

Distinctive Summer Clothes for Young Men

The most popular clothes now worn by young fellows throughout the east are those with the short, soft roll coat and natural shoulders—the new form fitting garment. Of special interest to the young men of Omaha is the fact that we are the only firm here showing this very correct new style. Make it a point to see it. It's another worthy production by SAMPECK, that master craftsman of clothmaking.

Among the most popular warm weather clothes is the English Norfolk two-piece suit as shown in the illustration. It's largely worn by young fellows who want something different and by no means extreme. Colors are straws, browns, greys and blues.

\$20.00 and \$22.50

Young men who wear SAMPECK CLOTHES may ever depend on the correctness of their appearance. They contain all that appeals to youthful good taste; are exclusive in style, graceful in every line and perfect in workmanship and fit.

BANK DEPOSITS INCREASE

Gain of Two and Half Millions Over June of Last Year.

Loans Also Show a Healthy State in the Report Issued in Response to the Call of the Comptroller.

Bank deposits in Omaha's banks are \$2,365,985 greater this June than at this time last year. The total amount of money deposited in Omaha banks, according to the statement being made up for the national comptroller this currency for June 7, was \$5,300,074, while last year when the comptroller made his June call there were only \$2,934,089.

This is regarded as a most substantial growth of Omaha banking concerns, as business conditions are no livelier this year than last. Loans have made an appreciable advance also, according to the statement, showing that the alleged tightness of money is exactly the opposite.

Since March 7, 1911, when the comptroller made his last call, there is a gain of \$7,392. This is also regarded as a good omen of big gains and business booms coming, as there is generally as much money in the banks in March as at any time of the year.

The South Omaha banks are showing a steady growth.

Cuocci Not So Sure About Seeing Ring

Camorra Trial is Resumed in Italy, with Neapolitan Barber on the Stand.

VITERBO, Italy, June 10.—Cuocci, a Neapolitan barber, was again in court at today's sitting of the Camorra trial. Judge Romano, who conducted the earlier investigation into the murder of Genesio Cuocci, and before whom Cuocci had testified that he saw among the rings worn by Cuocci's followers the arrest of the Camorrista following the arrest of the Camorrista, confronted the witness. The ring is regarded by the prosecution as an important link in the evidence connecting the accused with the murder of Cuocci and his wife.

Cuocci today waived as to whether he had seen the ring and was threatened with prosecution for perjury. Judge Romano said he had gained the conviction of all the fifty persons gathered at the Ida tavern banquet in Barcelona, May 26, 1906, when the death of Cuocci was decided upon and added that all the members of the Camorra were equally guilty. The judge denied he had Abbatemaggio, the informer handcuffed and brought into the presence of the alleged head of the Camorra, for the purpose of impressing Jacovitti and forcing him to testify against Alfano. This statement brought about an exchange of insults between Abbatemaggio and Alfano, the latter declaring that the same was purposely arranged to intimidate his couchman.

Transfer of Coal and Coke Property is Completed

Monongahela Company Turns Plant Over to Frick Corporation, Despite Grand Jury's Action.

PITTSBURGH, Pa. June 9.—The federal grand jury today continued its investigation into the affairs of the Pittsburgh Coal company and the Monongahela River Consolidated Coal and Coke company relative to the transfer of coal and coke properties valued at \$17,000,000 to the H. C. Frick Coke company, a subsidiary of the United States Steel corporation, to ascertain whether there has been any attempt to make a monopoly in the coke industry. The transfer negotiations were approved late yesterday notwithstanding the fact that the government probe into the matter had been started by the hurried reassembling of the May grand jury.

E. J. Taylor, chief engineer of the Pittsburgh Coal company, who was before the grand jury when adjournment was taken yesterday, was the first witness called today. He will testify to the location of the coal concerned in the deal and to the supply of coke coal in the Pittsburgh district.

Girl Teacher Shot by Chinese Student

Miss Christine Shaw of Orono, Me., Seriously Wounded by Celestial She Refused to Marry.

ORONO, Me. June 9.—A confession that he had shot Miss Christine Shaw at Orono last night is said by the police to have been made today by T. S. Linn, a Chinese student at the University of Maine, arrested immediately after four revolver shots, one of which took effect, had been fired at the young woman on an Orono street. At the hospital in this city, to which she was taken, it was stated today that she probably would recover.

Linn is alleged to have told the sheriff that he shot Miss Shaw because she had refused his "mental torture." He said he had known Miss Shaw, who is a graduate of the University of Maine and a teacher in the Orono High school for four years, and two years ago asked her to marry him. She refused, but they had been on friendly terms since that time. Miss Shaw had come much to assist Linn in his work at the college, and from his statement today it was evident, the sheriff said, that he had misinterpreted her kindness.
