

ALL READY FOR SANE FOURTH

Merchants Lay In a Supply to Comply with the Law.

HIGH EXPLOSIVES ARE TABOOED

All Sorts of New Devices to Amuse the Children Take the Place of the More Dangerous Kinds of Fireworks.

Sane Fourth cost just as much as the old kind in which death and injury featured the neat day's papers.

Dealers already are laying in their stocks of celebratory materials. The toy cannon and the murderous cracker of large dimensions have been tabooed.

One hears much every year about the great fortunes that are spent in every city to be burned up in glorious acclaim of the country's Fourth day.

Invention has not produced many new effects in the fireworks line. Pyrotechnics, basically, are about the same as they were several years ago.

"No hospital days for my kids," mused Mr. Benedict as the noise day approaches. "I'll just look around and get something quiet and peaceful for the youngsters."

"We have here the Bengal stick," said the dealer, as Benedict declared his intention. "This burns with an intense color, throwing off brilliant red flutings."

"What is that?" he asked, pointing to a small box with various kinds of pieces set within it.

"That settles the question," said Benedict. And he took the box home and hid it back of the gas stove.

Commissioners Turn Down Economy Plan

County state operating expenses will not be decreased during the summer months, even in the interest of economy.

Elsasser introduced a resolution to withdraw the \$9 a month which the county is paying the Associated Charities for the hire of an investigator.

Commissioner Lynch had attacked the needless expense at the county store, showing that the total for the famous Twentieth Century limited of the New York Central between New York and Albany and the Pennsylvania special of the Pennsylvania railroad between Chicago and Fort Wayne.

DEAVER TO PULL THE LEVER

Burlington Official to Have the Honor of Operating Government Irrigation Project.

D. Clem Deaver, colonization agent of the Burlington, leaves Tuesday for Powell, Wyo., where he will pull the lever that turns the water into the Barton unit of the big Shoshone dam project.

The Shoshone dam has cost the government nearly \$2,000,000 but it will reclaim from the desert 150,000 acres of land, thus making the outlay fully worthy of the expense.

Advertisement for The Pantorium. PANTORIUM BULLETIN NO. 3. Cleaning Summer Dresses. While DRY CLEANING has the "call" on any other cleaning or renovating process, ever discovered or invented it also has its limitations. For instance, Summer dresses of silk, Organza, Swiss, India Liten and Linen; about one-half of those received by the Cleaner cannot be properly Dry Cleaned and can be Wet Cleaned. Those containing perspiration stains, grass stains or any other discolorations that spread over too large a surface for the Spotter to remove must be Wet Cleaned. But, mind you, Wet Cleaning as we do it is not like you get at the laundry nor like you would do it at home—the dresses are Dry Cleaned first, thus putting them in a condition which makes Wet Cleaning much easier and more satisfactory. Each garment is taken individually and cleaned by hand in warm distilled water with pure neutral soap, after which it is rinsed and just enough sizing (not starch) added to give it the feel and appearance it had when new. This careful hand work and special attention of expert workmen is why we have to charge from \$1.50 to \$2.00 for cleaning summer dresses—and it is also why you get here the best work in Omaha. Our complete Price List sent on request. Out of town business receives prompt attention. The Pantorium "Good Cleaners and Dyers" 1513-15-17 Jones St. Phone: Doug. 963; Ind. A-3168.
