GOULD LINE MAY ISSUE BONDS

Nebraska Commission Issues Permit for Twenty Million Loan.

MONEY IS FOR IMPROVEMENTS

President Bush Will Not Say that Any of the Money is to Be Expended in This State.

LINCOLN, June 12.—(Special.)—After a hearing the State Railway commission, represented by Commissioners Purse and Winnick today granted the Missouri Pacific officials permission to issue \$20,000,000 worth of three-year 5 per cent notes and half that amount of 5 per cent bonds to serve as collateral security for the notes.

The \$20,000,000 will be used equally for the payment of floating indebtedness and for improvements on its lines. Whether any improvements will be expended on Nebraska will not be given out by the officials who were here.

The Nebraska Railway commission issued an order August 8, 1909, authorizing the Missouri Pacific to issue \$2,500,000 of stock in exchange for capital stock of the consolidated lines of the company.

In November, 1909, the commission gave the Missouri Pacific authority to issue \$2,500,000 of 5 per cent bonds to run fifty years, \$1,750,000 to be used to defray interest and for betterments and \$750,000 to be used to acquire a mortgage on the St. Louis, Iron Mountain & Southern railroad and \$4,000,000 for extensions and betterments.

It is said the Missouri Pacific prefers to issue short term notes at this time for \$20,000,000 instead of bonds because of the difficulty in selling bonds.

At the Commercial club at noon President Bush and his party were entertained at luncheon. Afterwards they met a number of Lincoln business men and discussed matters with them informally.

Case of Alleged Lobbyists. The Board of Regents will hold a meeting in this city tomorrow at which action may or may not be taken in the case of Prof. H. R. Smith of the state farm, and Mrs. Welch and Cusset of the medical college, alleged to have been connected in a way with legislative lobbying.

Luncheon for Dr. Davidson at Lincoln. Superintendent of Omaha Schools speaks at Opening of University School of Superintendents.

LINCOLN, June 12.—The school of superintendence conducted at the summer session of the university opened its second annual meeting today with Superintendent W. M. Davidson of Omaha as the speaker at the morning convocation, the leader of discussion at a later meeting and the guest of honor at the noon-day luncheon given by the members in attendance.

Regret at the fact that Dr. Davidson intended to leave the state was expressed in the introduction given the Omaha man by Prof. Grumann of the state university. Superintendent Davidson replied in a happy vein and gave an interesting talk on "The Trend of the World's Educational Movement."

In paying tribute to the University of Nebraska Superintendent Davidson said that there are three stages in teaching, namely, device, method, and philosophical eras. The University of Nebraska represents the philosophical stage and stands as the dominant and correlating force in educational work in the state.

At 10:30 a. m. Superintendent Davidson met the superintendents and principals in the Temple theater and spoke at some length on "Some Problems in Administration" as concerns the board, and as concerns the school. General discussion of these topics followed.

At 1 o'clock a banquet was served in the university temple, at which Mr. Davidson was the guest of honor. On this occasion Chancellor Avery gave an address.

"I am sorry to leave this state," said the Omaha man. "In the eight years that I have been here I have made many people from all parts of the state and I have formed many very pleasant friendships. I have come to have a great admiration for the Nebraska school people and I do not leave without regret."

"Nebraska teachers have the spirit of their profession more than any other body of teachers that I know. You cannot meet them without appreciating that. I know that in Omaha we have a magnificent body of fine corps of teachers, and I know that the same thing exists under Superintendent Stephens in Lincoln, with Superintendent Waterhouse in Fremont, with Superintendent Bodwell in Beatrice and elsewhere. The teachers have the professional idea and that is why Nebraska has the least percentage of illiteracy of any state in the union."

"And I want to emphasize the part that the University of Nebraska has in this good work. The university does not tyrannize or attempt to control the public school system of the state. For that matter, no other outside influence does. But the university is a splendid example and holds the power of its example it holds the school system of Nebraska in the hollow of its hand. Without tyranny it occupies the commanding position and it is doing a great work from that vantage ground. You see, the highest scholastic honor that I have come to me when the university conferred upon me the degree of doctor of laws, and so I feel pretty much in touch with it."

MANY MISFORTUNES IN FAMILY. Hewitt Brothers at Scott's Bluff Suffered Through Illness and Accident.

CENTRAL CITY, Neb., June 12.—(Special.)—A year ago three Hewitt brothers and their families left here to seek homes and fortunes in the western part of Nebraska, finally locating at Scott's Bluff. These misfortunes started in with a general sickness in the families and loss of crops. The latest calamity is the death of one of the brothers, Leo Hewitt, from the effects of being kicked by a horse, and the death of his two daughters from diphtheria. The wife and a daughter are all the survivors of that family. Ira Hewitt, another brother, was severely kicked by a horse some time ago and lingered for weeks between life and death, but is now recovered. His daughter has contracted the diphtheria from her cousin and is dangerously ill with that malady. Will Hewitt, the third brother, was ill for a long while with typhoid fever, and his son, 12 years of age, died from that malady. Later Will Hewitt lost his hand in some well-deserving machinery.
