which was to have taken place Friday.

Mrs. Luther Kaustine, of South Thirty-ninth street, chairman of the camp committee, said that it would be opened on Monday or Tuesday. Miss Dorsey, who has been attending a convention in Boston, will have returned by then.

Tents which will house the nurses and the fresh-air babies have been set up at the camp grounds, Eighth and Hancock streets.

BATH HAS DISASTROUS RESULTS FOR M'NOWN

Roy Allen McNowen essayed to take a bath, but fell down miserably on the job. He fell so hard that he cracked a rib and threw his right wrist out of joint. The doctor says he will be able to try it again within a few weeks, whether he needs a bath or not. Mr. McNowen got along fairly well until he attempted to stand up in the tub. Both feet went from beneath him, one of them striking the soap receptacle, dashing it against the ceiling, and water was splashed all over the walls and bath room floor. When he came to he was unable to go to work.

OMAHA FIRM GETS CONTRACT FOR NEW ASHLAND BRIDGE

Structure to Be One of the Finest Which Will Span the Platte River.

The Omaha Structural Steel works has been awarded the contract for furnishing all the steel to be used in the Platte river bridge to be constructed at Ashland. When completed this bridge will be the finest structure over the Platte river between Denver to its mouth. It will have six 100-foot spans on steel and concrete caissons. It will be a permanent structure which floods and ice gorges will not affect, and will insure a permanent route between Omaha and Lincoln at all times. It is expected that when the bridge is completed it will be on the official route between this city and the capital, and will form a part of the automobile road recently laid out between Omaha and Denver.

The bridge will be built by a private corporation organized at a meeting held at Ashland, and known as the Ashland-Platte River Bridge company. Randall K. Brown of the Coal Hill Coal company and H. F. Curtis of this city, president of the Lyman Sand company, together with H. A. Wiggenhorn and F. E. White, prominent bankers of Ashland, and others are directors of the company.

WOMAN FLOATS FOR HOURS IN SWOLLEN RIVER

Mrs. Sallie Tripp of McAlester, Okla., Who Was Carried Away by Wave of Water, May Recover.

McALESTER, Okla., June 3.—After floating on a log in a flooded stream for nearly two hours, Mrs. Sallie Tripp, who, with her mother and two sisters was swept into the Canadian river by a freshet yesterday, was found today in Gains creek, two miles above where the stream empties into the Canadian. Mrs. Tripp was unconscious. Physicians said she had a chance for recovery.

The bodies of Mrs. Glover's mother and her two younger sisters, reported last night from Sapulpa to have been drowned, have not been found. One of the sisters was to have been married today.

The family was crossing the river in a wagon at a ford, when a wall of water swept them away. Miss Glover's escape from death in the swift current is regarded as hard to explain. She was carried up Gains creek by backwater.

The damage done to property by high water is small. The water is receding rapidly.
