IS YOUR HAIR STREAKED WITH GRAY? GRAY HAIR MEANS AGE. A Few Applications of a Simple Remedy Bring Back the Natural Color. How often one hears the expression, 'She is gray and beginning to look old.' It is true that gray hair usually denotes age and is always associated with it. You never hear one referred to as having gray hair and looking young. The hair is generally the index of age. If your hair is gray, you can't blame your friends for referring to you as looking old. You can't retain a youthful appearance if you allow your hair to grow gray. Many persons of middle age jeopardize their future simply by allowing the gray hair to become manifest. If your hair has become faded or gray, try Wyeth's Sage and Sulphur Hair Remedy, a preparation which a chemist by the name of Wyeth devised a few years ago. It is simple, inexpensive and practical, and will banish the gray hairs in a few days. It is also guaranteed to remove dandruff and promote the growth of the hair. It is a pleasant dressing for the hair, and after using it a few days itching and dryness of the scalp entirely disappear. This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Sherman & McConnell Drug Co., and Owl Drug Co.
